Conclusion:

Three tender returns were considered for the supply of two vans and a transporter, after careful consideration to cost, delivery time, completeness of tender response and suitability to requirement we recommend the tender be awarded to The HTC Group for the purchase of two Fiat Ducato Vans and one Ducato based Transporter vehicle.

Note:

The tender returned by the Vic Young Group failed to include any details of the vehicles and so a complete evaluation was not possible.

* Ford have subsequently let us know that the factory has reached capacity and that we would be looking at 6 to 7 month before delivery.
