EXEMPT INFORMATION

At the time of preparing this agenda there were no exempt items. During any such items which may arise the meeting is likely NOT to be open to the public.

If you wish to obtain further factual information on any of the agenda items listed above, please contact the named officer prior to the day of the meeting.

Should you need this agenda or any of the reports in a different format, or have any other queries concerning this agenda or the meeting please contact Democratic Services on 01732 227000 or democratic.services@sevenoaks.gov.uk.

FINANCE ADVISORY COMMITTEE

Minutes of the meeting held on 15 November 2018 commencing at 7.03pm

Present: Cllr. Scholey (Chairman)

Cllrs. C. Barnes, Mrs. Bayley, Bosley, Dr. Canet, Kelly, Lake and Pearsall

Apologies for absence were received from Cllrs. Esler, Eyre and Pett

Cllr Grint was also present.

24. Minutes

Resolved: That the Minutes of the meeting of the Finance Advisory Committee held on 4 September 2018 be approved and signed by the Chairman as a correct record.

25. Declarations of Interest

There were no additional declarations of interest.

26. Actions from Previous Meeting

There were none.

27. Update from Portfolio Holder

The Portfolio Holder and Chairman reported that apart from budget matters he had been working on preventative asset management which featured later on the agenda, and with the Income Strip Funding Working Group. He advised that the Working Group had met six times and was close to forming recommendations to Council.

28. Referral from Cabinet or the Audit committee

There were none.

29. Council Tax Reduction Scheme 2019/20

The Benefits Manager presented a report which had already been considered by Cabinet on 8 November 2018 which had sought Member's approval to recommend the adoption of a replacement Council Tax Reduction (CTR) scheme for 2019/2020, to be implemented with effect from 1 April 2019. Cabinet had agreed to recommend approval to Council and that the Finance Advisory Committee could

Agenda Item 1

Finance Advisory Committee - 15 November 2018

forward any comments it had straight to Council on this occasion. In response to questions Members were advised that it was a local scheme and each borough/district had their own.

Public Sector Equality Duty

Members noted that consideration had been given to impacts under the Public Sector Equality Duty.

Resolved: That

- a) the report be noted; and
- b) it be recommended to Council to adopt the new Council Tax Reduction scheme from the 2019/20 financial year.

30. Land at Jenkins Neck Wood, Shacklands Road, Badgers Mount

The Head of Economic Development presented the report which provided an update on the proposed disposal of surplus property assets at Jenkins Neck Wood, Shacklands Road, Badgers Mount. He advised that since the publication of the papers he had met with the owners of 1 Shacklands Cottages who had wanted some points raised. They felt aggrieved that they had not been granted the freehold only a leasehold in the decision made by Cabinet in 2008. They also wanted to comment on the Parish Council's letter attached as Appendix B to the report, stating that the trees that had been felled had been either dead or dying due to deer damage and had not been ancient woodland and there had been no tree preservation orders at that time. They did not believe they had been treated equitably.

Cllr Grint addressed the Committee as local ward councillor and parish councillor. He commented that the report was a fair summary of the current situation and reiterated the parish's concerns and desire that the land remain with the Council, was transferred to Badgers Mount Parish Council or was looked after by an independent trust.

Members were concerned that the land should remain protected which could not be guaranteed if it was sold privately. Members discussed the pros and cons of selling it as leasehold or freehold, but agreed it should remain under the Council's ownership or passed to the parish council.

Public Sector Equality Duty

Members noted that consideration had been given to impacts under the Public Sector Equality Duty.

Resolved: That it be recommended to Cabinet that the Advisory Committee's preferred option for the disposal of surplus land at Shacklands Road, Badgers Mount would be a transfer of the whole to the Parish Council for a nominal consideration by way of a grant of either the freehold or a long leasehold

interest with any transfer subject to the Tree Preservation Order and suitable restrictions within any long leasehold interest.

31. Treasury Management - Mid-Year Update 2018/19

The Principal Accountant presented the report which gave details of treasury activity in the first half of the current financial year, recent developments in the financial markets and fulfils the reporting requirements of the Chartered Institute of Public Finance and Accountancy (CIPFA) Code of Practice on Treasury Management.

Public Sector Equality Duty

Members noted that consideration had been given to impacts under the Public Sector Equality Duty.

Resolved: That it be recommended to Cabinet that the Treasury Management Mid-Year Update for 2018/19, be approved.

32. Asset Maintenance - Planned Preventative maintenance

Members considered a report which detailed the results of recent asset maintenance surveys for Council owned buildings where the Council had maintenance liability responsibilities and recommended full consideration be given to the implications for the ten year budget plan. In response to a query the Chairman advised that he hoped to progressively increase the amount of cover with a view to having it fully funded within 5 years.

Public Sector Equality Duty

Members noted that consideration had been given to impacts under the Public Sector Equality Duty.

Resolved: That it be recommended to Cabinet that the results of the Planned Preventative Maintenance Surveys be noted and be fully considered in a future budget report and the implications for the 10 year budget plan, with a view to having it fully funded within five years.

33. Budget 2019/20: Service Dashboards and Service Change Impact Assessments (SCIAs)

Agenda Item 1

Finance Advisory Committee - 15 November 2018

The Chief Finance Officer presented a report, which explained that this was the second stage of the budget process and ensured that all Members of the Advisory Committees had a role to play in the governance of the Council and the budget decision making process. He explained that since the current financial strategy was introduced in 2011/12, over £7 million of savings had been agreed.

To continue to have a balanced budget position and remain financially self-sufficient, a net savings requirement of £100,000 per annum was included in the budget. The Chief Finance Officer also advised Members that other pressures may come out later in the budget process such as when the Local Government Finance Settlement was announced in December. These may result in additional savings being required.

Growth and savings proposals were included in the report for this Committee and Members were asked for their suggestions in order to achieve the £100,000 net saving required for the next year, which would be considered by Cabinet, before finalising the budget for 2019/20.

Public Sector Equality Duty

Members noted that consideration had been given to impacts under the Public Sector Equality Duty.

Resolved: That it be recommended to Cabinet that

- a) the growth proposal identified in Appendix D to the report (SCIAs 11) applicable to this Advisory Committee, be considered:
- b) the savings proposals identified in Appendix D (SCIAs 12, 13, 14) applicable to this Advisory Committee, be considered; and
- c) preventative asset maintenance be put forward as a growth item in order to have it fully funded within five years;
- d) there were no further suggestions for savings.

34. Financial Results 2018/19 - to the end of September 2018

The Head of Finance presented a report on the Council's financial results 2018/19 to the end of September 2018, which showed the year end position was currently forecast to be an unfavourable variance of £99,000; which represented 0.67% of our net service expenditure budget totalling £14,687,000.

Public Sector Equality Duty

Members noted that consideration had been given to impacts under the Public Sector Equality Duty.

Resolved: That the report be noted.

35. Financial Performance Indicators 2018/19 - to the end of September 2018

The Head of Finance presented a report which detailed the internally set performance indicators as at the end of September 2018, which Members considered.

Public Sector Equality Duty

Members noted that consideration had been given to impacts under the Public Sector Equality Duty.

Resolved: That the report be noted.

36. Work Plan

The work plan was noted. It was agreed to add service updates to the summer and autumn meetings.

THE MEETING WAS CONCLUDED AT 8.28 PM

CHAIRMAN

DISCRETIONARY RATE RELIEF

Finance Advisory Committee - 29 January 2019

Report of Chief Finance Officer
Status: For Decision
Also considered by: Cabinet - 14 February 2019
Key Decision: No

Executive Summary:

The Council requires potential recipients of discretionary rate relief to submit a formal application every two years. This report sets out the proposals for awarding discretionary rate relief for 2019/2020 to ratepayers who have made applications or who are expected to make an application before 1 March 2019.

The report also provides an update on the local discretionary rate relief scheme which will be in its third year of operation in 2019/2020 and sets out the proposed approach for the implementation of the Retail Discount Scheme for 2019/2020 and 2020/2021.

This report supports the Key Aims of: Supporting and developing the local economy and providing value for money

Portfolio Holder Cllr. John Scholey
Contact Officers Sue Cressall Ext. 7041
Paula Porter Ext. 7277

Recommendations to Finance Advisory Committee: members are asked to recommend that Cabinet approve the proposals for granting relief from business rates for 2019/2020 set out in Appendix B.

Members are asked to note the estimated level of local discretionary rate relief to be awarded in 2019/2020 as set out in paragraph 24

Members are asked to recommend that Cabinet approve the proposed approach for implementation of the Retail Discount for 2019/2020 and 2020/2021.

Recommendation to Cabinet: members are asked to approve the proposals for granting relief from business rates for 2019/2020 set out in Appendix B.

Members are asked to note the estimated level of local discretionary rate relief to be awarded in 2019/2020 as set out in paragraph 24

Members are asked to approve the proposed approach for implementation of the Retail Discount for 2019/2020 and 2020/2021.

Reason for recommendations: Relief from business rates provides organisations with valuable support and contributes to the Council's commitment to supporting and developing the local economy.

Introduction and Background

- 1 Charities and sports organisations that have charitable status currently receive 80% mandatory relief. In order to qualify for the mandatory relief the organisation must be established for charitable purposes only and the premises must be wholly or mainly used for charitable purposes. Sports clubs registered with HMRC as community amateur sports clubs are also entitled to 80% mandatory relief.

Certain types of business in rural villages may qualify for 50% mandatory rate relief subject to the rateable value of the property being under specified limits.

- 2 Section 47 of the Local Government Finance Act 1988 (as amended by s69 of the Localism Act 2011) provides local authorities with powers to grant discretionary rate relief of up to 100% to any ratepayer.
- 3 Discretionary rate relief can be awarded in isolation or given to 'top-up' a mandatory award.
- 4 However, unless one of the following apply, authorities may only grant discretionary rate relief if satisfied that it would be reasonable to do so, having regard to the interests of the council tax payers:
 - The ratepayer is a charity or trustees for a charity, and the property is wholly or mainly used for charitable purposes; or
 - The ratepayer is a community amateur sports club and the property is wholly or mainly used for the purpose of the club and other such clubs; or
 - The ratepayer is entitled to mandatory rural rate relief; or
 - All or part of the property is occupied by non-profit making organisations whose main objects are charitable or are otherwise philanthropic or religious or concerned with education, social welfare, science, literature or the fine arts; or

- The property is occupied by a club, society or other non-profit making organisation and it is wholly or mainly used for purposes of recreation.
- 5 Authorities should have easily understood guidelines for deciding whether or not to grant relief and for determining the amount of relief which should be based on the consideration of the merits of each individual case. However, as the range of bodies that may be eligible for discretionary rate relief is wide, not all the suggested criteria will be applicable in each case.

Introduction

- 6 The Council currently grants discretionary rate relief over the following categories:
- Discretionary rate relief up to 100% of rates bill (but usual award is 80%);
 - Village Shop rate relief at 50% of rates bill;
 - Hardship relief up to 80% of rates bill; and
 - Discretionary ‘top-up’ relief to take total relief up to 100% of the rates bill.
- 7 Members reviewed the criteria for granting discretionary rate relief to charities, not for profit organisations, discretionary rural rate relief and hardship relief in February 2013 and this is attached at Appendix A.
- 8 The Government announced the intention to double mandatory rural rate relief to 100% from 1 April 2018 onwards. However, this still requires an amendment to primary legislation which cannot be implemented by 1 April 2019. Local Authorities are advised to use discretionary powers to award the additional 50% relief which will be reimbursed by way of a section 31 grant.
- 9 Officers also recommend the award of discretionary rural rate relief to those businesses offering some or all of the service of a Post Office or General Store which is essential to the community but which don’t qualify for mandatory rural rate relief because of the rateable value. These businesses will be entitled to an element of Retail Discount and the recommendation is to award discretionary rural rate relief after application of the Retail Discount so as to give the ratepayers 100% relief from business rates.
- 10 Applications from ratepayers falling outside of these criteria will be considered on their merits and individual recommendations will be made having regard to the interests of the District’s council tax payers.

Approach taken to reviewing applications

- 11 The full list of applications, together with officer recommendations, is attached at Appendix B. Each application has been considered on its own merits, however in reviewing applications against the criteria, similar organisations were considered together, to ensure consistency of approach.

Agenda Item 6

- 12 The criteria was applied as follows for discretionary rate relief and discretionary top-up relief:
- Links to Council priorities - the extent to which the activities supported the Council's priorities was assessed, including support/activities for vulnerable or socially excluded groups.
 - Evidence of financial need including reserve levels and assets - all organisations were requested to provide financial information and reserve levels were compared to annual expenditure, to assess financial need. The ability to generate income was also considered. In addition, for sports clubs, consideration was given to whether they had applied to become community amateur sports clubs (CASCs).
 - Membership within the District - where it appeared that a substantial proportion of the membership was from outside the District, this was taken into account in putting forward a recommendation.
 - Membership open to all - where membership is restricted to a particular group or locations, or is dependent on recommendations from existing members this has been taken into account, as not all residents would be able to benefit from the relief granted.
 - Membership fee levels - fee levels were assessed to consider whether they were so high that they could exclude some in the local community.
 - Bar activity and profits - if the bar is the main activity an organisation was unlikely to be recommended for relief. Any profits are expected to be used to fund club expenses.
- 13 For discretionary village shop relief, officers considered the benefits of the shop/business to the local community when compared with the cost of the relief. It is recommended that the village shops receive relief due to the benefit they provide to local communities.
- 14 Where a ratepayer receives 100% small business rate relief the recommendation is for no discretionary rate relief or village shop relief to be granted, since the businesses already receive maximum support.
- 15 There is no formal appeals process against the Council's decisions on the discretionary reliefs referred to in this report. The current approach is however to re-consider decisions in the light of any representations made by the ratepayers.

Applications for 2019/2020

- 16 Appendix B contains the details of each applicant to be considered for relief for 2019/2020 and detailed recommendations of the level of relief to be applied. The deadline for applications was 15 November 2018 but many expected applications had not been received by this date. The report therefore recommends relief for ratepayers who have or will have submitted

an application by 1 March 2019. Officers are continuing to press for completed applications.

- 17 All applicants fall to be considered under the criteria set out in Appendix A.
- 18 The level of relief is based upon the provisional multipliers announced on 2 November 2018 which are subject to confirmation. In the unlikely event that the multipliers change, a further report setting out the revised relief awards will be submitted.
- 19 If applications are approved, the estimated total gross relief granted would be £198,219.
- 20 Members should be aware that the requirement for relief can change during the financial year as a result of rateable value changes, vacations etc. Therefore, some of these awards may not ultimately require full funding.

Other Options Considered and/or Rejected

- 21 Members have discretion not to grant rate relief or to vary the amount of relief awarded. No recommendation is being made to reduce or remove relief because relief from business rates provides organisations with valuable support and contributes to the Council's commitment to supporting and developing the local economy.

Discretionary Local Business Rate Relief Scheme (Revaluation Relief)

- 22 In the Budget on 8 March 2017, the government announced that £300m in funding over the period 2017/18 to 2020/21 would be provided to support those businesses most affected by the revaluation of business rates from 1 April 2017.
- 23 On 14 September 2017 Cabinet approved Sevenoaks' Discretionary Local Business Rates Relief Scheme (Minute. 29) and on 6 February 2018 Cabinet approved changes to the scheme (Minute 72). The changes included provision for delegated authority to be given to the S151 officer to amend the scheme for future years to ensure relief was properly targeted and fully utilised for the benefit of the affected ratepayers.
- 24 The S151 officer has exercised that delegated power to increase the maximum percentage relief for 2019/2020 from 10% to 12% to ensure that as much of Sevenoaks' funding allocation of £57,000 is passed on to affected ratepayers. On that basis the projected relief for 2019/2020 stands at £45,010.
- 25 The projected underspend is because some ratepayers who fell within the scheme are no longer liable for business rates on the affected properties and/or rateable values have been reduced.

Agenda Item 6

Retail Discount

- 26 In the Budget on 29 October 2018, the government announced a new relief scheme for retail properties that have a rateable value of below £51,000. Under the scheme, eligible ratepayers will receive a one third discount of their daily chargeable amount. Relief will have effect for 2019/2020 and 2020/21 and is to be applied from the start of the billing cycle.
- 27 Local authorities are required to use discretionary powers to grant this new relief in line with the relevant eligibility criteria. Appendix C contains government guidance on the Retail Discount scheme which is broadly similar to the previous Retail Relief scheme in operation for 2014/2015 and 2015/2016.
- 28 Appendix D contains the Retail Discount Guidelines which set out how Sevenoaks intends to implement and administer this new relief.
- 29 At this stage indications are that around 450 ratepayers will potentially be eligible for this relief, although some are major chains and relief may be refused due to State Aid restrictions. Potential awards vary from a minimum of £220.00 to a maximum of £8,183.00.

Key Implications

Financial

- 30 Since 1 April 2013 all discretionary relief granted has come under the provisions of the business rate retention scheme.
- 31 The cost of relief is initially shared between central government (50%) and local authorities (50%). Of this Sevenoaks District Council is required to fund 40%. However, due to the complexities of business rates retention, the actual impact is likely to be significantly lower.
- 32 Appendix B only refers to the gross discretionary rate relief proposed.
- 33 S31 grants will be made to compensate for the top-up to mandatory rural rate relief, revaluation relief and retail discount.

Legal Implications and Risk Assessment Statement

- 34 There are no legal issues.

Risk Assessment Statement

- 35 New organisations may request relief after the deadline for receipt of applications and so would not be able to receive discretionary relief until the next annual review. In order to address urgent cases the Chief Finance Officer determines any relief to be awarded under delegated authority. These organisations would then apply in the usual way for the next round.

- 36 A biennial application process may seem to be an additional burden for businesses, many of whom are small. Officers have taken account of this in designing the application process so as to minimise the administrative burden on applicants.

Equality Assessment

- 37 The decisions recommended through this paper have a remote or low relevance to the substance of the Equality Act. There is no perceived impact on end users.

Conclusions

- 38 There are clear benefits to the business community of awarding discretionary rate relief and therefore the proposals are submitted for endorsement as per Appendix B.

Policy for considering applications for Discretionary Rate Relief

Charitable and not for profit organisations

Under National Non-Domestic Rate (NNDR) legislation the Council has the power to award discretionary rate relief to certain charitable or not for profit organisations where the following conditions are satisfied.

All or part of the property is occupied by one or more institutions or organisations which are:

- Not established for profit, **and**
- Whose main objects are charitable or are otherwise philanthropic or religious or concerned with education, social welfare, science, literature or the fine arts; or
- Used wholly or mainly for recreation by a not-for-profit club or society.

Discretionary rate relief cannot be awarded if the ratepayer is a billing or precepting authority.

The process for considering applications is as follows:

- Not-for-profit organisations are asked to apply for discretionary rate relief (in isolation or as ‘top-up’ every two years, all applications to be considered at the same time.
- Cabinet to decide annually which organisations are to receive relief based on criteria including how the organisation assists the Council to achieve its priorities (see below). This includes deciding the level of relief to be granted in each case.

Criteria	Explanation
Links to Council priorities	The extent to which the activities of the organisation support the Council’s priorities as set out in the Corporate Plan, and specifically supporting and developing the local economy and providing good value for money through a balanced budget.
Evidence of financial need including reserve levels and assets	Organisations with high levels of reserves (covering more than 12 months’ expenditure) or who cannot demonstrate a financial need would not be a priority for rate relief.

Membership within District	As 40% of the relief is funded by SDC taxpayers priority will be given to those organisations with a high proportion of members from within the District.
Membership open to all	To give all residents an opportunity to benefit from the rate relief, priority should be given to organisations where membership is open to all.
Membership fee levels	Where membership fees are charged they should not be so high as to exclude any of the community.
Extent to which activity is based around Bar and use of profits from it	Priority would not be given to those organisations where the bar is the main activity. It would be expected that any profits from the bar would be put back to fund club expenses.

Discretionary rural rate relief

Certain types of business in rural villages, with a population below 3,000, may qualify for rate relief of 50%. Businesses that qualify for this relief are the sole general store and the sole post office in the village, provided it has a rateable value of up to £8,500, any food shop with a rateable value of up to £8,500 and the sole pub and the sole petrol station in the village provided it has a rateable value of up to £12,500. The Council has discretion to give further relief on the remaining bill on such property.

The Council may decide to give up to 100% relief to any other business in such a rural village, with a rateable value of up to £16,500, if it is satisfied that the business is of benefit to the community and having regard to the interests of its council tax payers.

Hardship Relief

Hardship relief is granted in exceptional circumstances, any business can apply for hardship relief if they can show the following:

- The business would suffer hardship if relief was not granted; and
- It is in the interests of council tax payers for relief to be granted.

