

SID in Seal Hollow Road.

The Residents in this area would like to express their appreciation of the efforts Kent Highway Services have made to curb speeding in Seal Hollow Road.

The Chronicle recently did a survey and recorded 51% of cars and vans over the limit. The temporary SID is an improvement but we would prefer it to be operative for a longer period.

At present there are 12 SIDs which are rotated around 48 sites in the County.

We would ask for this number to be greatly increased in order that the SID in Seal Hollow Road can have a more effective usage. Elderly pedestrians and school children cross the road just beyond this point in order to reach the bus-stop.
