

## **Integrated Transport Programme for Sevenoaks 2010/11**

A report by the Head of Transport & Development to the Joint Transportation Board on 16 June 2009

---

### **2010/11 Programme**

1. The schemes listed in Appendix B are those that have recently been assessed for inclusion in the 2010/11 programme using the new Scheme Prioritisation System that has replaced PIPKIN following consultation with and approval of the Cabinet Member for Highways.
2. The new Scheme Prioritisation System has been developed to enable officers to assess every scheme proposed and compare these to other schemes as to how they contribute to national, regional and local transport targets. The score achieved by a scheme shows the contribution the scheme makes to these targets with the highest scoring schemes contributing most to the targets and acts as a guide for officers and Members in deciding which schemes should be funded and constructed.
3. The Scheme Prioritisation System is based around the four shared transport priorities recommended by the Local Government Association in 2005 of tackling congestion, improving accessibility, increasing road safety and improving air quality. Each scheme is attributed a score based on how it meets with these targets. Scheme Prioritisation System puts more emphasis on road safety schemes and gives the Joint Transportation Boards the opportunity to allocate its top eight priority schemes bonus points.
4. A more detailed report on the Scheme Prioritisation System that went to the County Councils Highways Advisory Board on the 5<sup>th</sup> May 2009 is included in Appendix A. The County Council will also be inviting Members of this Board to attend a seminar on Scheme Prioritisation System in the summer which will provide further guidance and advice to JTB's as to how to allocate its bonus points.
5. Appendix B details the schemes that have been submitted for bids in Sevenoaks for 2010/11 with the provisional scores which will be subject to change at the next meeting of this Board once the Board has allocated its bonus points.