An application needs to be supported by current trading figures as well as previous audited accounts or accounts accepted by HMRC. In assessing an

application regard will be had to employment issues for the company or any related business and the impact that the loss of business would have on the local area. The current approval process is that the Finance Team carries out a review of the business's accounts and the Chief Finance Officer decides whether hardship relief is appropriate based on each case's merits. In practice hardship relief has been granted in only exceptional cases to date.

About this guidance

1. This guidance is intended to support local authorities in administering the “Retail Discount” announced in the Budget on 29 October 2018. This Guidance applies to England only.
2. This guidance sets out the criteria which central Government considers for this purpose to be retail and eligible for this discount. The guidance does not replace existing legislation.
3. Enquiries on this measure should be addressed to:
ndr@communities.gov.uk

Introduction

4. The Government recognises that changing consumer behaviour presents a significant challenge for retailers in our town centres and is taking action to help the high street evolve.
5. The Government announced in the Budget on 29 October 2018 that it will provide a business rates Retail Discount scheme for occupied retail properties with a rateable value of less than £51,000 in each of the years 2019-20 and 2020-21. The value of discount should be one third of the bill, and must be applied after mandatory reliefs and other discretionary reliefs funded by section 31 grants have been applied. Where an authority applies a locally funded relief, for instance a hardship fund, under section 47 this is must be applied after the Retail Discount.
6. This document provides guidance to authorities about the operation and delivery of the policy. The Government anticipates that local authorities will include details of the relief to be provided to eligible ratepayers for 2019-20 in their bills for the beginning of that year.

Retail Discount

How will the relief be provided?

7. As this is a measure for 2019-20 and 2020-21 only, the Government is not changing the legislation around the reliefs available to properties. Instead the Government will, in line with the eligibility criteria set out in this guidance, reimburse local authorities that use their discretionary relief powers, introduced by the Localism Act (under section 47 of the Local Government Finance Act 1988, as amended) to grant relief. It will be for individual local billing authorities to adopt a local scheme and determine in each individual case when, having regard to this guidance, to grant relief under section 47. Central government will fully reimburse local authorities for the local share of the discretionary relief (using a grant under section 31 of the Local Government Act 2003). The Government expects local government to apply and grant relief to qualifying ratepayers from the start of the 2019/20 billing cycle.

8. Central government will reimburse billing authorities and those major precepting authorities for the actual cost to them under the rates retention scheme of the relief that falls within the definitions in this guidance. Local authorities will be asked to provide an estimate of their likely total cost for providing the relief in their National Non-Domestic Rate Return 1 (NNDR1) for 2019-20 and 2020-21. Central government will provide payments to authorities to cover the local share, as per the usual process.
9. Local authorities will also be asked to provide outturn data on the actual total cost for providing the relief, as per the usual process via the National Non-Domestic Rate 3 (NNDR3) forms for 2019-20 and 2020-21. Any required reconciliations will then be conducted at these points.¹

Which properties will benefit from relief?

10. Properties that will benefit from the relief will be occupied hereditaments with a rateable value of less than £51,000, that are wholly or mainly being used as shops, restaurants, cafes and drinking establishments.
11. We consider shops, restaurants, cafes and drinking establishments to mean:
 - i. **Hereditaments that are being used for the sale of goods to visiting members of the public:**
 - Shops (such as: florists, bakers, butchers, grocers, greengrocers, jewellers, stationers, off licences, chemists, newsagents, hardware stores, supermarkets, etc)
 - Charity shops
 - Opticians
 - Post offices
 - Furnishing shops/ display rooms (such as: carpet shops, double glazing, garage doors)
 - Car/ caravan show rooms
 - Second hand car lots
 - Markets
 - Petrol stations
 - Garden centres
 - Art galleries (where art is for sale/hire)
 - ii. **Hereditaments that are being used for the provision of the following services to visiting members of the public:**
 - Hair and beauty services (such as: hair dressers, nail bars, beauty salons, tanning shops, etc)

¹ As required in the NNDR3 guidance notes, the former categories of discretionary relief prior to the localism act (i.e. charitable/CASC/rural etc. top up and not for profit) should be applied first in the sequence of discretionary reliefs and, therefore, before the retail discount.

Agenda Item 6

- Shoe repairs/ key cutting
- Travel agents
- Ticket offices e.g. for theatre
- Dry cleaners
- Laundrettes
- PC/ TV/ domestic appliance repair
- Funeral directors
- Photo processing
- Tool hire
- Car hire

iii. Hereditaments that are being used for the sale of food and/ or drink to visiting members of the public:

- Restaurants
- Takeaways
- Sandwich shops
- Coffee shops
- Pubs
- Bars

12. To qualify for the relief the hereditament should be wholly or mainly being used as a shop, restaurant, cafe or drinking establishment. In a similar way to other reliefs (such as charity relief), this is a test on use rather than occupation. Therefore, hereditaments which are occupied but not wholly or mainly used for the qualifying purpose will not qualify for the relief.
13. The list set out above is not intended to be exhaustive as it would be impossible to list the many and varied retail uses that exist. There will also be mixed uses. However, it is intended to be a guide for authorities as to the types of uses that Government considers for this purpose to be retail. Authorities should determine for themselves whether particular properties not listed are broadly similar in nature to those above and, if so, to consider them eligible for the relief. Conversely, properties that are not broadly similar in nature to those listed above should not be eligible for the relief.
14. The list below sets out the types of uses that the Government does not consider to be retail use for the purpose of this relief. Again, it is for local authorities to determine for themselves whether particular properties are broadly similar in nature to those below and, if so, to consider them not eligible for the relief under their local scheme.

i. Hereditaments that are being used for the provision of the following services to visiting members of the public:

- Financial services (e.g. banks, building societies, cash points, bureaux de change, payday lenders, betting shops, pawn brokers)
- Other services (e.g. estate agents, letting agents, employment agencies)
- Medical services (e.g. vets, dentists, doctors, osteopaths, chiropractors)

- Professional services (e.g. solicitors, accountants, insurance agents/ financial advisers, tutors)
- Post office sorting offices

ii. Hereditaments that are not reasonably accessible to visiting members of the public

15. Generally speaking, the government also does not consider other assembly or leisure uses beyond those listed at paragraph 11 to be retail uses for the purpose of the discount. For example, cinemas, theatres and museums are outside the scope of the scheme, as are nightclubs and music venues which are not similar in nature to the hereditaments described at paragraph 11(iii) above. Hereditaments used for sport or physical recreation (e.g. gyms) are also outside the scope of the discount. Where there is doubt, the local authority should exercise their discretion with reference to the above and knowledge of their local tax base.

How much relief will be available?

16. The total amount of government-funded relief available for each property for 2019-20 and 2020/21 under this scheme is one third of the bill, after mandatory reliefs and other discretionary reliefs funded by section 31 grants have been applied, excluding those where local authorities have used their discretionary relief powers introduced by the Localism Act which are not funded by section 31 grants². There is no relief available under this scheme for properties with a rateable value of £51,000 or more. Of course, councils may use their discretionary powers to offer further discounts outside this scheme. However, where an authority applies a locally funded relief, sometimes referred to as a hardship fund, under section 47 this is must be applied after the Retail Discount.
17. The eligibility for the relief and the relief itself will be assessed and calculated on a daily basis. The following formula should be used to determine the amount of relief to be granted for a chargeable day for particular hereditament in the financial year 2019-20:

Amount of relief to be granted =

$$\frac{V}{3} \text{ where}$$

V is the daily charge for the hereditament for the chargeable day after the application of any mandatory relief and any other discretionary reliefs, excluding those where local authorities have used their discretionary relief

² As required in the NNDR3 guidance notes, the former categories of discretionary relief prior to the localism act (i.e. charitable/CASC/rural etc. top up and not for profit) should be applied first in the sequence of discretionary reliefs and, therefore, before the retail discount.

Agenda Item 6

powers introduced by the Localism Act which are not funded by section 31 grants³.

18. This should be calculated ignoring any prior year adjustments in liabilities which fall to be liable on the day.
19. Ratepayers that occupy more than one property will be entitled to relief for each of their eligible properties, subject to State Aid De Minimis limits.

State Aid

20. State Aid law is the means by which the European Union regulates state funded support to businesses. Providing discretionary relief to ratepayers is likely to amount to State Aid. However Retail Relief will be State Aid compliant where it is provided in accordance with the De Minimis Regulations (1407/2013)⁴.
21. The De Minimis Regulations allow an undertaking to receive up to €200,000 of De Minimis aid in a three year period (consisting of the current financial year and the two previous financial years). Local authorities should familiarise themselves with the terms of this State Aid exemption, in particular the types of undertaking that are excluded from receiving De Minimis aid (Article 1), the relevant definition of undertaking (Article 2(2)⁵) and the requirement to convert the aid into Euros⁶.
22. To administer De Minimis it is necessary for the local authority to establish that the award of aid will not result in the undertaking having received more than €200,000 of De Minimis aid. Note that the threshold only relates to aid provided under the De Minimis Regulations (aid under other exemptions or outside the scope of State Aid is not relevant to the De Minimis calculation). Annex B of this guidance contains a sample De Minimis declaration which local authorities may wish to use, to discharge this responsibility. Where local authorities have further questions about De Minimis or other aspects of State Aid law, they should seek advice from their legal department in the first instance⁷.
23. The UK is scheduled to leave the EU on 29 March 2019. If there is an Implementation Period, the State Aid rules will continue to apply as now and will be subject to control by the EU Commission as at present. If the UK leaves the EU without a negotiated Withdrawal Agreement, the Government has announced its intention to transpose EU State Aid rules into UK domestic legislation, with only technical modifications to correct deficiencies with the transposed EU law to ensure

³ As required in the NNDR3 guidance notes, the former categories of discretionary relief prior to the localism act (i.e. charitable/CASC/rural etc. top up and not for profit) should be applied first in the sequence of discretionary reliefs and, therefore, before the retail discount.

⁷ Detailed State Aid guidance can also be found at:

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/15277/National_State_Aid_Law_Requirements.pdf

the regime operates effectively in a domestic context⁸. Local authorities should therefore continue to apply State Aid rules, including De Minimis, to the relief for 2019/20 and 2020/21.

Splits, mergers, and changes to existing hereditaments

24. The relief should be applied on a day to day basis using the formula set out above. A new hereditament created as a result of a split or merger during the financial year, or where there is a change of use, should be considered afresh for the relief on that day.

Annex A: Calculation examples for 2019/20

The retail discount (one third) is always calculated after mandatory relief and other discretionary reliefs funded by section 31 grant.

Example 1: An occupied shop with a rateable value of £40,000

Gross rates (before any reliefs) = £40,000 x 0.491	= £19,640
Retail discount (1/3):	= -£6,547
Rates due (after retail discount):	= £13,093

Example 2: An occupied charity shop with a rateable value of £40,000

Gross rates (before any reliefs) = £40,000 x 0.491	= £19,640
Net rates after charity relief:	= <u>£3,928</u>
Retail discount (1/3):	= -£1,309
Rates due (after charity relief and retail discount):	= £2,619

Example 3: An occupied shop with a rateable value of £13,500 eligible for Small Business Rate Relief (SBRR)

Gross rates (before any reliefs) = £13,500 x 0.491	= £6,629
Net rates after SBRR (50%):	= <u>£3,314</u>
Retail discount (1/3):	= -£1,105
Rates due (after SBRR and retail discount):	= £2,210

Example 4: An occupied shop with a rateable value of £10,000 eligible for Small Business Rate Relief (SBRR)

Gross rates (before any reliefs) = £10,000 x 0.491	= £4,910
Net rates after SBRR (100%):	= £nil
Rates bill is nil and, therefore, no retail discount applies	

Example 5: An occupied shop with a rateable value of £40,000 eligible for Transitional Relief (TR) and receiving Revaluation Discretionary Relief

Gross rates (before any reliefs) = £40,000 x 0.491	= £19,640
Transitional Relief (say):	= -£1,500
Net rates after Transitional Relief:	= £18,140
Net rates after Revaluation Discretionary Relief (say):	= <u>£15,140</u>
Retail discount (1/3):	= -£5,047
Rates due (after TR, revaluation relief and retail discount):	= £10,093

Example 6: An occupied shop with a rateable value of £18,000 previously paying nothing prior to revaluation 2017 and eligible for Supporting Small Businesses Relief (SSB)

Gross rates (before any reliefs) = £18,000 x 0.491	= £8,838
Supporting Small Businesses Relief (say):	= -£7,038

Net rates after SSB:	= £1,800
Retail discount (1/3):	= -£600
Rates due (after SSB and retail discount):	= £1,200

Example 7: A shop with a rateable value of £40,000 (example 1) but only occupied until 30 September 2019

Gross rates (before any reliefs) = £40,000 x 0.491	= £19,640
Retail discount (1/3):	= -£6,547
Rates due p.a. (after retail discount):	= £13,093
Daily charge while occupied (leap year):	= £35.77 per day
Occupied charge 1/4/19 to 30/9/19 (183 days):	= £6,547
Unoccupied property relief (1/10/19 to 1/1/20):	= £nil
Unoccupied property rates (1/1/20 to 31/3/20), £19,640 x 91/366	= £4,883
Rates due for the year (after retail relief):	= £11,430

Example 8: A shop with a rateable value of £40,000 (example 1) with a rateable value increase to £60,000 with effect from 1 October 2019

Gross rates (before any reliefs) = £40,000 x 0.491	= £19,640
Retail discount (1/3):	= -£6,547
Rates due p.a. (after retail discount):	= £13,093
Daily charge while occupied (leap year):	= £35.77 per day
Charge 1/4/19 to 30/9/19 (183 days):	= £6,547
Daily charge on standard multiplier (1/10/19 to 1/1/20): (£60,000 x 0.504)/366	= £82.62 per day
Charge 1/10/19 to 31/3/20 (183 days):	= £15,120
Rates due for the year (after retail relief):	= £21,667

Annex B: Sample paragraphs that could be included in letters to ratepayers about Retail Discount for 2019/20 and 2020/21

At Autumn Budget 2018, the Chancellor announced that eligible retailers will receive a one third discount on their business rates bills for two years from April 2019.

Relief will be provided to eligible occupied retail properties with a rateable value of less than £51,000 in 2019/20 and 2020/21. Your current rates bill includes this Retail Discount.

Awards such as Retail Discount are required to comply with the EU law on State Aid⁹. In this case, this involves returning the attached declaration to this authority if you have received any other *de minimis* State Aid, including any other Retail Discount you are being granted for premises other than the one to which this bill and letter relates, and confirming that the award of Retail Discount does not exceed the €200,000 an undertaking¹⁰ can receive under the *de minimis* Regulations EC 1407/2013.

Please complete the declaration and return it to the address above. In terms of declaring previous *de minimis* aid, we are only interested in public support which is *de minimis* aid (State Aid received under other exemptions or public support which is not State Aid does not need to be declared).

If you have not received any other *de minimis* State Aid, including any other Retail Discount you are being granted for premises other than the one to which this bill and letter relates, you do not need to complete or return the declaration.

If you wish to refuse to receive the Retail Discount granted in relation to the premises to which this bill and letter relates, please complete the attached form and return it to the address above. You do not need to complete the declaration. This may be particularly relevant to those premises that are part of a large retail chain, where the cumulative total of Retail Discount received could exceed €200,000.

Under the European Commission rules, you must retain this letter for three years from the date on this letter and produce it on any request by the UK public authorities or the European Commission. (You may need to keep this letter longer than three years for other purposes). Furthermore, information on this aid must be supplied to any other public authority or agency asking for information on '*de minimis*' aid for the next three years.

⁹ Further information on State Aid law can be found at <https://www.gov.uk/state-aid>

¹⁰ An undertaking is an entity which is engaged in economic activity. This means that it puts goods or services on a given market. The important thing is what the entity does, not its status. Therefore, a charity or not for profit company can be undertakings if they are involved in economic activities. A single undertaking will normally encompass the business group rather than a single company within a group. Article 2.2 of the *de minimis* Regulations (Commission Regulation EC/ 1407/2013) defines the meaning of 'single undertaking'.

‘De minimis’ declaration

Dear []

NON-DOMESTIC RATES ACCOUNT NUMBER: _____

The value of the non-domestic rates Retail Discount to be provided to [name of undertaking] by [name of local authority] is £ [] (Euros []).

This award shall comply with the EU law on State Aid on the basis that, including this award, [name of undertaking] shall not receive more than €200,000 in total of *De minimis* aid within the current financial year or the previous two financial years). The *de minimis* Regulations 1407/2013 (as published in the Official Journal of the European Union L352 24.12.2013) can be found at:

SEVENOAKS DISTRICT COUNCIL

BUSINESS RATES
RETAIL DISCOUNT
GUIDELINES

1. Introduction and purpose of the guidelines

- 1.1 The Government announced in the Budget on 29 October 2018 that it would provide a business rates Retail Discount scheme for **occupied** retail properties with a rateable value of less than £51,000 in each of the years 2019/20 and 2020/21. The value of the discount will be one third of the net bill (see para 2.8 for details of interaction between reliefs).
- 1.2 On 30 November 2018 the Government produced detailed guidance which confirms that **occupied** properties below the rateable value threshold that are **wholly or mainly** used as shops, restaurants, cafes and drinking establishments will benefit from the Retail Discount.
- 1.3 The guidance states that it will be for each billing authority to adopt a local scheme for Retail Discount and decide in each individual case when to grant relief under Section 47 of the Local Government Finance Act 1988 (as amended).

The application and award criteria rules are set out below.

1.4 These guidelines:

- set out the criteria that will be used when making a decision to award or refuse Retail Discount;
- set out the delegated authority to award discount in appropriate circumstances as provided for in the Council's constitution;
- establish a review process for customers dissatisfied with the Council's decision.

1.5 These guidelines will apply to all decisions made on awards of Retail Discount in respect of 2019/20 and 2020/21.

2. General principles

1.6 All decisions in respect of awards of Retail Discount will be taken by the Council in accordance with statutory requirements and with due regard to any guidance issued by the Secretary of State.

Requirement for Applications

1.7 The Council will not require a formal application but in the first instance will identify all ratepayers who appear to fit the qualifying criteria, as the intention is to make as many automatic awards as possible.

1.8 These guidelines will be published on the Council's website and any ratepayer that believes they may qualify for the Retail Discount can apply to be considered.

1.9 In cases where eligibility for the Retail Discount is in question, the Council will request such supporting evidence as it considers necessary to enable the application to be properly assessed (including a visit to the property).

Financial impact of awards of retail relief

1.10 The business rates retention systems requires the Council fund 40% of any discretionary relief granted with the remainder being shared between the Government and the major preceptors (excluding the Police).

1.11 The Government has committed to reimbursing billing authorities and those major precepting authorities within the rates retention system for the actual cost to them of any Retail Discount awarded that falls within the definitions given in the guidance referred to in paragraph 1.2.

Relationship to other forms of rate relief

1.12 Retail Discount will be applied after all other mandatory reliefs and Government funded discretionary reliefs have been accounted for. Locally funded reliefs such as Hardship Relief and Town Centre Discretionary Relief will be applied after the Retail Discount.

Authority to award Retail Discount

1.13 Decisions on the award or otherwise of Retail Discount will be taken by Officers under delegated authority (see paragraph 3.12)

Publication of decisions and Data Protection

- 1.14 To ensure there is a fair and consistent approach to the award of Retail Discount, all cases will be considered with reference to these guidelines and the award of Retail Discount will be published on the Council's website www.sevenoaks.gov.uk

The Council publishes the following details:

- in the case of sole traders, property address, rateable value, type of relief, period of relief and amounts;
- in the case of companies, charities, LLP and other incorporated bodies, names, billing address, property address, rateable value, type of relief, period of relief and amounts.

The Council's Privacy Notice and General Data Protection Policy at www.sevenoaks.gov.uk/info/20044/transparency_and_freedom_of_information/383/privacy_notice_and_general_data_protection_policy/4 explains how it processes personal information.

Reviews and Appeals

- 1.15 These guidelines provide applicants who are refused Retail Discount with a review mechanism.

A decision may only be reviewed on one or more of the following grounds:

- an inconsistent or inappropriately harsh decision;
- extenuating circumstances;
- significant procedural flaw(s) in the decision making process (it is incumbent on an unsuccessful applicant to specify precisely what the significant procedural flaw(s) consists of);
- new evidence subsequently coming to light.

- 1.16 A request for the review of a decision must be made in writing to the Business Rates Manager within four weeks of the date of the Council's decision letter. Reasons supporting each ground for review (see paragraph 2.10) must be fully set out. Any request for a review received outside of the four-week period, will only be considered if the Council is satisfied that exceptional circumstances led to the delay in submitting the request.

Where the unsuccessful applicant is a company, charity or other incorporated body, the request for the review must be submitted by a person authorised to do so on their behalf.

