The Future of Rail in the South East: A Joint Vision Statement (Gatwick Airport Operator)
Reasons for Decision:
Reasons for Decision:  SDC supports reinstatement of rail links between Tonbridge, Edenbridge and Gatwick. This would reduce the need to travel along the M25 through the District, which is an Air Quality Management Area, and increase the attractiveness of business and tourist locations in the District. Recent representations on the Draft Gatwick Airport Masterplan and the Kent Rail Action Plan have raised a need for this service. The Joint Vision Statement proposed by the Gatwick Airport Operator stresses the need for improved rail access to Gatwick. It is considered that working with the Gatwick Airport Operator and other local authorities, such as West Sussex, Crawley and Horsham, will increase the chances of improvements to rail connections to Gatwick being agreed through the next rail franchise agreements.
