

COMMUNITY INFRASTRUCTURE LEVY:

REGULATION 123 LIST:

TYPES OF INFRASTRUCTURE TO BE FUNDED BY CIL

November 2014

Community Infrastructure Levy

The following types of infrastructure will be funded through CIL receipts:

- Transport schemes other than site-specific access improvements;
- Flood defence schemes;
- Water quality schemes;
- Education;
- Health and social care facilities;
- Police and emergency services facilities;
- Community facilities;
- Communications infrastructure (beyond that directly secured by agreement between the developer)
- Green infrastructure other than site-specific improvements or mitigation measures (for example improvements to parks and recreation grounds).

The Council will not treat this list as exclusive and may use CIL to fund other types of infrastructure, subject to its governance arrangements. However the Council will not use CIL to fund site specific infrastructure to be secured through a planning obligation.

Planning Obligations

SDC will use planning obligations for site specific infrastructure, such as:

- Site specific access improvements (these could also be secured through s278 of the Highways Act 1980 in some circumstances);
- On-site open space, for example children's play areas;
- Site specific green infrastructure, including biodiversity mitigation and improvement;
- On-site crime reduction and emergency services infrastructure, for example CCTV or fire hydrants; and
- Site specific Public Rights of Way diversions or impact mitigation.

Where required to accord with national or local policy, the Council will also use planning obligations to secure the re-provision of any infrastructure that is permitted to be lost through a planning permission granted for redevelopment of that site.

In addition, affordable housing provision and contributions, and related monitoring and legal fees, will continue to be secured through planning obligations.