1.17 The reviewing officer (not involved in the original decision and senior to the officer who made the original decision) will:

- consider the decision afresh having regard to the original information submitted by the applicant;
- check that the decision has been made in accordance with the relevant sections in these guidelines;
- consider any new evidence submitted;
- consider whether an interview with the applicant is necessary;
- make a determination either:
 - upholding the original decision
 - substituting a revised decision
- prepare a written response for the applicant setting out the review decision and reasons.

1.18 The review decision will be issued within four weeks of the date of receipt by the Council of the review request. The review decision will be final.

1.19 Any challenge to the Council's decision is by way of judicial review in the High Court.

Requirement to make payment of amounts falling due

1.20 Business rate payments remain legally due and payable in accordance with the most recent bill, until such time as any relief is awarded. Applicants must therefore continue to pay any business rates that fall due whilst a decision on their Retail Discount application is pending. If payments are not kept up to date, the Council may continue with its normal recovery procedures to secure payment.

State Aid

1.21 European Union competition rules restrict Government subsidies to businesses. Relief from taxes, including business rates, may be considered as State Aid.

Retail Discounts will be provided to eligible occupied retail properties with a rateable value of less than £51,000 in 2019/20 and 2020/21. Current rates bills include the Retail Discount.

Awards such as Retail Discount are required to comply with the EU law on State Aid. In this case, this involves returning a 'de minimis declaration' to the Council where any other de minimis State Aid has been received, including any other Retail Discount being granted for premises other than the one to which the rates bill relates, confirming that the award of Retail Discount does not exceed the €200,000 that can be received under the de minimis Regulations EC 1407/2013.

In declaring previous de minimis State Aid, the Council is only interested in public support, which is de minimis aid (State Aid received under other exemptions or public support, which is not State Aid, does not need to be declared).

Agenda Item 6

If any other de minimis State Aid has not been received, including any other Retail Discount being granted for premises other than the one to which the rates bill relates, the 'de minimis declaration' does not need to be completed.

If the Retail Discount granted in relation to the premises to which the rates bill relates, is being refused (particularly relevant to those premises that are part of a large retail chain, where the cumulative total of Retail Discount received could exceed €200,000) the 'Refusal of Retail Discount' form is to be completed and returned to the Council. The 'de minimis declaration' does not need to be completed.

Where Retail Discount is refused, reference to Retail Discount will be removed from the business rate account.

Information on State Aid must be supplied to any other public authority, the European Commission or agency asking for information on 'de minimis' aid for the next three years.

- 1.22 Retail Discount for charities and non-profit making bodies is not normally considered State Aid because the recipients are not in market competition with other businesses. However, if they are engaged in commercial activities, compete with commercial bodies or have a commercial partner, Retail Discount could constitute State Aid.

3. Properties intended to benefit from Retail Discount

1.23 Properties that benefit from the Retail Discount will be occupied hereditaments with a rateable value of less than £51,000, that are wholly or mainly i.e. where more than 50% of the property is being used as shops, restaurants, cafes and drinking establishments.

1.24 The Government considers shops, restaurants, cafes and drinking establishments to mean:

i) Hereditaments that are being used for the sale of goods to visiting members of the public:

- Shops (such as florist, bakers, butchers, grocers, greengrocers, jewellers, stationers, off licence, chemists, newsagents, hardware stores, supermarkets, etc.)
- Charity shops
- Opticians
- Post Offices
- Furnishing shops/display rooms (such as carpet shops, double glazing, garage doors)
- Car/caravan show rooms
- Second hand car lots
- Markets
- Petrol stations
- Garden centres
- Art galleries (where art is for sale/hire)

ii) Hereditaments that are being used for the provision of the following services to visiting members of the public:

- Hair and beauty services (such as hairdressers, nail bars, beauty salons, tanning shops, etc.)
- Shoe repairs/key cutting
- Travel agents
- Ticket offices e.g. for theatre
- Dry cleaners
- Launderettes
- PC/TV domestic appliance repair
- Funeral directors
- Photo processing
- DVD/video rentals
- Tool hire
- Car hire

Agenda Item 6

iii) **Hereditaments that are being used for the sale of food and/or drink to visiting members of the public:**

- Restaurants
- Takeaways
- Sandwich shops
- Coffee shops
- Pubs
- Bars

1.25 The list below sets out the types of uses that the Government does not consider to be retail use for the purpose of Retail Discount:

i) **Hereditaments that are being used for the provision of the following services to visiting members of the public:**

- Financial services (e.g. banks, building societies, cash points, bureau de change, payday lenders, betting shops and pawnbrokers)
- Other services (e.g. estate agents, letting agents, employment agencies)
- Medical services (e.g. vets, dentists, doctors, osteopaths, chiropractors)
- Professional services (e.g. solicitors, accountants, insurance agents/financial advisers, tutors)
- Post Office sorting office

ii) **Hereditaments that are not reasonably accessible to visiting members of the public**

iii) **The following are also considered by Government to be outside of the scope of Retail Discount**

- Cinemas
- Theatres
- Museums
- Nightclubs
- Music Venues
- Hereditaments used for sport or physical recreation (e.g.gyms)

1.26 The lists set out in paragraphs 3.2 and 3.3 are not exhaustive. Where the use of properties is not listed but is broadly similar in nature to those listed, Retail Discount will be awarded or refused as appropriate.

The decision making process

1.27 Each case will be considered on an individual basis and on its merits.

1.28 The Council will notify the applicant of the award and where Retail Discount is refused an explanation of the reasons for refusal will be given.

Period of discount

1.29 Retail Discount will be automatically awarded initially for 2019/20 only. For 2020/21, the Council will follow the same process to consider eligibility. All applicants must make the 'de minimis declaration' as they will be in receipt of some form of State Aid (see paragraph 2.16 above).

Calculation of Retail Discount

1.30 The maximum Retail Discount is one third of the net business rates for each financial year, after the award of mandatory and Government funded discretionary reliefs (see para 2.7). Where the net rate liability after the application of all other reliefs is zero (e.g. full Small Business Rates Relief has been applied), no Retail Discount applies.

1.31 Where the rates bill reduces within the period of an award of discretionary retail rate relief, the relief will be reduced proportionately.

1.32 If the rates bill increases during the period of an award of discretionary retail rate relief, the relief will be increased proportionately. If the rateable value increases beyond the qualifying threshold of £51,000, full rates will be due from the date the rateable value exceeds the threshold.

1.33 If the property becomes empty, full empty rates will be due after any appropriate period of exemption.

Authority to award relief

1.34 The Business Rates Manager and Business Rates Team Leader are authorised to award or refuse Retail Discount in the following circumstances:

- Where the **use** of the property is clearly eligible for Retail Discount and there is no reason to believe that State Aid De Minimis limits are likely to be exceeded
- Where the **use** of the property is clearly not eligible for Retail Discount
- Where the **use** of the property was initially in doubt (due to the need to be wholly or mainly used for a qualifying purpose) but investigations have indicated that the use is eligible and there is no reason to believe that State Aid De Minimis limits are likely to be exceeded
- Where the applicant has returned a 'Refusal of Retail Discount' form or a 'de minimis declaration'.

In all other cases, the authority to determine an application is delegated to the Chief Finance Officer.

4. Promotion of the availability of relief

4.1 The Council will proactively promote the availability of Retail Discount in the following ways:

- Council staff will be made aware of these guidelines and will actively promote the availability of Retail Discount when responding to enquiries;
- Information regarding the availability of reliefs will be published on the Council's website www.sevenoaks.gov.uk;

A copy of these guidelines will be made available on request by contacting revenues@sevenoaks.gov.uk or by calling the Business Rates team on 01732 227000. Calls via Typetalk are welcomed.

If required the guidelines can be made available in large print, audio, Braille, alternative format or in a different language.

5. Complaints

1.1 Applicants who are dissatisfied with the standard of service are encouraged to initially raise their complaint directly and informally with the Business Rates team via revenues@sevenoaks.gov.uk or by calling on 01732 227000.

Applicants, who remain dissatisfied, may make a formal complaint under the Council's Corporate Complaints Procedure.

Guidance on how to complain can be found at www.sevenoaks.gov.uk/info/20043/complaints_and_compliments/110/complaints

6. Review of these guidelines

1.1 These guidelines will be reviewed periodically in order to ensure they remain valid, effective and relevant.

COUNCIL TAX DISCOUNTS FOR EMPTY AND UNINHABITABLE DWELLINGS AND EMPTY PREMIUM

Finance Advisory Committee - 29 January 2019

Report of	Chief Finance Officer
Status	For Decision
Also considered by	Cabinet - 14 February 2019
	Council - 26 February 2019
Key Decision	No

Executive Summary:

The purpose of this report is to recommend amendments to the level of Council Tax discount for unoccupied and unfurnished dwellings, and dwellings undergoing or requiring major structural repair. Also to consider increasing the premium on properties that are long term empty (unoccupied and unfurnished for more than 2 years).

Members' are asked to consider the information detailed and make recommendations to amend the respective discounts and premium from 1 April 2019.

Portfolio Holder	Cllr. John Scholey
Contact Officers	Adrian Rowbotham, Chief Finance Officer Ext. 7153 Tim Dennington, Council Tax & Recovery Manager Ext. 7207

Recommendation to Finance Advisory Committee: To recommend for approval by Cabinet the amended discounts and premium detailed in this report.

Recommendation to Cabinet: To consider and agree to recommend to Council the recommendations set out below.

Recommendation to Council: That with effect from 1st April 2019

- (a) the Council Tax discount for unoccupied and unfurnished dwellings is reduced from 100% for up to 3 months to 100% for up to 2 months (Class C of the Council Tax (Prescribed Classes of Dwellings) (England) (Amendment) Regulations 2012)
- (b) the Council Tax discount for unoccupied dwellings undergoing or requiring major structural repair is reduced from 100% for 12 months to 0% for 12 months (Class D of the Council Tax (Prescribed Classes of Dwellings) (England) (Amendment) Regulations 2012)
- (c) In accordance with Section 11B of the Local Government Finance Act 1992 and

Agenda Item 7

Rating (Property in Common Occupation) and Council Tax (Empty Dwellings) Act 2018 increase the additional amount payable for Council Tax from 50% to 100% for dwellings that are unoccupied and substantially unfurnished for more than two years

Reason for recommendations: By reducing the Class C discount to 100% for 2 months, the Class D discount to 0% for 12 months and increasing the long term empty charge from 50% to 100%, it will support the Council's Empty Homes Action Plan and encourage empty dwellings to be brought back into use more quickly.

In addition, there is also the potential to derive additional Council Tax revenue and benefit from an annual income as part of the Kent County Council (KCC) Council Tax sharing agreement.

Introduction and Background

- 1 Local Authorities were given the powers and flexibility to amend certain Council Tax discounts under the Local Government Finance Act 2012, which were enacted by the Council Tax (Prescribed Classes of Dwellings (England) (Amendment) Regulations 2012 and the Council Tax (Exempt Dwellings) (England) (Amendment) Order 2012.
- 2 Section 12 of the Local Government Finance Act 2012 added section 11B to the Local Government Finance Act 1992 enabling Local Authorities to increase the charge on long term empty dwellings (unoccupied and substantially unfurnished for at least 2 years) by up to 50%. The Rating (Property in Common Occupation) and Council Tax (Empty Dwellings) Act 2018 increased the amount local authorities can charge on long term empty dwellings up to 100%.
- 3 On 7 February 2013, Cabinet were presented with proposals to amend the level of Council Tax discount for prescribed classes of dwellings and long term empty premium with effect from 1st April 2013. These proposals were agreed and approval was given by Full Council on 19 February 2013 to implement the respective changes.
- 4 The table below details the effect of that decision and it also summarises the position across other Kent authorities - some of which are reviewing the discounts with effect from 1 April 2019.

Council	Class C discount Unoccupied/unfurnished	Class D discount Uninhabitable/major repair
Ashford	100% up to 6 weeks	100% for 12 months
Canterbury	0%	100% for 12 months
Dartford	100% up to 3 months	100% for 12 months
Dover	0%	100% for 12 months
Gravesham	100% up to 1 month	100% for 12 months
Maidstone	0%	0%
Medway	100% up to 3 months	100% for 12 months
Sevenoaks	100% up to 3 months	100% for 12 months

Shepway	0%	0%
Thanet	0%	100% for 12 months
Tonbridge & Malling	100% up to 1 month	100% for 12 months
Tunbridge Wells	0%	0%

Proposed Changes

- 5 There was an announcement in the Government’s 2017 autumn budget regarding giving Council’s the ability to reduce empty property discounts from 2019/20. The 10-year budget approved by Council on 20 February 2018 included an assumption that an additional £65,000 of Council Tax would be received from 2019/20 for this reason.
- 6 The legislation relating to this announcement has only recently been published and the changes proposed should deliver the additional Council Tax included in the 2019/20 budget.
- 7 The estimated additional Council Tax that can potentially be raised as a result of implementing the recommendations is as follows:
 - a. Discount for unoccupied and unfurnished dwellings (Class C) - reducing the discount from 100% for up to 3 months to 100% for up to 2 months will raise an estimated £198,000 in additional Council Tax. The current total of accounts that are either currently within the 3 month period or after the 3 months period is 649.
 - b. Discount for unoccupied dwellings undergoing or requiring major structural repair (Class D) - reducing the discount from 100% to 0% for 12 months will raise an estimated £303,000 in additional Council Tax. The current total of accounts with a discount is 92.
 - c. The estimated additional Council Tax of £501,000 would be shared between the Council and the major precepting authorities. The Council’s share would be £60,000 and the preceptors share would be £441,000.
 - d. Across the county discussions are continuing with Kent County Council for a financial incentive for Billing Authorities as the county is the main beneficiaries to any additional income.
- 8 Long Term Empty Dwellings - increasing the premium to 100% will raise an estimated £63,000 in additional Council Tax. The Council’s share would be £7,000. The current total of accounts with a discount is 64.
- 9 Administration of Class D discount involves visiting every application (331 in 2017/18); this is a substantial administration task but would be removed if the discount is reduced to 0% from April 2019.

Agenda Item 7

Key Implications

Financial

If the revised discounts are approved there is the potential to derive additional Council Tax revenue of £67,000 for the Council. There may also be further benefit following discussions with Kent County Council.

Legal Implications and Risk Assessment Statement

There is no legal requirement to consult on the recommended changes but there is a legal requirement to publish any changes to the Council Tax regime in at least one newspaper circulating in the Billing Authority's area. This must be done within 21 days of the resolution being agreed by the Council.

Making changes to the existing level of discounts means that, as the Billing Authority, the Council will incur the additional costs associated with implementing and administering the changes.

There is also a risk to the collection of debts resulting from any changes. The recommended levels are based on the considered implications on collection whilst, at the same time, maximising the potential income opportunity for the Council.

The revised discounts may lead to some complaints and appeals.

Section 13A of the Local Government Finance Act 1992 allows for the Council to reduce or remit any amount of council tax (at the full cost of the Council). These powers can be considered in certain circumstances where a dwelling can not be occupied, such as fire or flood damage.

Equality Impact Assessment

Members are reminded of the requirement, under the Public Sector Equality Duty (section 149 of the Equality Act 2010) to have due regard to (i) eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Equality Act 2010, (ii) advance equality of opportunity between people from different groups, and (iii) foster good relations between people from different groups.

Any amendments made to Council Tax discounts for empty, uninhabitable or long term empty dwellings are not based on individual circumstances or family characteristics. The recommendations will therefore apply equally to everyone.

RISKS AND ASSUMPTIONS FOR BUDGET 2019/20

Finance Advisory Committee - 29 January 2019

Report of Chief Finance Officer

Status: For Consideration

Key Decision: No

This report supports the Key Aim of Effective Management of Council Resources.

Portfolio Holder Cllr. John Scholey

Contact Officer Alan Mitchell Ext. 7483
Adrian Rowbotham Ext. 7153

Recommendation to Finance Advisory Committee: Members views are requested on the risks and assumptions included in the attached appendices.

Introduction and Background

- 1 The Draft Budget 2019/20 report to Cabinet on 6 December 2018 provided information on the key assumptions and risks included within the draft budget proposals. This risk assessment report provides more detail on these assumptions and risks.
- 2 The risk assessment is included for Members consideration (Appendix A). The 10 year budget as presented to Cabinet on 6 December 2018 is also attached for information. (Appendix B).

Key Financial Assumptions

- 3 The financial assumptions included in the financial plan as at 1 December are as follows:
 - Government Support: - no Revenue Support Grant or New Homes Bonus in 2019/20.
 - Council Tax: 2% in 2019/20 and 2% for all future years.
 - Business Rates Retention pilot safety-net in 2019/20 only plus 2% in later years. We are will not be part of the pilots announced on 13 December 2018.

Agenda Item 8

- Interest Receipts: Flat amount of £200,000 in 2019/20 and £250,000 in subsequent years.
- Pay Costs: 2.0% in 2019/20 and subsequent years.
- Non-pay costs: 2.25% in all years.
- Income: 2.5% in all years except for off-street car parks which are 3.5% from 2019/20 -23/24
- As confirmed in the Local Government Financial Settlement there will be no negative RSG in 2019/20 but future years are uncertain.

Key Implications

Financial

Under section 151 of the Local Government Act 1972, the Section 151 officer has statutory duties in relation to the financial administration and stewardship of the authority.

An effective integrated policy and priority driven long-term financial and business process is required for the Council to deliver on its priorities and maintain a sustainable budget. It is also essential that continuous improvements are identified and implemented in order to take account of the changing climate within which the Council operates and to meet the expectations of both Government and the public on the quality of service demanded from this Council.

Legal Implications and Risk Assessment Statement.

There are no legal implications.

The risks associated with the 10-year budget approach include uncertainty around the level of shortfall and the timing of key announcements such as future grant settlements.

The risk will be mitigated by continuing to review assumptions and estimates and by updating Members throughout the process.

Equality Assessment

Members are reminded of the requirement, under the Public Sector Equality Duty (section 149 of the Equality Act 2010) to have due regard to (i) eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Equality Act 2010, (ii) advance equality of opportunity between people from different groups, and (iii) foster good relations between people from different groups. The decisions recommended through this paper directly impact on end users. The impact has been analysed and does not vary between groups of people. The results of this analysis are set out immediately below.

Individual equalities assessments have been completed for all Service Change Impact Assessments (SCIAs) to ensure the decision making process is fair and transparent. These were included in the Budget Update report presented to Cabinet on 01 December 2016.

Community Impact and Outcomes

A balanced budget that includes the assessment and management of risk provides the Council with the financial stability required to plan and deliver its services to the community.

Conclusions

The financial assumptions are based on the latest available information but Members should be aware that these may change. Any changes will be included in the budget report to Cabinet on 14 February 2019.

TREASURY MANAGEMENT STRATEGY 2019/20

Finance Advisory Committee - 29 January 2019

Report of the: Chief Finance Officer

Status: For Decision

Also considered by: Cabinet - 14 February 2019

Council - 26 February 2019

Key Decision: No

Executive Summary: The Local Government Act 2003 (the Act) and supporting regulations requires the Council to 'have regard to' the Prudential Code and to set Prudential Indicators for the next three years to ensure that the Council's capital investment plans are affordable, prudent and sustainable.

The Act therefore requires the Council to set out its treasury strategy for borrowing and to prepare an Annual Investment Strategy (as required by investment guidance issued subsequent to the Act). This sets out the Council's policies for managing its investments and for giving priority to the security and liquidity of those investments.

This report supports the Key Aim of efficient management of the Council's resources.

Portfolio Holder Cllr. John Scholey

Contact Officer Roy Parsons, Principal Accountant - Ext 7204

Recommendation to Finance Advisory Committee: That the report be noted and comments forwarded to Cabinet.

Recommendation to Cabinet: That, subject to the comments of the Finance Advisory Committee, Cabinet recommend that Council approve the Treasury Management Strategy for 2019/20.

Recommendation to Council: That the Treasury Management Strategy for 2019/20 be approved.

Reason for recommendations: To ensure that an appropriate and effective annual Treasury Management Strategy is drawn up in advance of the forthcoming financial year, which meets both legislative and best practice requirements.

