## Gloucestershire Advisory Freight Route Map

This map indicates the best available routes for heavy goods vehicles travelling in Gloucestershire. The map illustrates the locations of industrial and trading estates as well as lorry lay-bys and roadside facilities. The routes chosen as designated lorry routes have been agreed by the County Council. By encouraging drivers to use the routes indicated, lorry operators are assisting in avoiding environmentally sensitive areas and conflicts with local residents.

### Know your vehicle height, weight and width

The map shows bridges on the lorry route network where the safe clearance is restricted partially or wholly below 16'3" (4.95 metres). It also shows bridges and roads with weight restrictions.

Please note there are signed height and weight restrictions which are not shown on this map. These are on other, non-lorry route roads.

If your height is greater than 16'3" (4.95 metres) and if you cannot lower your load you must check out your route with the relevant highway authorities.
