The Council's Constitution provides that a site inspection may be determined to be necessary if:

- i. Particular site factors are significant in terms of weight attached to them relative to other factors and it would be difficult to assess those factors without a Site Inspection.
- ii. The characteristics of the site need to be viewed on the ground in order to assess the broader impact of the proposal.
- iii. Objectors to and/or supporters of a proposal raise matters in respect of site characteristics, the importance of which can only reasonably be established by means of a Site Inspection.
- iv. The scale of the proposal is such that a Site Inspection is essential to enable Members to be fully familiar with all site-related matters of fact.
- v. There are very significant policy or precedent issues and where site-specific factors need to be carefully assessed.

When requesting a site inspection, the person making such a request must state under which of the above five criteria the inspection is requested and must also provide supporting justification.