Agenda Item 9

Background

- 1 The Council is required to operate a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the treasury management operation is to ensure that this cash flow is adequately planned, with cash being available when it is needed. Surplus monies are invested in low risk counterparties or instruments commensurate with the Council's low risk appetite, providing adequate liquidity initially before considering investment return.
- 2 The second main function of the treasury management service is the funding of the Council's capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer term cash flow planning to ensure that the Council can meet its capital spending obligations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses. On occasion, when it is prudent and economic, any debt previously drawn may be restructured to meet Council risk or cost objectives.
- 3 The contribution the treasury management function makes to the authority is critical, as the balance of debt and investment operations ensure liquidity or the ability to meet spending commitments as they fall due, either on day-to-day revenue or for larger capital projects. The treasury operations will see a balance of the interest costs of debt and the investment income arising from cash deposits affecting the available budget. Since cash balances generally result from reserves and balances, it is paramount to ensure adequate security of the sums invested, as a loss of principal will in effect result in a loss to the General Fund Balance.
- 4 Whilst any commercial initiatives or loans to third parties will impact on the treasury function, these activities are generally classed as non-treasury activities, (arising usually from capital expenditure), and are separate from the day to day treasury management activities.
- 5 The Chartered Institute of Public Finance and Accountancy (CIPFA) defines treasury management as:

“The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.”
- 6 Revised reporting is required for the 2019/20 reporting cycle due to revisions of the MHCLG Investment Guidance, the MHCLG Minimum Revenue Provision (MRP) Guidance, the CIPFA Prudential Code and the CIPFA Treasury Management Code. The primary reporting changes include the introduction of a capital strategy, to provide a longer-term focus to the capital plans, and greater reporting requirements surrounding any commercial activity undertaken under the Localism Act 2011. The capital strategy is being reported separately.

Introduction

Reporting requirements - Capital Strategy

- 7 The CIPFA revised 2017 Prudential and Treasury Management Codes require, for 2019/20, all local authorities to prepare an additional report, a capital strategy report, which will provide the following:
 - a high-level long term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services;
 - an overview of how the associated risk is managed; and
 - the implications for future financial sustainability.
- 8 The aim of this capital strategy is to ensure that Members fully understand the overall long-term policy objectives and resulting capital strategy requirements, governance procedures and risk appetite.
- 9 This capital strategy is reported separately from the Treasury Management Strategy Statement; non-treasury investments will be reported through the former. This ensures the separation of the core treasury function under security, liquidity and yield principles, and the policy and commercialism investments usually driven by expenditure on an asset. The capital strategy will show:
 - the corporate governance arrangements for these types of activities;
 - any service objectives relating to the investments;
 - the expected income, costs and resulting contribution;
 - the debt related to the activity and the associated interest costs;
 - the payback period (MRP policy);
 - for non-loan type investments, the cost against the current market value; and
 - the risks associated with each activity.
- 10 Where a physical asset is being bought, details of market research, advisers used (and their monitoring), ongoing costs and investment requirements and any credit information will be disclosed, including the ability to sell the asset and realise the investment cash.
- 11 Where the Council has borrowed to fund any non-treasury investment, there should also be an explanation of why borrowing was required and why the MHCLG Investment Guidance and CIPFA Prudential Code have not been adhered to.
- 12 If any non-treasury investment sustains a loss during the final accounts and audit process, the strategy and revenue implications will be reported through the same procedure as the capital strategy.

Agenda Item 9

- 13 To demonstrate the proportionality between the treasury operations and the non-treasury operation, high-level comparators are shown throughout this report.

Reporting requirements - Treasury Management

- 14 The Council is required to receive and approve, as a minimum, three main reports each year, which incorporate a variety of policies, estimates and actuals. These reports are required to be adequately scrutinised before being recommended to the Council. This role is undertaken by the Finance Advisory Committee.

- a) Prudential and treasury indicators and treasury strategy (this report) -

The first, and most important report covers:

- the capital plans (including prudential indicators);
- a minimum revenue provision (MRP) policy (how residual capital expenditure is charged to revenue over time);
- the Treasury Management Strategy (how the investments and borrowings are to be organised) including treasury indicators; and
- an investment strategy (the parameters on how investments are to be managed).

- b) A mid-year treasury management report -

This is primarily a progress report and will update members on the capital position, amending prudential indicators as necessary, and whether any policies require revision.

- c) An annual treasury report -

This is a backward looking review document and provides details of a selection of actual prudential and treasury indicators and actual treasury operations compared to the estimates within the strategy.

Treasury Management Strategy for 2019/20

- 15 The strategy for 2019/20 covers two main areas:

Capital issues

- the capital expenditure plans and the associated prudential indicators; and
- the minimum revenue provision (MRP) policy.

Treasury management issues

- the current treasury position;
 - treasury indicators which limit the treasury risk and activities of the Council;
 - prospects for interest rates;
 - the borrowing strategy;
 - policy on borrowing in advance of need;
 - debt rescheduling;
 - the investment strategy;
 - creditworthiness policy; and
 - policy on the use of external service providers.
- 16 These elements cover the requirements of the Local Government Act 2003, the CIPFA Prudential Code, the Ministry of Housing, Communities and Local Government (MHCLG) MRP Guidance, the CIPFA Treasury Management Code and the MHCLG Investment Guidance.

Training

- 17 The CIPFA Code requires the responsible officer to ensure that Members with responsibility for treasury management receive adequate training in treasury management. This especially applies to members responsible for scrutiny. Training was last undertaken on 14 November 2018 and further training will be arranged as required.
- 18 The training needs of treasury management officers are reviewed periodically.

Treasury management consultants

- 19 The Council uses Link Asset Services, Treasury Solutions as its external treasury management advisors.
- 20 The Council recognises that responsibility for treasury management decisions remains with the organisation at all times and will ensure that undue reliance is not placed upon our external service providers. All decisions will be undertaken with regards to all available information, including, but not solely, our treasury management advisors.
- 21 It also recognises that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The Council will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subjected to regular review.

Agenda Item 9

- 22 The scope of investments within the Council's operations now includes both conventional treasury investments (the placing of residual cash from the Council's functions) and more commercial type investments, such as investment properties. The commercial type investments require specialist property advisers.

The Capital Prudential Indicators 2019/20 - 2021/22

- 23 The Council's capital expenditure plans are the key driver of treasury management activity. The output of the capital expenditure plans is reflected in prudential indicators, which are designed to assist Members' overview and confirm capital expenditure plans.

Capital Expenditure

- 24 This prudential indicator is a summary of the Council's capital expenditure plans, both those agreed previously, and those forming part of this budget cycle. Members are asked to note the capital expenditure forecasts:

Capital expenditure	2017/18 Actual £000	2018/19 Estimate £000	2019/20 Estimate £000	2020/21 Estimate £000	2021/22 Estimate £000
Capital expenditure	9,922	12,980	12,549	6,649	16,758
Commercial activities/non-financial investments*	0	0	0	0	0
Total	9,922	12,980	12,549	6,649	16,758

* Commercial activities/non-financial investments relate to areas such as capital expenditure on investment properties etc

- 25 Other long term liabilities. The above financing need excludes other long term liabilities, such as PFI and leasing arrangements which already include borrowing instruments.
- 26 The table below summarises the above capital expenditure plans and how these plans are being financed by capital or revenue resources. Any shortfall of resources results in a funding need (borrowing) although this may be funded through internal borrowing initially.

Financing of capital expenditure	2017/18	2018/19	2019/20	2020/21	2021/22
	Actual	Estimate	Estimate	Estimate	Estimate
	£000	£000	£000	£000	£000
Capital expenditure	9,922	12,980	12,549	6,649	16,758
Financed by:					
Capital receipts	371	789	4,030	6,042	0
Capital grants	647	1,463	1,100	1,100	1,100
Capital Reserves	4,442	4,543	5,568	-1,100	15,658
Internal borrowing	615	4,487	1,703	-6,190	0
Revenue - contribution to capital reserve	148	148	148	148	0
Net financing need for the year	3,699	1,550	0	0	0

27 The net financing need for commercial activities/non-financial investments included in the above table against expenditure is shown below.

Commercial activities/non-financial investments	2017/18	2018/19	2019/20	2020/21	2021/22
	Actual	Estimate	Estimate	Estimate	Estimate
	£000	£000	£000	£000	£000
Capital expenditure	0	0	0	0	0
Financing costs	0	0	0	0	0
Net financing need for the year	0	0	0	0	0
Percentage of total net financing need	0%	0%	0%	0%	0%

The Council's Borrowing Need (the Capital Financing Requirement)

- 28 The second prudential indicator is the Council's capital financing requirement (CFR). The CFR is simply the total historic outstanding capital expenditure which has not yet been paid for from either revenue or capital resources. It is essentially a measure of the Council's indebtedness and so its underlying borrowing need. Any capital expenditure above, which has not immediately been paid for through a revenue or capital resource, will increase the CFR.
- 29 The CFR does not increase indefinitely, as the minimum revenue provision (MRP) is a statutory annual revenue charge which broadly reduces the borrowing need in line with each asset's life, and so charges the economic consumption of capital assets as they are used.
- 30 The CFR includes any other long term liabilities (e.g. finance leases). Whilst these increase the CFR, and therefore the Council's borrowing requirement, these types of scheme include a borrowing facility by the lease provider and so the Council is not required to separately borrow for these schemes.
- 31 The Council is asked to approve the CFR projections below:

	2017/18	2018/19	2019/20	2020/21	2021/22
	Actual	Estimate	Estimate	Estimate	Estimate
	£000	£000	£000	£000	£000
Capital Financing Requirement					
CFR - Services	9,085	10,062	9,641	9,239	8,869
CFR - Commercial activities/non-financial investments	0	0	0	0	0
Total CFR	9,085	10,062	9,641	9,239	8,869
Movement in CFR	(233)	(382)	(422)	(402)	(370)

Movement in CFR represented by:					
Net financing need for the year (above)	3,699	1,550	0	0	0

<u>Less</u> MRP/VRP and other financing movements	(3,466)	(1,168)	(422)	(402)	(370)
Movement in CFR	(233)	(382)	(422)	(402)	(370)

Note:- The MRP / VRP includes finance lease annual principal payments

- 32 A key aspect of the regulatory and professional guidance is that elected Members are aware of the size and scope of any commercial activity in relation to the authority's overall financial position. The capital expenditure figures shown above demonstrate the scope of this activity and, by approving these figures, Members consider the scale proportionate to the Authority's remaining activity.

Core Funds and Expected Investment Balances

- 33 The application of resources (capital receipts, reserves etc.) to either finance capital expenditure or other budget decisions to support the revenue budget will have an on-going impact on investments unless resources are supplemented each year from new sources (asset sales etc.). Detailed below are estimates of the year end balances for each resource and anticipated day to day cash flow balances.

Year End Resources	2017/18	2018/19	2019/20	2020/21	2021/22
	Actual	Estimate	Estimate	Estimate	Estimate
	£000	£000	£000	£000	£000
Fund balances / reserves	23,725	23,372	23,019	22,666	22,487
Capital receipts	371	789	4,030	6,042	0
Provisions	409	409	409	409	409
Other	0	0	0	0	0
Total core funds	24,505	24,570	27,458	29,117	22,896
Working capital*	10,914	11,014	11,114	11,214	11,314
Under/over borrowing	(3,004)	(4,097)	(3,795)	(3,516)	(3,272)
Expected investments	32,415	31,487	34,777	36,815	30,938

Agenda Item 9

*Working capital balances shown are estimated year end; these may be higher mid year

Minimum revenue provision (MRP) policy statement

- 34 The Council is required to pay off an element of the accumulated General Fund capital spend each year (the CFR) through a revenue charge (the minimum revenue provision - MRP), although it is also allowed to undertake additional voluntary payments if required (voluntary revenue provision - VRP).
- 35 MHCLG regulations have been issued which require the full Council to approve an MRP statement in advance of each year. A variety of options are provided to councils, so long as there is a prudent provision. The Council can change the method of calculating MRP on an annual basis but once a method has been approved for a particular year, any assets purchased through borrowing that year must continue to have MRP charged in the same way. The Council cannot change the method of calculating MRP on individual assets.
- 36 The Council is recommended to approve the following MRP statement:
- 37 For capital expenditure incurred before 1 April 2008 or which in the future will be Supported Capital Expenditure, the MRP policy will be based on CFR. This option provides for an approximate 4% reduction in the borrowing need (CFR) each year.
- 38 From 1 April 2008 for all unsupported borrowing (i.e. not supported by the Revenue Support Grant), including finance leases, the MRP policy will be either:
- Asset life method - MRP will be based on the estimated life of the assets, in accordance with the regulations (this option must be applied for any expenditure capitalised under a Capitalisation Direction); or
 - Depreciation method - MRP will follow standard depreciation accounting procedures.

These options provide for a reduction in the borrowing need over approximately the asset's life. Repayments included in finance leases are applied as MRP.

- 39 It is proposed to use the 'asset life method' in the calculation of the Council's MRP. In choosing to do so, there are two options available:
- Equal instalments - where the principal repayment made is the same in each year; or
 - Annuity - where the principal repayments increase over the life of the asset.

- 40 Of the two options, the annuity method seems to be the most suitable for the Council at this time, particularly for assets that generate income. It matches the repayment profile to how the benefits of the asset financed by borrowing are consumed over its useful life (i.e. it reflects the fact that asset deterioration is slower in the early years of an asset and accelerates towards the latter years). Interest will be greater at the beginning of the loan, at which time all of the principal is outstanding, so the amount of principal repayment is lower in the initial years. The schedule of charges produced by the annuity method results in a consistent charge of principal and interest over an asset’s life, taking into account the real value of the annual charges when they fall due.
- 41 MRP commences in the financial year following that in which the expenditure is incurred, or in the year following that in which the relevant asset becomes operational. This enables an MRP “holiday” to be taken in relation to assets which take more than one year to be completed before they become operational.
- 42 MRP Overpayments - A change introduced by the revised MHCLG MRP Guidance was the allowance that any charges made over the statutory minimum revenue provision (MRP), voluntary revenue provision or overpayments, can, if needed, be reclaimed in later years if deemed necessary or prudent. In order for these sums to be reclaimed for use in the budget, this policy must disclose the cumulative overpayment made each year. Up until the 31 March 2019 the total VRP overpayments have been nil.

The Borrowing and Repayment Strategy

- 43 The capital expenditure plans set out above provide details of the service activity of the Council. The treasury management function ensures that the Council’s cash is organised in accordance with the relevant professional codes, so that sufficient cash is available to meet this service activity and the Council’s capital strategy. This will involve both the organisation of the cash flow and, where capital plans require, the organisation of appropriate borrowing facilities. The strategy covers the relevant treasury/prudential indicators, the current and projected debt positions and the annual investment strategy.

Current portfolio position

- 44 The Council’s forward projections for borrowing are summarised below. The table shows the actual external debt against the underlying capital borrowing need (the CFR), highlighting any over or under borrowing.

	2017/18	2018/19	2019/20	2020/21	2021/22
	Actual	Estimate	Estimate	Estimate	Estimate
	£000	£000	£000	£000	£000
External debt					

Agenda Item 9

Debt at 1 April	0	5,250	5,134	5,015	4,892
Expected change in Debt	5,250	-116	-119	-123	-126
Other long-term liabilities (OLTL)	831	831	831	831	831
Expected change in OLTL	0	0	0	0	0
Actual gross debt at 31 March	6,081	5,965	5,846	5,723	5,597
The Capital Financing Requirement (CFR)	9,085	10,062	9,641	9,239	8,869
Under / (over) borrowing	3,004	4,097	3,795	3,516	3,272

- 45 Within the above figures, the level of debt relating to commercial activities/non-financial investments is:

	2017/18	2018/19	2019/20	2020/21	2021/22
	Actual	Estimate	Estimate	Estimate	Estimate
	£000	£000	£000	£000	£000
External debt for commercial activities/non-financial investments					
Actual debt at 31 March	0	0	0	0	0
Percentage of total external debt	0	0	0	0	0

- 46 Within the range of prudential indicators there are a number of key indicators to ensure that the Council operates its activities within well-defined limits. One of these is that the Council needs to ensure that its gross debt does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2019/20 and

the following two financial years. This allows some flexibility for limited early borrowing for future years, but ensures that borrowing is not undertaken for revenue or speculative purposes.

- 47 The Chief Finance Officer reports that the Council complied with this prudential indicator in the current year and does not envisage difficulties for the future. This view takes into account current commitments, existing plans, and the proposals in this budget report.

Treasury Indicators: Limits to Borrowing Activity

The operational boundary

- 48 This is the limit beyond which external debt is not normally expected to exceed. In most cases, this would be a similar figure to the CFR, but may be lower or higher depending on the levels of actual debt and the ability to fund under-borrowing by other cash resources.

Operational boundary	2018/19 Estimate £000	2019/20 Estimate £000	2020/21 Estimate £000	2021/22 Estimate £000
Debt	30,000	30,000	30,000	30,000
Other long term liabilities	831	831	831	831
Commercial activities / non-financial investments				
Total	30,831	30,831	30,831	30,831

The authorised limit for external debt

- 49 This is a key prudential indicator represents a control on the maximum level of borrowing. This represents a limit beyond which external debt is prohibited, and this limit needs to be set or revised by the full Council. It reflects the level of external debt which, while not desired, could be afforded in the short term, but is not sustainable in the longer term.
- 50 This is the statutory limit determined under section 3 (1) of the Local Government Act 2003. The Government retains an option to control either the total of all councils' plans, or those of a specific council, although this power has not yet been exercised.
- 51 The Council is asked to approve the following authorised limit:

Agenda Item 9

Authorised limit	2018/19 Estimate £000	2019/20 Estimate £000	2020/21 Estimate £000	2021/22 Estimate £000
Debt	35,000	35,000	35,000	35,000
Other long term liabilities	831	831	831	831
Commercial activities / non-financial investments				
Total	35,831	35,831	35,831	35,831

Prospects for interest rates

- 52 The Council has appointed Link Asset Services as its treasury advisor and part of their service is to assist the Council to formulate a view on interest rates. The following table gives their central view.

Link Asset Services Interest Rate View													
	Mar-19	Jun-19	Sep-19	Dec-19	Mar-20	Jun-20	Sep-20	Dec-20	Mar-21	Jun-21	Sep-21	Dec-21	Mar-22
Bank Rate View	0.75%	1.00%	1.00%	1.00%	1.25%	1.25%	1.25%	1.50%	1.50%	1.75%	1.75%	1.75%	2.00%
3 Month LIBID	0.90%	1.00%	1.10%	1.20%	1.30%	1.40%	1.50%	1.50%	1.60%	1.70%	1.80%	1.90%	2.00%
6 Month LIBID	1.00%	1.20%	1.30%	1.40%	1.50%	1.60%	1.70%	1.70%	1.80%	1.90%	2.00%	2.10%	2.20%
12 Month LIBID	1.20%	1.30%	1.40%	1.50%	1.60%	1.70%	1.80%	1.90%	2.00%	2.10%	2.20%	2.30%	2.40%
5yr PWLB Rate	2.10%	2.20%	2.20%	2.30%	2.30%	2.40%	2.50%	2.50%	2.60%	2.60%	2.70%	2.80%	2.80%
10yr PWLB Rate	2.50%	2.60%	2.60%	2.70%	2.80%	2.90%	2.90%	3.00%	3.00%	3.10%	3.10%	3.20%	3.20%
25yr PWLB Rate	2.90%	3.00%	3.10%	3.10%	3.20%	3.30%	3.30%	3.40%	3.40%	3.50%	3.50%	3.60%	3.60%
50yr PWLB Rate	2.70%	2.80%	2.90%	2.90%	3.00%	3.10%	3.10%	3.20%	3.20%	3.30%	3.30%	3.40%	3.40%

- 53 Appendix A draws together a number of current City forecasts for short term and longer fixed interest rates. Appendix B contains Link Asset Services' latest economic background report.

Borrowing Strategy

- 54 The Council is currently maintaining an under-borrowed position. This means that the capital borrowing need (the Capital Financing Requirement or CFR) has not been fully funded with loan debt as cash supporting the Council's

reserves, balances and cash flow has been used as a temporary measure. This strategy is prudent as investment returns are low and counterparty risk is still an issue that needs to be considered.

- 55 Against this background and the risks within the economic forecast, caution will be adopted with the 2019/20 treasury operations. The Chief Finance Officer will monitor interest rates in financial markets and adopt a pragmatic approach to changing circumstances:
- *if it was felt that there was a significant risk of a sharp FALL in long and short term rates (e.g. due to a marked increase of risks around relapse into recession or of risks of deflation), then long term borrowings will be postponed, and potential rescheduling from fixed rate funding into short term borrowing will be considered.*
 - *if it was felt that there was a significant risk of a much sharper RISE in long and short term rates than that currently forecast, perhaps arising from an acceleration in the start date and in the rate of increase in central rates in the USA and UK, an increase in world economic activity or a sudden increase in inflation risks, then the portfolio position will be re-appraised. Most likely, fixed rate funding will be drawn whilst interest rates are lower than they are projected to be in the next few years.*
- 56 Any decisions will be reported to the appropriate decision making body at the next available opportunity.
- 57 Within the prudential indicators there are a number of key indicators to ensure that the Council operates its activities within well-defined limits. One of these is that the Council needs to ensure that its gross debt does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2019/20 and the following two financial years. This allows some flexibility for limited early borrowing for future years, but ensures that borrowing is not undertaken for revenue or speculative purposes.
- 58 The Chief Finance Officer reports that the Council complied with this prudential indicator in the current year and does not envisage difficulties for the future. This view takes into account current commitments, existing plans, and the proposals in this budget report.

Policy on borrowing in advance of need

- 59 The Council will not borrow more than or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure that value for money can be demonstrated and that the Council can ensure the security of such funds.

Agenda Item 9

- 60 Risks associated with any borrowing in advance activity will be subject to prior appraisal and subsequent reporting through the mid-year or annual reporting mechanism.

Debt rescheduling

- 61 As short-term borrowing rates will be considerably cheaper than longer term fixed interest rates, there may be potential opportunities to generate savings by switching from long-term debt to short-term debt. However, these savings will need to be considered in the light of the current treasury position and the size of the cost of debt repayment (premiums incurred).
- 62 The reasons for any rescheduling to take place will include:
- the generation of cash savings and / or discounted cash flow savings;
 - helping to fulfil the treasury strategy;
 - enhancing the balance of the portfolio (amend the maturity profile and/or the balance of volatility).
- 63 Consideration will also be given to identify if there is any residual potential for making savings by running down investment balances to repay debt prematurely as short term rates on investments are likely to be lower than rates paid on current debt.
- 64 All rescheduling will be reported to Cabinet at the earliest meeting following its action.

Municipal Bonds Agency

- 65 It is possible that the Municipal Bonds Agency will be offering loans to local authorities in the future. The Agency hopes that the borrowing rates will be lower than those offered by the Public Works Loan Board (PWLB). This Authority may make use of this new source of borrowing as and when appropriate.

Income Strip Funding for regeneration schemes

- 66 A Member Working Group is currently investigating Income Strip Funding as an additional funding source (as requested by Council) and depending on their findings, this may be a more beneficial way of funding some schemes. If recommended by Council, Income Strip Funding may be added to the strategy as an additional funding source.

Affordability prudential indicators

- 67 The previous sections cover the overall capital and control of borrowing prudential indicators, but within this framework prudential indicators are required to assess the affordability of the capital investment plans. These provide an indication of the impact of the capital investment plans on the

Council’s overall finances. Members are asked to note the following indicators:

Ratio of financing costs to net revenue stream

68 This indicator identifies the trend in the cost of capital (borrowing and other long term obligation costs, net of investment income) against the net revenue stream.

	2017/18 Actual	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate	2021/22 Estimate
Services	0%	-1%	-1%	0%	0%
Commercial activities / non-financial investments	0%	0%	0%	0%	0%
Total	0%	-1%	-1%	0%	0%

The estimates of financing costs include current commitments and the proposals in the budget report.

Maturity structure of borrowing

69 These gross limits are set to reduce the Council’s exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.

70 Members are asked to note the following treasury indicators and limits:

Maturity structure of fixed interest rate borrowing 2019/20		
	Lower	Upper
Under 12 months	0	100
12 months to 2 years	0	100
2 years to 5 years	0	100
5 years to 10 years	0	100
10 years and above	0	100

Agenda Item 9

Maturity structure of variable interest rate borrowing 2019/20		
	Lower	Upper
Under 12 months	0	100
12 months to 2 years	0	100
2 years to 5 years	0	100
5 years to 10 years	0	100
10 years and above	0	100

Annual Investment Strategy

Current investment portfolio position

- 71 The Council's treasury portfolio position at 31 December 2018 appears in Appendix C.

Loans to other organisations

- 72 The Council has loaned money to other organisations. Details appear in Appendix C.

Investment policy - management of risk

- 73 The Ministry of Housing, Communities and Local Government (MHCLG) and CIPFA have extended the meaning of 'investments' to include both financial and non-financial investments. This report deals solely with financial investments, as managed by the treasury management team. Non-financial investments, essentially the purchase of income yielding assets, are covered in the Capital Strategy (a separate report).
- 74 The Council's investment policy has regard to the following: -
- MHCLG's Guidance on Local Government Investments ("the Guidance")
 - CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes 2017 ("the Code")
 - CIPFA Treasury Management Guidance Notes 2018
- 75 The Council's investment priorities will be security first, portfolio liquidity second and then yield, (return).

- 76 The above guidance from the MHCLG and CIPFA place a high priority on the management of risk. This authority has adopted a prudent approach to managing risk and defines its risk appetite by the following means: -
- a) Minimum acceptable credit criteria are applied in order to generate a list of highly creditworthy counterparties. This also enables diversification and thus avoidance of concentration risk. The key ratings used to monitor counterparties are the short term and long-term ratings.
 - b) Credit ratings will not be the sole determinant of the quality of an institution; it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate. The assessment will also take account of information that reflects the opinion of the markets. To achieve this consideration the Council will engage with its advisors to maintain a monitor on market pricing such as “credit default swaps” and overlay that information on top of the credit ratings.
 - c) Other information sources used will include the financial press, share price and other such information pertaining to the banking sector in order to establish the most robust scrutiny process on the suitability of potential investment counterparties.
 - d) This authority has defined the list of types of investment instruments that the treasury management team are authorised to use. There are two lists in Appendix D under the categories of ‘specified’ and ‘non-specified’ investments.
 - Specified investments are those with a high level of credit quality and subject to a maturity limit of one year.
 - Non-specified investments are those with less high credit quality, may be for periods in excess of one year, and/or are more complex instruments which require greater consideration by members and officers before being authorised for use.
 - e) The Council has determined that it will limit the maximum total exposure to non-specified investments as being 50% of the total investment portfolio, (see paragraph 81).
 - f) Lending limits (amounts and maturity), for each counterparty will be set through applying the table in paragraph 83.
 - g) This authority will set a limit for the amount of its investments which are invested for longer than 365 days, (see paragraph 96).
 - h) Investments will only be placed with counterparties from countries with a specified minimum sovereign rating, (see Appendix E and paragraph 90).
 - i) This authority has engaged external consultants, Link Asset Services, to provide expert advice on how to optimise an appropriate balance of security, liquidity and yield, given the risk appetite of this authority in the context of the expected level of cash balances and need for liquidity throughout the year.
 - j) All investments will be denominated in sterling.
 - k) As a result of the change in accounting standards for 2018/19 under IFRS 9, this authority will consider the implications of investment

Agenda Item 9

instruments which could result in an adverse movement in the value of the amount invested and resultant charges at the end of the year to the General Fund. In November 2018, the Ministry of Housing, Communities and Local Government (MHCLG) concluded a consultation for a temporary override to allow English local authorities time to adjust their portfolio of all pooled investments by announcing a statutory override to delay implementation of IFRS 9 for five years commencing from 1 April 2018.

- 77 However, this authority will also pursue value for money in treasury management and will monitor the yield from investment income against appropriate benchmarks for investment performance (see paragraph 98). Regular monitoring of investment performance will be carried out during the year.

Creditworthiness policy

- 78 The primary principle governing the Council's investment criteria is the security of its investments, although the yield or return on the investment is also a key consideration. After this main principle, the Council will ensure that:
- It maintains a policy covering both the categories of investment types it will invest in, criteria for choosing investment counterparties with adequate security, and monitoring their security. This is set out in the specified and non-specified investment sections below; and
 - It has sufficient liquidity in its investments. For this purpose it will set out procedures for determining the maximum periods for which funds may prudently be committed. These procedures also apply to the Council's prudential indicators covering the maximum principal sums invested.
- 79 The Chief Finance Officer will maintain a counterparty list in compliance with the following criteria and will revise the criteria and submit them to Council for approval as necessary. These criteria are separate to that which determines which types of investment instrument are either specified or non-specified as it provides an overall pool of counterparties considered high quality which the Council may use, rather than defining what types of investment instruments are to be used.
- 80 Credit rating information is supplied by Link Asset Services, our treasury advisors, on all active counterparties that comply with the criteria below. Any counterparty failing to meet the criteria would be omitted from the counterparty (dealing) list. Any rating changes, rating Watches (notification of a likely change), rating Outlooks (notification of the longer term bias outside the central rating view) are provided to officers almost immediately after they occur and this information is considered before dealing. For instance, a negative rating Watch applying to counterparty at the minimum Council criteria will be suspended from use, with all others being reviewed in light of market conditions

- 81 The criteria for providing a pool of high quality investment counterparties (both specified and non-specified investments) is:
- Banks 1 (Good credit quality). UK banks having, as a minimum, the following Fitch, Moody's and Standard & Poor's credit ratings (where rated):
 - i. Short Term - F1
 - ii. Long Term - A-
 - Banks 2 (Good credit quality). Non-UK banks domiciled in a country which has a minimum sovereign Long Term rating of AA- and having, as a minimum, the following Fitch, Moody's and Standard & Poor's credit ratings (where appropriate):
 - i. Short Term - F1
 - ii. Long Term - A-
 - Banks 3 (Part nationalised UK Bank - Royal Bank of Scotland). This bank can be included provided it continues to be part nationalised or it meets the rating requirements in Banks 1 above.
 - Banks 4 (The Council's own banker for transactional purposes, if it falls below the above criteria). Balances will be minimised in both monetary size and time invested.
 - Bank subsidiary and treasury operation. The Council will use these where the parent bank has provided an appropriate guarantee or has the necessary ratings outlined above.
 - Building societies. The Council will use all societies which:
 - i. Meet the ratings for banks outlined above; or
 - ii. Have assets in excess of £3bn;
 or meet both criteria.
 - Money Market Funds (MMFs). Minimum AAA credit rating from at least two of the three rating agencies and with a fund size in excess of £1bn. New EU regulations to be implemented in January 2019 will change fund valuation methodology from Constant Net Asset Valuation (CNAV) to either Low Volatility Net Asset Valuation (LVNAV) or CNAV. As a consequence, the Council approves the use of Money Market Funds that operate under CNAV (those that invest exclusively in government securities) or operate under LVNAV (all other liquidity funds)
 - UK Government (including gilts, Treasury Bills and the DMADF)
 - Local authorities, parish councils etc.
- 82 A limit of 50% will be applied to the use of non-specified investments.

Agenda Item 9

- 83 Additional requirements under the Code require the Council to supplement credit rating information. Whilst the above criteria relies primarily on the application of credit ratings to provide a pool of appropriate counterparties for officers to use, additional operational market information will be applied before making any specific investment decision from the agreed pool of counterparties. This additional market information (for example Credit Default Swaps, negative rating Watches/Outlooks) will be applied to compare the relative security of differing investment counterparties.
- 84 The time and monetary limits for institutions on the Council's counterparty list are as follows (these will cover both specified and non-specified investments):

	Fitch Long Term Rating (or equivalent)	Money and/or % Limit	Time Limit
Banks 1	A-	£7m	2 years
Banks 2	A-	£5m	2 years
Banks 3	N/A	£7m	2 years
Banks 4	N/A	£7m	1 day
Bank subsidiaries	A-	£7m	2 years
Rated building societies (assets over £3bn)	N/A	£5m	2 years
Unrated building societies (assets over £3bn)	N/A	£3m	1 year
UK Government DMADF	UK sovereign rating	£5m	6 months
Local authorities	N/A	£5m (each)	2 years
Money Market Funds (CNAV)	AAA	£5m (per Fund)	Liquid
Money Market Funds (LVNAV)	AAA	£5m (per Fund)	Liquid

- 85 The proposed criteria for specified and non-specified investments are shown in Appendix D.

UK banks - ring fencing

- 86 The largest UK banks, (those with more than £25bn of retail / Small and Medium-sized Enterprise (SME) deposits), are required, by UK law, to separate core retail banking services from their investment and international banking activities by 1st January 2019. This is known as “ring-fencing”. Whilst smaller banks with less than £25bn in deposits are exempt, they can choose to opt up. Several banks are very close to the threshold already and so may come into scope in the future regardless.
- 87 Ring-fencing is a regulatory initiative created in response to the global financial crisis. It mandates the separation of retail and SME deposits from investment banking, in order to improve the resilience and resolvability of banks by changing their structure. In general, simpler, activities offered from within a ring-fenced bank, (RFB), will be focused on lower risk, day-to-day core transactions, whilst more complex and “riskier” activities are required to be housed in a separate entity, a non-ring-fenced bank, (NRFB). This is intended to ensure that an entity’s core activities are not adversely affected by the acts or omissions of other members of its group.
- 88 While the structure of the banks included within this process may have changed, the fundamentals of credit assessment have not. The Council will continue to assess the new-formed entities in the same way that it does others and those with sufficiently high ratings, (and any other metrics considered), will be considered for investment purposes.

Other limits

- 89 Due care will be taken to consider the exposure of the Council’s total investment portfolio to non-specified investments, countries, groups and sectors.
- 90 The Council has determined that it will only use approved counterparties from the UK and from countries with a minimum sovereign credit rating of AA- from Fitch (or equivalent). The list of countries that qualify using this credit criteria as at the date of this report are shown in Appendix E. This list will be added to, or deducted from, by officers should ratings change in accordance with this policy.
- 91 In addition:
- no more than 15% of the total fund will be placed with any non-UK country at any time. The only country, other than the UK, currently approved for investment is Sweden;
 - total investment in any single institution , or institutions within a group of companies, is limited to 25% of the total fund at the time an investment is placed;

Agenda Item 9

Investment Strategy

- 92 Investments will be made with reference to the core balance and cash flow requirements and the outlook for short-term interest rates (i.e. rates for investments up to 12 months).
- 93 Greater returns are usually obtainable by investing for longer periods. While most cash balances are required in order to manage the ups and downs of cash flow, where cash sums can be identified that could be invested for longer periods, the value to be obtained from longer term investments will be carefully assessed.
- If it is thought that Bank Rate is likely to rise significantly within the time horizon being considered, then consideration will be given to keeping most investments as being short term or variable.
 - Conversely, if it is thought that Bank Rate is likely to fall within that time period, consideration will be given to locking in higher rates currently obtainable, for longer periods.
- 94 Bank Rate is forecast to increase steadily but slowly over the next few years to reach 2.00% by quarter 1, 2022. Bank Rate forecasts for financial year ends (March) are:
- 2018/19 0.75%
 - 2019/20 1.25%
 - 2020/21 1.50%
 - 2021/22 2.00%
- 95 The suggested budgeted investment earnings rates for returns on investments, placed for periods up to about 3 months, during each financial year are as follows:
- 2018/19 0.75%
 - 2019/20 1.00%
 - 2020/21 1.50%
 - 2021/22 1.75%
 - 2022/23 1.75%
 - 2023/24 2.00%
 - Later years 2.50%
- 96 The overall balance of risks to economic growth in the UK is probably neutral. The balance of risks to increases in Bank Rate and shorter term PWLB rates are probably also even and are dependent on how strong GDP growth turns out, how slowly inflation pressures subside and how quickly the Brexit negotiations move forward positively.
- 97 Members are asked to note the following treasury indicator and limit. These limits are set with regard to the Council's liquidity requirements and to

reduce the need for an early sale of an investment. They are based on the availability of funds after each year-end.

Upper limit for principal sums invested for longer than 365 days	2019/20 £m	2020/21 £m	2021/22 £m
Limit for principal sums invested for longer than 365 days	£10m	£10m	£10m
Current investments at 31/12/18 in excess of 1 year maturing in each year	-	-	-

- 98 For its cash flow generated balances, the Council will seek to utilise its business reserve instant access and notice accounts, money market funds and short-dated deposits (overnight to 100 days) in order to benefit from the compounding of interest.

Investment risk benchmarking

- 99 The Council will use an investment benchmark to assess the performance of its portfolio. The benchmarks will be 7 day and 3 month LIBID un-compounded.

End of year investment report

- 100 At the end of the financial year, the Council will receive a report on its investment activity as part of the Annual Treasury Report.

Scheme of delegation

- 101 The guidance notes accompanying the revised Code also require that a statement of the Council's scheme of delegation in relation to treasury management is produced as part of the Annual Investment Strategy. This appears at Appendix F.

Role of the Section 151 officer

- 102 As with the scheme of delegation mentioned in the previous paragraph, a statement of the role of the Section 151 officer is also required. This appears at Appendix G.

Key Implications

Financial

The management of the Council's investment portfolio and cash-flow generated balances plays an important part in the financial planning of the authority. The security of its capital and liquidity of its investments is of paramount importance.

Agenda Item 9

Legal Implications and Risk Assessment Statement

Under Section 151 of the Local Government Act 1972, the Section 151 Officer has statutory duties in relation to the financial administration and stewardship of the authority, including securing effective arrangements for treasury management.

This treasury management strategy report fulfils the requirements of The Chartered Institute of Public Finance & Accountancy's Code of Practice on Treasury Management 2017.

Treasury management has two main risks :

- Fluctuations in interest rates can result in a reduction in income from investments; and
- A counterparty to which the Council has lent money fails to repay the loan at the required time.

Consideration of risk is integral in our approach to treasury management.

The movement in previous years towards having a restricted lending list of better quality institutions but higher individual limits with those institutions has reduced the chances of a default. But if a default did occur, the potential loss would be greater.

These risks are mitigated by the annual investment strategy which has been prepared on the basis of achieving the optimum return on investments commensurate with proper levels of security and liquidity. However, Members should recognise that in the current economic climate, these remain significant risks and that the strategy needs to be constantly monitored.

Equality Assessment

The decisions recommended through this paper have a remote or low relevance to the substance of the Equality Act. There is no perceived impact on end users.

Conclusions

The effect of the proposals set out in this report is to allow the Council to effectively and efficiently manage cash balances.

In line with the revised CIPFA Code of Practice on Treasury Management, the Annual Treasury Strategy Statement must be considered by Council and this is planned for its meeting on 26 February 2019. Given the current uncertainties in the financial markets and the implications of Brexit, the Council may need to consider amending its strategy during the year.

APPENDIX A: Prospects for interest rates

- 1 The flow of generally positive economic statistics after the quarter ended 30 June meant that it came as no surprise that the Bank of England's Monetary Policy Committee (MPC) came to a decision on 2 August to make the first increase in Bank Rate above 0.5% since the financial crash, from 0.5% to 0.75%. Growth became increasingly strong during 2018 until slowing significantly during the last quarter. At their November quarterly Inflation Report meeting, the MPC left Bank Rate unchanged, but expressed some concern at the Chancellor's fiscal stimulus in his Budget, which could increase inflationary pressures. However, it is unlikely that the MPC would increase Bank Rate in February 2019, ahead of the deadline in March for Brexit. On a major assumption that Parliament and the EU agree a Brexit deal in the first quarter of 2019, then the next increase in Bank Rate is forecast to be in May 2019, followed by increases in February and November 2020, before ending up at 2.0% in February 2022.
- 2 The overall longer run future trend is for gilt yields, and consequently PWLB rates, to rise, albeit gently. However, over about the last 25 years, we have been through a period of falling bond yields as inflation subsided to, and then stabilised at, much lower levels than before, and supported by central banks implementing substantial quantitative easing purchases of government and other debt after the financial crash of 2008. Quantitative easing, conversely, also caused a rise in equity values as investors searched for higher returns and purchased riskier assets. In 2016, we saw the start of a reversal of this trend with a sharp rise in bond yields after the US Presidential election in November 2016, with yields then rising further as a result of the big increase in the US government deficit aimed at stimulating even stronger economic growth. That policy change also created concerns around a significant rise in inflationary pressures in an economy which was already running at remarkably low levels of unemployment. Unsurprisingly, the Fed has continued on its series of robust responses to combat its perception of rising inflationary pressures by repeatedly increasing the Fed rate to reach 2.25 - 2.50% in December 2018. It has also continued its policy of not fully reinvesting proceeds from bonds that it holds as a result of quantitative easing, when they mature. We therefore saw US 10 year bond Treasury yields rise above 3.2% during October 2018 and also investors causing a sharp fall in equity prices as they sold out of holding riskier assets. However, by early January 2019, US 10 year bond yields had fallen back considerably on fears that the Fed was being too aggressive in raising interest rates and was going to cause a recession. Equity prices have been very volatile on alternating good and bad news during this period.
- 3 From time to time, gilt yields, and therefore PWLB rates, can be subject to exceptional levels of volatility due to geo-political, sovereign debt crisis,

emerging market developments and sharp changes in investor sentiment. Such volatility could occur at any time during the forecast period.

- 4 Economic and interest rate forecasting remains difficult with so many external influences weighing on the UK. The above forecasts, (and MPC decisions), will be liable to further amendment depending on how economic data and developments in financial markets transpire over the next year. Geopolitical developments, especially in the EU, could also have a major impact. Forecasts for average investment earnings beyond the three-year time horizon will be heavily dependent on economic and political developments.

Investment and borrowing rates

- 5 Investment returns are likely to remain low during 2019/20 but to be on a gently rising trend over the next few years.
- 6 Borrowing interest rates have been volatile so far in 2018/19 and while they were on a rising trend during the first half of the year, they have backtracked since then until early January. The policy of avoiding new borrowing by running down spare cash balances has served well over the last few years. However, this needs to be carefully reviewed to avoid incurring higher borrowing costs in the future when authorities may not be able to avoid new borrowing to finance capital expenditure and/or the refinancing of maturing debt.
- 7 There will remain a cost of carry, (the difference between higher borrowing costs and lower investment returns), to any new long-term borrowing that causes a temporary increase in cash balances as this position will, most likely, incur a revenue cost.

APPENDIX B: Economic Background

- 1 **GLOBAL OUTLOOK.** World growth has been doing reasonably well, aided by strong growth in the US. However, US growth is likely to fall back in 2019 and, together with weakening economic activity in China and the eurozone, overall world growth is likely to weaken.

- 2 Inflation has been weak during 2018 but, at long last, unemployment falling to remarkably low levels in the US and UK has led to a marked acceleration of wage inflation. The US Federal Reserve (Fed) has therefore increased rates nine times and the Bank of England twice. However, the European Central Bank (ECB) is unlikely to start raising rates until late in 2019 at the earliest.

- 3 **KEY RISKS - central bank monetary policy measures**
 Looking back on nearly ten years since the financial crash of 2008 when liquidity suddenly dried up in financial markets, it can be assessed that central banks' monetary policy measures to counter the sharp world recession were successful. The key monetary policy measures they used were a combination of lowering central interest rates and flooding financial markets with liquidity, particularly through unconventional means such as quantitative easing (QE), where central banks bought large amounts of central government debt and smaller sums of other debt.

- 4 The key issue now is that that period of stimulating economic recovery and warding off the threat of deflation, is coming towards its close. A new period is well advanced in the US, and started more recently in the UK, of reversing those measures i.e. by raising central rates and, (for the US), reducing central banks' holdings of government and other debt. These measures are now required in order to stop the trend of a reduction in spare capacity in the economy and of unemployment falling to such low levels, that the re-emergence of inflation is viewed as a major risk. It is, therefore, crucial that central banks get their timing right and do not cause shocks to market expectations that could destabilise financial markets. In particular, a key risk is that because QE-driven purchases of bonds drove up the price of government debt, and therefore caused a sharp drop in income yields, this also encouraged investors into a search for yield and into investing in riskier assets such as equities. Consequently, prices in both bond and equity markets rose to historically high valuation levels simultaneously. This meant that both asset categories were exposed to the risk of a sharp downward correction and we have indeed, seen a sharp fall in equity values in the last quarter of 2018. It is important, therefore, that central banks only gradually unwind their holdings of bonds in order to prevent destabilising the financial markets. It is also likely that the timeframe for central banks unwinding their holdings of QE debt purchases will be over several years. They need to balance their timing to neither squash economic recovery, by taking too rapid and too strong action, or, conversely, let inflation run away by taking action that was too slow and/or too weak. The potential for central banks to get this timing and strength of action wrong are now key risks. At the time of writing, (early January 2019), financial markets are very concerned that the Fed is being too aggressive with

Agenda Item 9

its policy for raising interest rates and was likely to cause a recession in the US economy.

- 5 The world economy also needs to adjust to a sharp change in liquidity creation over the last five years where the US has moved from boosting liquidity by QE purchases, to reducing its holdings of debt, (currently about \$50bn per month). In addition, the European Central Bank ended its QE purchases in December 2018.
- 6 **UK.** The flow of positive economic statistics since the end of the first quarter of 2018 has shown that pessimism was overdone about the poor growth in quarter 1 when adverse weather caused a temporary downward blip. Quarter 1 at 0.1% growth in GDP was followed by a return to 0.4% in quarter 2 and by a strong performance in quarter 3 of +0.6%. However, growth in quarter 4 is expected to weaken significantly.
- 7 At their November quarterly Inflation Report meeting, the Bank of England's Monetary Policy Committee (MPC) repeated their well-worn phrase that future Bank Rate increases would be gradual and would rise to a much lower equilibrium rate, (where monetary policy is neither expansionary or contractionary), than before the crash; indeed they gave a figure for this of around 2.5% in ten years time, but declined to give a medium term forecast. However, with so much uncertainty around Brexit, they warned that the next move could be up or down, even if there was a disorderly Brexit. While it would be expected that Bank Rate could be cut if there was a significant fall in GDP growth as a result of a disorderly Brexit, so as to provide a stimulus to growth, they warned they could also *raise* Bank Rate in the same scenario if there was a boost to inflation from a devaluation of sterling, increases in import prices and more expensive goods produced in the UK replacing cheaper goods previously imported, and so on. In addition, the Chancellor could potentially provide fiscal stimulus to support economic growth, though at the cost of increasing the budget deficit above currently projected levels.
- 8 It is unlikely that the MPC would increase Bank Rate in February 2019, ahead of the deadline in March for Brexit. Getting parliamentary approval for a Brexit agreement on both sides of the Channel will take well into spring 2019. However, in view of the hawkish stance of the MPC at their November meeting, the next increase in Bank Rate is now forecast to be in May 2019, (on the assumption that a Brexit deal is agreed by both the UK and the EU). The following increases are then forecast to be in February and November 2020 before ending up at 2.0% in February 2022.
- 9 **Inflation.** The Consumer Price Index (CPI) measure of inflation has been falling from a peak of 3.1% in November 2017 to 2.3% in November. In the November Bank of England quarterly Inflation Report, inflation was forecast to still be marginally above its 2% inflation target two years ahead, (at about 2.1%), given a scenario of minimal increases in Bank Rate. This inflation forecast is likely to be amended upwards due to the Bank's report being produced prior to the Chancellor's announcement of a significant fiscal stimulus in the Budget; this is

likely to add 0.3% to GDP growth at a time when there is little spare capacity left in the economy, particularly of labour.

- 10 As for the labour market figures in October, unemployment at 4.1% was marginally above a 43 year low of 4% on the Independent Labour Organisation measure. A combination of job vacancies hitting an all-time high, together with negligible growth in total employment numbers, indicates that employers are now having major difficulties filling job vacancies with suitable staff. It was therefore unsurprising that wage inflation picked up to 3.3%, (3 month average regular pay, excluding bonuses). This meant that in real terms, (i.e. wage rates less CPI inflation), earnings are currently growing by about 1.0%, the highest level since 2009. This increase in household spending power is likely to feed through into providing some support to the overall rate of economic growth in the coming months. This tends to confirm that the MPC was right to start on a cautious increase in Bank Rate in August as it views wage inflation in excess of 3% as increasing inflationary pressures within the UK economy.
- 11 In the political arena, there is a risk that the current Conservative minority government may be unable to muster a majority in the Commons over Brexit. However, our central position is that Prime Minister May's government will endure, despite various setbacks, along the route to reaching an orderly Brexit in March 2019. If, however, the UK faces a general election in the next 12 months, this could result in a potential loosening of monetary and fiscal policy and therefore medium to longer dated gilt yields could rise on the expectation of a weak pound and concerns around inflation picking up.
- 12 **USA.** President Trump's massive easing of fiscal policy is fuelling a, (temporary), boost in consumption which has generated an upturn in the rate of strong growth which rose from 2.2%, (annualised rate), in quarter 1 to 4.2% in quarter 2 and 3.5%, (3.0% y/y), in quarter 3, but also an upturn in inflationary pressures. The strong growth in employment numbers and the reduction in the unemployment rate to 3.9%, near to a recent 49 year low, has fed through to an upturn in wage inflation which hit 3.2 % in November. However, CPI inflation overall fell to 2.2% in November and looks to be on a falling trend to drop below the Fed's target of 2% during 2019. The Fed has continued on its series of increases in interest rates with another 0.25% increase in December to between 2.25% and 2.50%, this being the fifth increase in 2018 and the ninth in this cycle. However, they did also reduce their forecast for further increases from three to two. This latest increase compounded investor fears that the Fed is over doing the rate and level of increases in rates and that it is going to cause a US recession as a result. There is also much evidence in previous monetary policy cycles, of the Fed's series of increases doing exactly that. Consequently, we have seen stock markets around the world plunging under the weight of fears around the Fed's actions, the trade war between the US and China, an expectation that world growth will slow, Brexit etc.
- 13 The tariff war between the US and China has been generating a lot of heat during 2018, but it is not expected that the current level of actual action would have much in the way of a significant effect on US or world growth. However,

Agenda Item 9

there is a risk of escalation if an agreement is not reached soon between the US and China.

- 14 **Eurozone.** Growth was 0.4% in quarters 1 and 2 but fell back to 0.2% in quarter 3, though this was probably just a temporary dip. In particular, data from Germany has been mixed and it could be negatively impacted by US tariffs on a significant part of manufacturing exports e.g. cars. For that reason, although growth is still expected to be in the region of nearly 2% for 2018, the horizon is less clear than it seemed just a short while ago. Having halved its quantitative easing purchases of debt in October 2018 to €15bn per month, the European Central Bank ended all further purchases in December 2018. The ECB is forecasting inflation to be a little below its 2% top limit through the next three years so it may find it difficult to warrant a start on raising rates by the end of 2019 if the growth rate of the EU economy is on a weakening trend.
- 15 **China.** Economic growth has been weakening over successive years, despite repeated rounds of central bank stimulus; medium term risks are increasing. Major progress still needs to be made to eliminate excess industrial capacity and the stock of unsold property, and to address the level of non-performing loans in the banking and credit systems. Progress has been made in reducing the rate of credit creation, particularly from the shadow banking sector, which is feeding through into lower economic growth. There are concerns that official economic statistics are inflating the published rate of growth.
- 16 **Japan** - has been struggling to stimulate consistent significant GDP growth and to get inflation up to its target of 2%, despite huge monetary and fiscal stimulus. It is also making little progress on fundamental reform of the economy. It is likely that loose monetary policy will endure for some years yet to try to stimulate growth and modest inflation.
- 17 **Emerging countries.** Argentina and Turkey are currently experiencing major headwinds and are facing challenges in external financing requirements well in excess of their reserves of foreign exchange. However, these countries are small in terms of the overall world economy, (around 1% each), so the fallout from the expected recessions in these countries will be minimal.

INTEREST RATE FORECASTS

- 18 The interest rate forecasts provided by Link Asset Services in the main report and Appendix A are predicated on an assumption of an agreement being reached on Brexit between the UK and the EU. In the event of an orderly non-agreement exit, it is likely that the Bank of England would take action to cut Bank Rate from 0.75% in order to help economic growth deal with the adverse effects of this situation. This is also likely to cause short to medium term gilt yields to fall. If there was a disorderly Brexit, then any cut in Bank Rate would be likely to last for a longer period and also depress short and medium gilt yields correspondingly. It is also possible that the government could act to protect economic growth by implementing fiscal stimulus.

- 19 **The balance of risks to the UK.** The overall balance of risks to economic growth in the UK is probably neutral. The balance of risks to increases in Bank Rate and shorter term PWLB rates, are probably also even and are broadly dependent on how strong GDP growth turns out, how slowly inflation pressures subside, and how quickly the Brexit negotiations move forward positively.
- 20 One risk that is both an upside and downside risk, is that all central banks are now working in very different economic conditions than before the 2008 financial crash as there has been a major increase in consumer and other debt due to the exceptionally low levels of borrowing rates that have prevailed for ten years since 2008. This means that the neutral rate of interest in an economy, (i.e. the rate that is neither expansionary nor deflationary), is difficult to determine definitively in this new environment, although central banks have made statements that they expect it to be much lower than before 2008. Central banks could therefore either over or under do increases in central interest rates.

Downside risks to current forecasts for UK gilt yields and PWLB rates currently include:

- **Brexit** - if it were to cause significant economic disruption and a major downturn in the rate of growth.
- Bank of England monetary policy takes action too quickly, or too far, over the next three years to raise Bank Rate and causes UK economic growth, and increases in inflation, to be weaker than we currently anticipate.
- A resurgence of the eurozone sovereign debt crisis, possibly in Italy, due to its high level of government debt, low rate of economic growth and vulnerable banking system, and due to the election in March of a government which has made a lot of anti-austerity noise. The EU rejected the initial proposed Italian budget and demanded cuts in government spending which the Italian government initially refused. However, a fudge was subsequently agreed, but only by *delaying* the planned increases in expenditure to a later year. This can has therefore only been kicked down the road to a later time. The rating agencies have started on downgrading Italian debt to one notch above junk level. If Italian debt were to fall below investment grade, many investors would be unable to hold it. Unsurprisingly, investors are becoming increasingly concerned by the words and actions of the Italian government and consequently, Italian bond yields have risen - at a time when the government faces having to refinance large amounts of debt maturing in 2019.
- Weak capitalisation of some European banks. Italian banks are particularly vulnerable; one factor is that they hold a high level of Italian government debt - debt which is falling in value. This is therefore undermining their capital ratios and raises the question of whether they will need to raise fresh capital to plug the gap.

Agenda Item 9

- German minority government. In the German general election of September 2017, Angela Merkel's CDU party was left in a vulnerable minority position dependent on the fractious support of the SPD party, as a result of the rise in popularity of the anti-immigration AfD party. Then in October 2018, the results of the Bavarian and Hesse state elections radically undermined the SPD party and showed a sharp fall in support for the CDU. As a result, the SPD is reviewing whether it can continue to support a coalition that is so damaging to its electoral popularity. After the result of the Hesse state election, Angela Merkel announced that she would not stand for re-election as CDU party leader at her party's convention in December 2018, (a new party leader has now been elected). However, this makes little practical difference as she is still expected to aim to continue for now as the Chancellor. However, there are five more state elections coming up in 2019 and EU parliamentary elections in May/June; these could result in a further loss of electoral support for both the CDU and SPD which could also undermine her leadership.
- Other minority eurozone governments. Spain, Portugal, Ireland, the Netherlands and Belgium all have vulnerable minority governments dependent on coalitions which could prove fragile. Sweden is also struggling to form a government due to the anti-immigration party holding the balance of power, and which no other party is willing to form a coalition with. The Belgian coalition collapsed in December 2018 but a minority caretaker government has been appointed until the May EU wide general elections.
- Austria, the Czech Republic and Hungary now form a strongly anti-immigration bloc within the EU while Italy, in 2018, also elected a strongly anti-immigration government. Elections to the EU parliament are due in May/June 2019.
- Further increases in interest rates in the US could spark a sudden flight of investment funds from more risky assets e.g. shares, into bonds yielding a much improved yield. Throughout the last quarter of 2018, we saw sharp falls in equity markets interspersed with occasional partial rallies. Emerging countries which have borrowed heavily in dollar denominated debt, could be particularly exposed to this risk of an investor flight to safe havens e.g. UK gilts.
- There are concerns around the level of US corporate debt which has swollen massively during the period of low borrowing rates in order to finance mergers and acquisitions. This has resulted in the debt of many large corporations being downgraded to a BBB credit rating, close to junk status. Indeed, 48% of total investment grade corporate debt is now rated at BBB. If such corporations fail to generate profits and cash flow to reduce their debt levels as expected, this could tip their debt into junk ratings which will increase their cost of financing and further negatively impact profits and cash flow.
- Geopolitical risks, especially North Korea, but also in Europe and the Middle East, which could lead to increasing safe haven flows.

Upside risks to current forecasts for UK gilt yields and PWLB rates

- **Brexit** - if both sides were to agree a compromise that removed all threats of economic and political disruption.
- The Fed causing a sudden shock in financial markets through misjudging the pace and strength of increases in its Fed Funds Rate and in the pace and strength of reversal of QE, which then leads to a fundamental reassessment by investors of the relative risks of holding bonds, as opposed to equities. This could lead to a major flight from bonds to equities and a sharp increase in bond yields in the US, which could then spill over into impacting bond yields around the world.
- The Bank of England is too slow in its pace and strength of increases in Bank Rate and, therefore, allows inflation pressures to build up too strongly within the UK economy, which then necessitates a later rapid series of increases in Bank Rate faster than we currently expect.
- UK inflation, whether domestically generated or imported, returning to sustained significantly higher levels causing an increase in the inflation premium inherent to gilt yields.

APPENDIX D - TREASURY MANAGEMENT PRACTICE (TMP1) - CREDIT AND COUNTERPARTY RISK MANAGEMENT

- 1 The CLG issued Investment Guidance in 2010, and this forms the structure of the Council's policy below. These guidelines do not apply to either trust funds or pension funds which operate under a different regulatory regime.
- 2 The key intention of the Guidance is to maintain the current requirement for councils to invest prudently, and that priority is given to security and liquidity before yield. In order to facilitate this objective the guidance requires this Council to have regard to the CIPFA publication Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes. This Council adopted the Code on 23 February 2010 and will apply its principles to all investment activity. In accordance with the Code, the Chief Finance Officer has produced its treasury management practices (TMPs). This part, TMP 1(1), covering investment counterparty policy requires approval each year.
- 3 **Annual investment strategy** - The key requirements of both the Code and the investment guidance are to set an annual investment strategy, as part of its annual treasury strategy for the following year, covering the identification and approval of following:
 - The strategy guidelines for choosing and placing investments, particularly non-specified investments.
 - The principles to be used to determine the maximum periods for which funds can be committed.
 - Specified investments that the Council will use. These are high security (i.e. high credit rating, although this is defined by the Council, and no guidelines are given), and high liquidity investments in sterling and with a maturity of no more than a year.
 - Non-specified investments, clarifying the greater risk implications, identifying the general types of investment that may be used and a limit to the overall amount of various categories that can be held at any time.
- 4 The investment policy proposed for the Council is:

Strategy guidelines - The main strategy guidelines are contained in the body of the treasury management strategy statement.

Specified investments - These investments are sterling investments of not more than one-year maturity, or those which could be for a longer period but where the Council has the right to be repaid within 12 months if it wishes. These are considered low risk assets where the possibility of loss of principal or investment income is small. These would include

Agenda Item 9

sterling investments which would not be defined as capital expenditure with:

- a) The UK Government (such as the Debt Management Account deposit facility, UK treasury bills or a gilt with less than one year to maturity).
- b) Supranational bonds of less than one year's duration.
- c) A local authority, parish council or community council.
- d) Pooled investment vehicles (such as money market funds) that have been awarded a high credit rating by a credit rating agency. For category 4 this covers pooled investment vehicles, such as money market funds, rated AAA by Standard and Poor's, Moody's and / or Fitch rating agencies.
- e) A body that is considered of a high credit quality (such as a bank or building society). For category 5 this covers bodies with a minimum Short Term rating of F1 (or the equivalent) as rated by Standard and Poor's, Moody's and / or Fitch rating agencies..

Within these bodies, and in accordance with the Code, the Council has set additional criteria to set the time and amount of monies which will be invested in these bodies. These criteria are contained in the body of the treasury management strategy statement.

Non-specified investments -are any other type of investment (i.e. not defined as specified above). The identification and rationale supporting the selection of these other investments and the maximum limits to be applied are set out below. Non specified investments would include any sterling investments with:

	Non Specified Investment Category	Limit (£)
a.	The Council's own banker if it fails to meet the basic credit criteria. In this instance balances will be minimised as far as is possible.	£7m
b.	Building societies not meeting the basic security requirements under the specified investments. The operation of some building societies does not require a credit rating, although in every other respect the security of the society would match similarly sized societies with ratings. The Council may use such building societies which have a minimum asset size of £3bn.	£3m
c.	Any bank or building society that has a minimum long term credit rating of A-, for deposits with a maturity of greater than one year (including forward deals in excess of one year from inception to repayment).	£7m
d.	Any non-rated subsidiary of a credit rated institution included in the specified investment category. These institutions will be included as an investment category subject to where the parent bank has provided an appropriate guarantee or has the necessary ratings outlined	£7m

	above.	
e.	Share capital in a body corporate - The use of these instruments will be deemed to be capital expenditure, and as such will be an application (spending) of capital resources. Revenue resources will not be invested in corporate bodies. See note 1 below.	£50k

NOTE 1. This Authority will seek further advice on the appropriateness and associated risks with investments in these categories.

Within categories a and b, and in accordance with the Code, the Council has developed additional criteria to set the overall amount of monies which will be invested in these bodies. These criteria are contained in the body of the treasury management strategy statement.

- 5 **The monitoring of investment counterparties** - The credit rating of counterparties will be monitored regularly. The Council receives credit rating information (changes, rating watches and rating outlooks) from Link Asset Services as and when ratings change, and counterparties are checked promptly. On occasion ratings may be downgraded when an investment has already been made. The criteria used are such that a minor downgrading should not affect the full receipt of the principal and interest. Any counterparty failing to meet the criteria will be removed from the list immediately by the Chief Finance Officer, and if required new counterparties which meet the criteria will be added to the list.

Agenda Item 9

APPENDIX E - Approved countries for investments

This list is based on those countries which have sovereign ratings of AA- or higher and also have banks operating in the sterling markets which have colour codes of green or above in the Capita Asset Services credit worthiness service.

AAA

- Australia
- Canada
- Denmark
- Germany
- Luxembourg
- Netherlands
- Norway
- Singapore
- Sweden
- Switzerland

AA+

- Finland
- Hong Kong
- U.S.A.

AA

- Abu Dhabi (UAE)
- France
- U.K.

AA-

- Belgium
- Qatar

APPENDIX F - Treasury management scheme of delegation

Full Council

- receiving and reviewing reports on treasury management policies, practices and activities;
- approval of annual strategy.

Cabinet

- approval of/amendments to the organisation's adopted clauses, treasury management policy statement and treasury management practices;
- budget consideration and approval;
- approval of the division of responsibilities;
- receiving and reviewing regular monitoring reports and acting on recommendations;
- approving the selection of external service providers and agreeing terms of appointment.

Finance Advisory Committee

- reviewing the treasury management policy and procedures and making recommendations to Cabinet.

APPENDIX G - The treasury management role of the section 151 officer

The S151 (responsible) officer is responsible for:

- recommending clauses, treasury management policy/practices for approval, reviewing the same regularly, and monitoring compliance;
- submitting regular treasury management policy reports;
- submitting budgets and budget variations;
- receiving and reviewing management information reports;
- reviewing the performance of the treasury management function;
- ensuring the adequacy of treasury management resources and skills, and the effective division of responsibilities within the treasury management function;
- ensuring the adequacy of internal audit, and liaising with external audit;
- recommending the appointment of external service providers.

CAPITAL STRATEGY 2019/20

Finance Advisory Committee - 29 January 2019

Report of the: Chief Finance Officer

Status: For Decision

Also considered by: Cabinet - 14 February 2019
Council - 26 February 2019

Key Decision: No

Executive Summary: This report presents the Capital Strategy for 2019/20. The Capital Strategy forms part of the Council's policy and strategy documents, providing guidance on the Council's capital programme and the use of its capital resources. It has to be approved by Cabinet and Full Council.

Its aim is to ensure that Members fully understand the overall long-term policy objectives and resulting capital strategy requirements, governance procedures and risk appetite.

The guidance in this strategy complements and supplements the Medium Term Financial Plan, the Property Investment Strategy and the Treasury Management Policy and Strategy.

This report supports the Key Aim of efficient management of the Council's resources.

Portfolio Holder Cllr. John Scholey

Contact Officer Roy Parsons, Principal Accountant - Ext 7204

Recommendation to Finance Advisory Committee: That the report be noted and comments forwarded to Cabinet.

Recommendation to Cabinet: That, subject to the comments of the Finance Advisory Committee, Cabinet recommend that Council approve the Capital Strategy for 2019/20.

Recommendation to Council: That the Capital Strategy for 2019/20 be approved.

Reason for recommendations: To agree the content of the Capital Strategy for 2019/20.

Agenda Item 10

Background

- 1 Following a substantial review process during 2017 both the Prudential Code for Capital Finance in Local Authorities (the 'Prudential Code') and the Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes (the 'Treasury Management Code') were updated and issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) in December 2017.
- 2 The Ministry of Housing, Communities and Local Government (MHCLG) issued its Statutory Guidance on Local Government Investments (3rd Edition) in February 2018. The Statutory Investment Guidance was amended in response to changing practices for local authority investments (for example, for investment in economic regeneration and authorities investing in non-financial assets) and it follows up on the changes to the CIPFA codes.
- 3 Local authorities in England are required to 'have regard' to the Statutory Investment Guidance as the Guidance was issued by the Secretary of State under Section 15 (1) of the Local Government Act 2003.

Introduction

- 4 The revised CIPFA Codes require, for 2019/20 onwards, all local authorities to prepare a Capital Strategy report, which will provide the following:
 - A high level, long term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services;
 - An overview of how the associated risk is managed; and
 - The implications for future financial sustainability.
- 5 The aim of this Capital Strategy is to ensure that all elected Members fully understand the overall long-term policy objectives and resulting capital strategy requirements, governance and risk appetite.
- 6 The Capital Strategy has direct links to other key strategic and policy documents, such as:
 - The Ten Year Plan;
 - The Local Plan;
 - Asset Management Plan;
 - Treasury Management Policy And Strategy;
 - Budget and Medium Term Financial Plan (MTFP);
 - Property Investment Strategy; and

- Capital Programme

- 7 The Capital Strategy complements the above documents by defining the approach, structure and governance for the effective financing and Management of the Council's capital investment needs and ambitions. It outlines how the Council's existing capital resources will be effectively managed to meet the planned needs and opportunities and for meeting the ambitions for future longer term capital investments.
- 8 It is intended that the Capital Strategy will be updated annually to reflect changes in circumstances.

Purpose of the Capital Strategy

- 9 The Capital Strategy sets out how the Council will manage the investment and financing of capital resources to contribute towards the achievement of its key objectives and priorities. This includes the appraisal process for determining investment decisions and the process for identifying and prioritising funding requirements.
- 10 The Capital Strategy is a framework by which capital expenditure decisions are made. It is required under the Prudential Code as a measure of good governance.
- 11 The objectives of the Capital Strategy are to:
- Prioritise and deploy capital resources in advancement of corporate objectives;
 - Support service plans;
 - Look for opportunities for cross-cutting and joined up investment;
 - Invest in assets that reflect the visions and aspirations of local people in service delivery; and
 - Manage investment and the Council's property and other assets effectively and efficiently.
- 12 The strategy considers all aspects of the Council's capital expenditure and extends to areas where the Council is able to influence others through the use of its capital resources. It forms part of the Council's integrated revenue, capital and balance sheet planning.
- 13 The strategy covers capital expenditure, capital financing and asset management and is one of the Council's key strategies. It also gives an overview of how risk is managed and the implications for future financial sustainability. It also provides a set of objectives and a framework, within the CIPFA Codes and statutory legislation, by which new capital projects are evaluated and investment decisions made, whilst ensuring that funding is targeted towards meeting corporate priorities.

Agenda Item 10

14 The Capital Strategy:

- States the Council's processes for project initiation, deciding on the prioritisation of capital projects and monitoring and evaluating schemes;
- Takes account of significant revenue implications;
- Provides a framework for the management and monitoring of the capital programme;
- Identifies funding streams and provides a basis to inform bidding for additional capital resources (e.g. government initiatives); and
- Informs the corporate review of existing properties.

Project Initiation

- 15 Capital projects are subject to a robust justification process, bringing together a clear business case with sufficient detailed costings to ensure that transparent decisions can be taken. Proposals are given independent oversight and review of the project in terms of validation arrangements, estimated figures and project milestones. Business cases are prepared in accordance with good project management principles.
- 16 A formal process is drawn up to ensure that projects are subject to thorough oversight for the duration of the scheme. Project management sits with the initiating team or department and there are clearly defined areas of responsibility for each task within the project.
- 17 For larger projects where feasibility is less certain, more robust business cases are prepared before bids for funds are made. This includes undertaking all preparatory work to fully understand the requirements of a project before a budget is sought. There must be a clear link between budgets and service plans.

Prioritisation of capital projects

- 18 Capital projects will be assessed for:
- Strategic fit - corporate objectives are being met by the expenditure;
 - Identified need - e.g. essential repairs and maintenance of existing assets;
 - Achievability - this may include alternatives to direct expenditure by the Council such as partnerships with others;
 - Affordability - to ensure that total capital expenditure remains within sustainable limits;

- Practicality and deliverability;
- Revenue generation achieved from the investment; and
- Non-monetary impacts such as future economic growth, social well-being or environmental improvement.

Monitoring and evaluating schemes

- 19 For all capital investment the appropriate level of due diligence will be undertaken, with the extent and depth reflecting the level of risk being considered. Due diligence will include:
- Identification of the risk to both the capital sums invested and the returns;
 - Understanding the potential impact on the financial sustainability of the Council if the risks come to fruition;
 - Identifying assets being held for security against any potential debt or charges on assets; and
 - Seeking independent and expert advice where necessary.
- 20 The Chief Finance Officer will ensure that Members are adequately informed and understand the risks of capital investment.
- 21 Project proposals will be put to Council for formal approval together with funding requirements and, if successful, will form the Council's capital programme which is its plan of capital investment for future years. This ensures that the Council's overall capital strategy, governance procedures and risk appetite are fully understood by all Members.

Revenue implications

- 22 The revenue implications of capital investment must always be considered in investment decisions and the prioritisation of projects. These include costs and savings implications. Costs to consider include:
- Cost of borrowing (including Minimum Revenue Provision);
 - Loss of investment income if reserves or useable capital receipts are deployed; and
 - Running costs associated with the asset (e.g. employee salaries, heat and light, administrative support costs and future maintenance).

Savings, including benefits, to identify include:

- Any positive impact of investment and economic growth on the Council's council tax base and business rates income; and

Agenda Item 10

- Capital projects that generate income, revenue savings or efficiencies.

Funding the Capital Strategy

- 23 Proposals for capital projects must identify the funding requirements for the timescale of the project including any revenue implications. Funding must be appropriate for the project and will come from:
- Reserves;
 - Capital receipts - from the sale of assets or finance lease receipts;
 - Government grants - such as disabled facilities grant funding;
 - Third party grants and contributions;
 - Community Infrastructure Levy;
 - Revenue contributions;
 - Other developer contributions; and
 - External borrowing.
- 24 The Secretary of State believes that individual local authorities are best placed to decide which projects will be most effective for their area. The key criteria to use when deciding whether expenditure can be funded by the increased flexible use of capital receipts is that it is forecast to generate ongoing savings.

Borrowing

- 25 The Council's approach to borrowing is set out in its Treasury Management Strategy Statement. The Council may consider internal or external borrowing. Prior to undertaking any external borrowing, affordability, the maturity profile of existing debt, interest rate and refinancing risk and the borrowing source should be given due consideration.
- 26 Local authorities are required to set aside some of their revenues as provision for debt each year of an amount considered to be 'prudent' (the Minimum Revenue Provision or MRP). Prudent provision should ensure that debt is repaid over a period that is reasonably commensurate with that over which the capital expenditure provides benefit.

Commercial activities and investment property

- 27 CIPFA defines investment property as property held solely to earn rentals or for capital appreciation or both. Returns from property ownership can be both income driven (through the receipt of rent) and by way of appreciation

of the underlying asset value (capital growth). The combination of these is a consideration in assessing the attractiveness of a property for acquisition.

- 28 With reductions in funding that the Council has faced, it is having to look at commercial activities and property investment to supplement its income and support service delivery. However, to minimise risk of potential loss of income in the longer term, it needs to ensure that any investment opportunities are based upon sound decision making that considers the future likelihood of investment income reducing. Property investment is not without risk as property values can fall as well as rise and changing economic conditions could cause tenants to leave properties remaining vacant.
- 29 The detail is contained in the Council's Property Investment Strategy which documents the Council's requirements, but when making commercial investment decisions the Council will follow the following principles:
- Commercial investments will only be made to enhance the Council's asset portfolio and will be linked to delivery of the Ten Year Plan;
 - Consideration will be given to the economic development potential of any investment decision;
 - Expert advice will be sought to ensure that any investment decision is based upon sound market intelligence, forecasts for future investment returns and yields that offer sound investment return without risking the capital invested;
 - Any borrowing linked to investment opportunities is secured upon the potential guaranteed element of the investment return so that any liability can be met from the activity undertaken; and
 - Investment opportunities will always ensure that the Council's investment is protected as far as possible either through increases in capital value or from guaranteed revenue income.
- 30 The Property Investment Strategy makes it clear that the Council will continue to invest prudently on a commercial basis and to take advantage of opportunities as they present themselves, supported by a robust governance process. However, proportionality in respect of overall resources will remain an important factor.

Knowledge and skills

- 31 The Council has professionally qualified staff across a range of disciplines, including finance, legal and property that follow continuous professional development (CPD) and maintain knowledge and skills through attendance on courses and through regular technical updates from appropriate bodies.
- 32 The Council utilises the knowledge and skills of these officers when considering capital investment decisions and, where necessary, it also relies

Agenda Item 10

on the expert knowledge of specialist external advisors. Some of these advisors are contracted long term or are appointed on an ad-hoc basis where necessary. Link Asset Services, provide treasury management advice, including investments, borrowing and capital financing.

- 33 External professional advice will always be sought when considering any major commercial property investment decision.

Key Implications

Financial

The report forms part of the Council's Budget and Policy framework.

Legal Implications and Risk Assessment Statement

Under Section 151 of the Local Government Act 1972, the Section 151 Officer has statutory duties in relation to the financial administration and stewardship of the authority.

All capital expenditure carries an element of risk which will be considered as part of the decision-making process for individual capital schemes.

Equality Assessment

The decisions recommended through this paper have a remote or low relevance to the substance of the Equality Act. There is no perceived impact on end users.

Conclusions

This Capital Strategy report fulfils the requirements of the CIPFA Prudential Code and the CIPFA Treasury Management Code, which were issued in December 2017.

In line with the revised CIPFA Codes, the Capital Strategy must be considered by Council and this is planned for its meeting on 26 February 2019.

Chief Finance Officer

CAPITAL PROGRAMME & ASSET MAINTENANCE 2018/21

Finance Advisory Committee - 29 January 2019

Report of	Chief Finance Officer
Status	For Decision
Also considered by	Cabinet - 14 February 2019
Key Decision	No

Executive Summary: This report sets out the proposed Capital and Asset maintenance programme for 2018/21 together with proposed funding.

This report supports the Key Aim of effective management of the Council's resources.

Portfolio Holder	Cllr. John Scholey
Contact Officers	Alan Mitchell, Ext.7483 Adrian Rowbotham Ext. 7153

Recommendation to Cabinet:

- (a) The Capital Programme 2018/21 and funding set out in Appendix B be approved, and
- (b) The proposed Asset Maintenance budget of £561,000 be agreed for 2018/19.

Reason for recommendation: To comply with the Councils Procedure rules and to ensure sound financial management.

Introduction and Background

- 1 The Capital programme is put together following the Council's financial and corporate policies to ensure that the proposed programme satisfies one or more of the Council's corporate plan priorities:
 - (a) improve efficiency and cost effectiveness of the services we provide;
 - (b) buy and build new assets that help improve the way we provide services and at the same time generating return on our investments;
 - (c) providing better customer service;

Agenda Item 11

- (d) invest in attracting, generating and supporting business.

Capital Bids

- 2 The new scheme bids are attached as Appendix A, these are in addition to programmes such as information technology and vehicle replacements.
- 3 Each scheme bid document details the proposed programme and its purpose as well as the capital and revenue costs for the next 3 years. In addition, details of how the programme is to be funded, justification for the bid and any other resource implications are included in each bid document.
- 4 Appendix B summaries the overall position if all the schemes are approved and indicates the funding sources proposed.
- 5 Schemes that have not spent in line with previously reported schedules for 2018/19 may be carried forward to 2019/20, subject to Cabinet approval and the final outturn position.

Capital Receipts

- 6 In the summary below the available capital receipts have been identified which can be used to fund the capital programme.

Table 1: Capital Receipts estimates

Source	2017/18 £000	2018/19 £000	2019/20 £000	2020/21 £000
Shared Ownership Staircasing	268	15	10	10
Land & Property disposal	8	5,645	11,100	-
	276	5,660	11,110	10

- 7 The capital receipt estimates are the most accurate available at the time the disposal programme is produced but may be subject to change due to market conditions or other planning related changes.
- 8 Capital receipts will be used to finance the capital programme where possible but other sources of funding such as the Financial Planning Reserve, internal borrowing, external borrowing and the Vehicle Renewal Reserve may be used to fund specific items.

Asset Maintenance

- 9 The asset maintenance programme seeks to allocate budgets to individual areas and schemes in accordance with the asset management plan and service requirement, reflecting backlog maintenance, health & safety and income generation as priorities.
- 10 The asset maintenance programme has been increase by £50,000 to reflect the need to increase the maintenance budget to keep Council owned premises in good order. Cabinet approved the bid on 11 January 2018 as SCIA 10.
- 11 Following the asset maintenance review SCIA16 proposes to increase the annual asset maintenance contribution by £100,000.
- 12 The table below sets out the asset maintenance programme for the next 4 years.

Table 2: Total asset maintenance programme

	2017/18	2018/19	2019/20	2020/21
	£'000	£'000	£'000	£'000
Budget	500	561	572	586

Key Implications

Financial

All financial implications are covered elsewhere in this report.

Legal Implications and Risk Assessment Statement.

There are no legal or human rights issues. The Council must agree a Capital Programme as part of its financial plan and ensure that resources are available to fund it.

Equality Assessment

Members are reminded of the requirement, under the Public Sector Equality Duty (section 149 of the Equality Act 2010) to have due regard to (i) eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Equality Act 2010, (ii) advance equality of opportunity between people from different groups, and (iii) foster good relations between people from different groups. The decisions recommended through this paper directly impact on end users. The impact has been analysed and varies between groups of people. The results of this analysis are set out immediately below.

Agenda Item 11

It is a statutory duty to provide Disabled Facility Grants to the older and or disabled residents in the district.

Conclusion

Members are asked to review the scheme bids submitted at Appendix A, and approve the programme and funding at Appendix B.

Capital Programme 2018/21

Scheme Bid Document - Scheme: White Oak Leisure Centre

Description: Pre-construction to the stage of Cost Certainty (RIBA Stage 4) – see breakdown at the end of this form.

Service : Communities & Business

Portfolio Holder/Chief Officer : Cllr Fleming/Lesley Bowles

Financials :

CAPITAL COSTS	TOTAL	2018/19	2019/20	2020/21
	£000	£000	£000	£000
Gross scheme cost	550	0	550	

External Contributions (list)

Net scheme cost	550	0	550	0
-----------------	-----	---	-----	---

ONGOING REVENUE IMPLICATIONS*

(excluding loss of interest)

Running costs

Income streams

Net cost	0	0	0
----------	---	---	---

Funding Source : Capital Receipts

* : Revenue implications dependent on individual projects.

Other Resource Implications :	
Staffing	The Council's ED & Property Team and Finance teams will be involved in working with the specialist contractor. The council's Project Management Team will be involved to facilitate reporting through the Council's Strategic Programme Board.
Asset Values	The carrying value in the Financial Statement of Accounts is £466,000 however the like for like valuation for insurance purposes is £29m.

Agenda Item 11

Justification: (Statutory Duty / Community Plan Aims / Key Infrastructure / Additional Savings / Other)

Key infrastructure for Swanley with links to Community Plan, Housing and Health Strategy
--

Breakdown of costs:	£000
Pre-construction surveys/works: design to RIBA Stage 4 and Principal Designer role	395
Additional specialist design input for TAG active, soft play, café & kitchen and Parkour	8
Quantity Surveyor	56
Project Management and delivery fee	71
Client contingency	20

These costs take us up to the point of commencing construction

Capital Programme 2019/22

Scheme Bid Document - Scheme: Vehicle Replacement Programme

Description: Purchase of replacement commercial fleet vehicles that have reached the end of their fully depreciated operational life.

Service : Environmental and Operational Services

Portfolio Holder/Chief Officer : Councillor Matthew Dickins/Richard Wilson

Financials :

CAPITAL COSTS	TOTAL	2019/20	2020/21	2021/22
	£000	£000	£000	£000
Gross scheme cost	1660	548	549	563
External Contributions (list)				

Net scheme cost	1660	548	549	563
-----------------	------	-----	-----	-----

ONGOING REVENUE IMPLICATIONS

(excluding loss of interest)

Contribution to Vehicle replacement Reserve		47	47	47
Income streams				
Net cost		47	47	47

Funding Source: Funding is via the vehicle replacement fund which is financed by fixed transport charges, the sale of old vehicles and by an annual revenue contribution. Fixed transport charges include an annual replacement fund contribution as well as individual depreciation charges levied on each fleet purchase over predetermined periods.

Other Resource Implications :	
Staffing	Managed by fleet management overhead account by existing employees.
Asset Values	Approximately £3 million

Justification: Key Infrastructure

To maintain services, mainly statutory. Supports all the Council's priorities

FINANCIAL PERFORMANCE INDICATORS 2018/19 - TO THE END OF NOVEMBER 2018

Finance Advisory Committee - 29 January 2019

Report of Chief Finance Officer

Status: For Consideration

Key Decision: No

This report supports the Key Aim of Effective Management of Council Resources

Portfolio Holder Cllr. John Scholey

Contact Officer Alan Mitchell, Ext. 7483

Recommendation to Finance Advisory Committee: That the report be noted.

Reason for recommendation: This recommendation supports the sound control of the Councils finances.

Introduction and Background

- 1 This report presents figures on ten internally set performance indicators covering activities that support information provided in the regular financial monitoring statements.
- 2 Information is provided on targets for the financial year, and figures for the previous year are given for comparison.
- 3 Use of these indicators assists management in highlighting areas where performance has an impact on the financial outturn for the authority.

Key Implications

Financial

There are no financial implications arising from this report

Legal Implications and Risk Assessment Statement.

Under section 151 of the Local Government Act 1972, the section 151 officer has statutory duties in relation to the financial administration and stewardship of the authority.

Agenda Item 12

Equality Assessment

The decisions recommended through this paper have a remote or low relevance to the substance of the Equality Act. There is no perceived impact on end users.

Conclusions

That Members note the report.

Appendices

Appendix A - Performance Indicators - November 2018 (Tables)

Appendix B - Performance Indicators - November 2018 (Graphs)

FINANCIAL RESULTS 2018/19 - TO THE END OF NOVEMBER 2018

Finance Advisory Committee - 29 January 2019

Report of Chief Finance Officer

Status: For consideration

Also considered by: Cabinet - 14 February 2019

Key Decision: No

This report supports the Key Aim of Effective Management of Council Resources

Portfolio Holder Cllr. John Scholey

Contact Officers Alan Mitchell, Ext. 7483
Adrian Rowbotham, Ext. 7153

Recommendation to Finance Advisory Committee: That the report be noted, and any comments forwarded to Cabinet.

Recommendation to Cabinet: Cabinet considers any comments from Finance Advisory Committee and notes the report

Reason for recommendation: Sound financial governance of the Council.

Overall Financial Position

1 The year-end position is currently forecast to be an unfavourable variance of £140,000; this represents 0.95% of our net service expenditure budget totalling £14,687,000.

Year to Date - Areas of Note

2 Pay costs - the expenditure to date on staff costs is £377,000 below budget. There are currently vacancies within the majority of service areas; the largest salary underspends are being reported within Planning Services and Environmental & Operational Services. The impact of the larger salary variances are included within the Chief Officer commentaries.

3 Income - the Council receives a number of different income streams to help balance the budget; section 8 of the monitoring pack provides details in relation to the main streams. At the end of November, income is ahead of profile in Carparks, On-street Parking and Building Control. The level of on-

Agenda Item 13

street parking income has seen a slight increase, as large scale works are carried out in the car parks. Land Charges, Car Parks and Planning Fee income is currently lower than anticipated; Chief Officers are aware of risks and have provided further details in their commentaries.

- 4 Investment Returns - the return to date on the investments held by the Council has resulted in a favourable position being reported, with interest received to date totalling £164,000 compared to a budget of £100,000. For noting, we are starting to see some amendments to available rates following the Bank of England base rate increase to 0.75% in August 2018.
- 5 New Homes Bonus - the Council is due to receive £1,320,000 News Homes Bonus during 2018/19; as per the 10 year financial plan, this income will not be applied to fund the provision of services, instead it will be transferred to the Budget Stabilisation Reserve to be utilised as future needs arise.
- 6 Retained Business Rates - the Council is part of the 2018/19 Kent 100% Business Rates Retention pilot. An income expectation of £2,700,000 forms part of the 18/19 budget; any receipts over and above this amount will be transferred to the Budget Stabilisation Reserve. Regular monitoring takes place, with any outturn amendments feeding into the outturn forecasts.

Year End Forecast

- 7 The year-end forecast position is an unfavourable variance of £140,000. Following are details of the larger variances, both favourable and unfavourable.

Net Service Expenditure - Favourable variances

- 8 The Council is providing Parking Enforcement to Tandridge District Council, as part of a contractual agreement; additional income totalling £30,000 has been forecast in relation to this arrangement.
- 9 Various underspends across Environmental & Operational Services general admin support functions has resulted in a favourable variance of £72,000 being forecast; this is as a result of salary savings and savings on postage, phones, equipment and other minor expenditure areas.
- 10 The Council no longer belongs to the West Kent Equalities arrangement, with services being provided in-house; this has resulted in a favourable variance of £19,000.
- 11 From the savings the Council is able to derive from vacant posts, it is anticipated that the corporate savings target will be exceeded by the year end; this has resulted in a favourable variance of £20,000.

- 12 Salary savings within the Planning Service as a result of vacancies has resulted in favourable variances of £35,000 being forecast in Planning - Enforcement and £40,000 in Planning Policy.
- 13 A favourable variance of £24,000 has been forecast in the Audit Function owing to current vacancies within the service, partly offset by the secondment of an interim Audit Manager. As agreed by the Audit Committee members, the future direction of the Audit Service is currently under review.

Net Service Expenditure - Unfavourable variances

- 14 Business Rates have been paid for properties in Swanley that are being held for future development and this has given rise to an unfavourable variance of £35,000.
- 15 Anticipated lower levels of income from sale of glass and paper has contributed to an adverse variance forecast within the Refuse Collection service, totalling £72,000.
- 16 Savings/income from moving to internal enforcement agents for local tax recovery has not fully been realised, as arrangements have not been in place for the full year; this has contributed to an adverse variance of £57,000 being forecast within the Local Tax service.
- 17 Contractor and consultant costs involved in the feasibility and legal work in the lead up to capital schemes has resulted in Economic Development Property forecasting of unfavourable variance of £36,000.
- 18 Unrealised income within CCTV has resulted in an unfavourable variance of £22,000.
- 19 Planning - Appeals are forecasting an unfavourable variance of £29,000 following awards of costs.
- 20 Underachievement of planning income, partly off-set by salary savings from vacancies within the Planning - Development Management team, has resulted in an unfavourable variance of £86,000.
- 21 Environmental Protection has forecast a £10,000 underachievement of permitting income, owing to the number of Pollution Prevention and Control permits actually issued.
- 22 Rates paid for the temporary Morewood Close parking site, whilst Buckhurst 2 is being redeveloped, has contributed to an unfavourable variance of £15,000 being forecast in Car Parks.
- 23 The costs incurred in relation to Public Rights of Way and CON 29 have contributed to an unfavourable forecast of £60,000 in Land Charges.

Other Variances

- 24 Retained Business Rates - following the quarter 1 business rates pilot monitoring position, the Council are anticipating additional business rates receipts totalling £250,000. A corresponding transfer to the Budget Stabilisation Reserve has been forecast, to enable funds to be utilised in future years.
- 25 Interest Receipts - current levels of investment returns and possible rates available going forward has resulted in £111,000 additional income being forecast.
- 26 Investment Property Income - as agreed as part of the 2018/19 budget setting process any surplus income received from Investment Properties will be transferred to a reserve to assist with any future maintenance or voids costs. It is anticipated that income will exceed budgeted levels this year and some of this will be transferred to a reserve, however some of the income will be utilised to off-set consultancy costs incurred within Economic Development in relation to Property Investment projects. As a result a £20,000 favourable variance has been forecast to reflect this.

Future Issues and Risk areas

- 27 Chief Officers have considered the future issues and risk areas for their services and the impacts these may have on the Council's finances as follows:
 - Spend on property feasibility studies may be capitalised if the project is feasible and taken forward. This is monitored carefully during the year.
 - Land Charges income remains challenging versus the budgeted amount, currently under review.
 -
 - The full service of Universal Credit, seeing the transfer of new claims to Universal Credit, will commence from November 2018. Migration for existing claims will be phased after this date; however, pensioner cases will be retained. Regular liaison meetings are taking place with DWP partnership managers.
 - There remains the risk that planning decisions and enforcement action will be challenged, either at appeal or through the Courts, and we have received an indication of significant appeal costs in Swanley. Final costs therefore remain uncertain.
 - Planning application fee income is uncertain and is currently below budgeted profile. This is being closely monitored.
 - Staff turnover, in Planning, remains high and recruiting to vacant posts continues to be difficult.
 - Any surplus on the Investment Property budget will be transferred to a reserve as agreed at budget setting to assist with any future maintenance and voids.

- 28 The impact on financial markets, externally funded projects and rates of inflation following the results of the EU Referendum in June 2016 is being monitored and addressed as part of the Council's risk management process.

Key Implications

Financial

The financial implications are set out elsewhere in this report.

Legal Implications and Risk Assessment Statement.

Under section 151 of the Local Government Act 1972, the Section 151 officer has statutory duties in relation to the financial administration and stewardship of the authority.

Detailed budget monitoring is completed on a monthly basis where all variances are explained. Future risk items are also identified.

Equality Assessment

The decisions recommended through this paper have a remote or low relevance to the substance of the Equality Act. There is no perceived impact on end users.

BUDGET MONITORING - Strategic Commentary - As at 30th November 2018

Overall Financial Position

1. The year-end position is currently forecast to be an unfavourable variance of £140,000; this represents just over 0.95% of our net service expenditure budget totalling £14,687,000.

Year to Date - Areas of Note

2. Pay costs – the expenditure to date on staff costs is £451,000 below budget. There are currently vacancies within the majority of service areas; the largest salary underspends are being reported within Planning Services and Environmental & Operational Services. The impact of the larger salary variances are included within the Chief Officer commentaries.
3. Income – the Council receives a number of different income streams to help balance the budget; section 8 of the monitoring pack provides details in relation to the main streams. At the end of November, income is ahead of profile in Car Parking, On-street Parking and Building Control. The level of on-street parking income has seen a slight increase, as large scale works are carried out in the car parks. Land Charges and Planning Fee income is currently lower than anticipated; Chief Officers are aware of risks and have provided further details in their commentaries.
4. Investment Returns – the return to date on the investments held by the Council has resulted in a favourable position being reported, with interest received to date totalling £164,000 compared to a budget of £100,000. For noting, we are starting to see some amendments to available rates following the Bank of England base rate increase to 0.75% in August 2018.
5. New Homes Bonus – the Council is due to receive £1,320,000 New Homes Bonus during 2018/19; as per the 10 year financial plan, this income will not be applied to fund the provision of services, instead it will be transferred to the Budget Stabilisation Reserve to be utilised as future needs arise.
6. Retained Business Rates – the Council is part of the 18/19 Kent 100% Business Rates Retention pilot. An income expectation of £2,700,000 forms part of the 18/19 budget; any receipts over and above this amount will be transferred to the Budget Stabilisation Reserve. Regular monitoring takes place, with any outturn amendments feeding into the outturn forecasts.

Year End Forecast

7. The year-end forecast position is an unfavourable variance of £140,000. Following are details of the larger variances, both favourable and unfavourable.

Net Service Expenditure - Favourable variances

8. The Council is providing Parking Enforcement to Tandridge District Council, as part of a contractual agreement; a favourable variance totalling £30,000 has been forecast in relation to this arrangement.
9. Various underspends across Environmental & Operational Services support functions has resulted in a favourable variance of £52,000 being forecast; this is as a result of salary savings and savings on postage, phones, equipment and other minor expenditure areas.
10. The Council no longer belongs to the West Kent Equalities arrangement, with services being provided in-house; this has resulted in a favourable variance of £19,000.
11. From the savings the Council is able to derive from vacant posts, it is anticipated that the corporate savings target will be exceeded by the year end; this has resulted in a favourable variance of £20,000.
12. Salary savings within the Planning Service as a result of vacancies has resulted in favourable variances of £35,000 being forecast in Planning – Enforcement, £30,000 in CIL Administration and £40,000 in Planning Policy.
13. A favourable variance of £24,000 has been forecast in the Audit Function owing to current vacancies within the service, partly offset by the secondment of an interim Audit Manager. As agreed by the Audit Committee members, the future direction of the Audit Service is currently under review.
14. The fee received for administering the Community Infrastructure Levy is projected to exceed budget expectations; this has resulted in a favourable variance of £30,000 being forecast.
15. Street naming and numbering are forecasting a favourable outturn variance of £14,000; this is as a result of higher than anticipated income levels and also reduced expenditure.

Net Service Expenditure - Unfavourable variances

16. Business Rates have been paid for properties in Swanley that are being held for future development and this has given rise to an unfavourable variance of £35,000.
17. Anticipated lower levels of income from sale of glass and paper has contributed to an adverse variance forecast within the Refuse Collection service, totalling £72,000.
18. Savings/income from moving to internal enforcement agents for local tax recovery has not fully been realised, as arrangements have not been in place for the full year; this has contributed to an adverse variance of £53,000 being forecast within the Local Tax service.
19. Contractor and consultant costs involved in the feasibility and legal work in the lead up to capital schemes has resulted in Economic Development Property forecasting of unfavourable variance of £35,000.
20. Unrealised income expectations with CCTV has resulted in an unfavourable variance of £22,000.
21. Planning – Appeals are forecasting an unfavourable variance of £29,000 following awards of costs.
22. Underachievement of planning income, partly off-set by salary savings from vacancies within the Planning – Development Management team, has resulted in an unfavourable variance of £76,000.
23. The underachievement of income and costs incurred in relation to Public Rights of Way and CON 29 have contributed to an unfavourable forecast of £60,000 in Land Charges.
24. Community Safety have forecast an adverse variance of £21,000 following legal fees and charges for regularising activity at the former Convent of Mercy building.
25. Office maintenance, recruitment costs and investment in new staff training has resulted in an unfavourable variance of £27,000 being forecast within Planning Services - Administrative Expenses.

26. Additional agency staff costs to cover maternity leave and other staff absence within the Support – Exchequer and Procurement service has resulted in an unfavourable variance of £34,000.
27. Although income is above profile, rent for Bligh’s car park and business rates paid, including for the temporary site of Morewood Close for temporary parking whilst Buckhurst 2 being developed, have contributed to an unfavourable variance of £71,000 being forecast within Car Parks.

Other Variances

28. Retained Business Rates – following the qtr 1 business rates pilot monitoring position, the Council are anticipating additional business rates receipts totalling £250,000. A corresponding transfer to the Budget Stabilisation Reserve has been forecast, to enable funds to be utilised in future years.
29. Interest Receipts – current levels of investment returns and possible rates available going forward has resulted in £111,000 additional income being forecast.
30. Investment Property Income – as agreed as part of the 18/19 budget setting process any surplus income received from Investment Properties will be transferred to a reserve to assist with any future maintenance or voids costs. It is anticipated that income will exceed budgeted levels this year and some of this will be transferred to a reserve, however some of the income will be utilised to off-set consultancy costs incurred within Economic Development in relation to Property Investment projects. As a result a £20,000 favourable variance has been forecast to reflect this.

Future Issues and Risk areas

31. Chief Officers have considered the future issues and risk areas for their services and the impacts these may have on the Council’s finances as follows:
 - Spend on property feasibility studies may be capitalised if the project is feasible and taken forward. This is monitored carefully during the year.
 - All legal fees and charges for regularising activity at the former Convent of Mercy building in Swanley, including planning enforcement, will be charged to the Community Development budget which will result in an overspend. The amount of legal fees will not be known until later in the financial year.

- The full service of Universal Credit, seeing the transfer of new claims to Universal Credit, commenced from 21st November 2018. Migration for existing claims will be phased after this date; however, pensioner cases will be retained. Regular liaison meetings are taking place with DWP partnership managers.
- There remains the risk that planning decisions and enforcement action will be challenged, either at appeal or through the Courts. The risk is ongoing and associated costs remain uncertain.
- Planning application fee income is uncertain and is currently below budgeted profile. This is being closely monitored.
- Staff turnover, in Planning, remains high and recruiting to vacant posts continues to be difficult.
- Any surplus on the Investment Property budget will be transferred to a reserve as agreed at budget setting to assist with any future maintenance and voids.

Communities and Business – November 2018 Commentary

Service	Variance to Date £000	Forecast Annual Variance £000	Explanation of variance and action planned
Community Safety	21	21	Spend ahead of profile relating to beginning of year expenditure and costs including Lizzie Yarnold victory bus tour and other projects. Additional expenditure has been necessary to bring the Convent of Mercy in Swanley under control including legal costs, physical costs of closing the building and other expenses. There will be an attempt to recover some costs from the landowner early in the new year. Further court hearings may be required. The budget will be carefully monitored during the remainder of the year but there may be an overspend, currently predicted at £21k.
Economic Development Property	5	35	This is mainly due to contractor/consultants costs involved in feasibility and legal work in the lead up to capital schemes. These costs are allocated to projects and where possible will be capitalised. An adjustment has been estimated in November, however there is still likely to be an overspend. The overspend includes feasibility for Bevan Place, High Street Swanley, small sites in Swanley, leisure centre and small sites in Edenbridge. During October the next phase of the Leisure Centre feasibility work was commissioned.
Homeless	63	0	Additional expenditure for nightly paid emergency accommodation for homeless customers will be offset to an extent by Housing Benefit reclaim. This current overspend against profile is likely to grow due to the national increase in the use of Bed and Breakfast. However, any overspend on this cost centre will be 100% offset at the year-end by income from the Flexible Homelessness Fund.
Housing	15		Choice Based lettings annual subscription, private sector lettings post salary and laptops for new HERO Officers – all funded from the Government's Flexible Homelessness Grant aimed at helping to reduce homelessness. Funding held in earmarked reserve and to be transferred.
Housing Energy Retraining Options (HERO)	31	0	All HERO Officers currently being charged to this code but some of the income is in the Flexible Homelessness Support Fund and will be drawn down. Some partner contributions to be invoiced before the year end and the cost centre will be at zero at the year end.
West Kent Partnership	10		Spending on West Kent Partnership. Funding held in earmarked reserve to be transferred and some staff cost to be reallocated. Will be zero at year end.

Service	Variance to Date £000	Forecast Annual Variance £000	Explanation of variance and action planned
Choosing Health WK PCT	(14)	0	External funding for health initiatives received in advance. Will be zero at year end.
Dunton Green Projects - S106	13	0	External funding received in advance – to be transferred to this code to balance expenditure. Will be zero at year end.
One You – Your Home Project	(18)	0	External funding for housing & health initiatives received in advance. Will be zero at year end.
PCT Initiatives	(23)	0	This is external funding for health initiatives received in advance. Will be zero at year end.
West Kent Enterprise Advisor Network	(14)	0	External funding for the enterprise network received in advance. Will be zero at year end.
West Kent Kick Start	(10)	0	This is external funding received in advance for business support. Will be zero at year end.

For noting, figures in brackets represent a favourable variance

Future Issues/Risk Areas

All legal fees and charges for regularising activity at the former Convent of Mercy building in Swanley, including planning enforcement, will be charged to the Community Development budget which will result in an overspend. The amount of legal fees will not be known until later in the financial year. Spend on property feasibility studies may be capitalised if the project is feasible and taken forward. This is monitored carefully during the year. Feasibility studies on potential investments and development on Council owned land are charged to this budget as is feasibility work on Whiteoak Leisure Centre.

Lesley Bowles
Chief Officer - Communities and Business
December 2018

Corporate Services – November 2018 Commentary

Service	Variance to Date £000	Forecast Annual Variance £000	Explanation of variance and action planned
Asset Maintenance IT	(39)		Spend as per 10-year asset maintenance plan – surplus to IT Asset Maintenance reserve at year end as agreed
Register of Electors	(15)		Spend expected to be as per budget allocation by year end.
Land Charges	40	60	Current variance due to difference in cost vs income for the provision of the Land Charges Service. Proposed to be addressed through a review of Land Charges Fees
Street Naming	(12)	(14)	Income to be offset by related staff costs which are reported elsewhere.
Administrative Expenses – Human Resources	40		Current overspend due to external legal costs.
Support – Human Resources	46		Current overspend partially due to external legal costs .This figure also includes training costs which when taken with budgets currently allocated to service areas is in line with allocated budgets.

For noting, figures in brackets represent a favourable variance

Jim Carrington-West
Chief Officer – Corporate Services
December 2018

Environmental and Operational Services – November 2018 Commentary

Service	Variance to Date £000	Forecast Annual Variance £000	Explanation of variance and action planned
Asset Maintenance Argyle Road	(12)		Expenditure currently below profile. It is anticipated that full budget will be needed in this year. Includes £35,000 for Planned Preventative Maintenance Surveys carried out in October.
Asset Maintenance CCTV	(11)		Capital works underway in Control Room. Asset Maintenance budget will be utilised to support these works.
Asset Maintenance Hever Road	35		Replacement of utility block following fire to be recovered through insurance.
Car Parks	104	71	Although income £15,000 above profile, rent for new Bligh's car park paid up to December and rates paid for temporary site of Morewood Close for temporary parking whilst Buckhurst 2 being developed. NNDR bills over budget.
Car Parking – On Street	(33)		Income £116,000 above profile. Expenditure to support parking schemes, including temporary shuttle bus service from Morewood Close.
Estates Management Buildings	20	35	NNDR paid for meeting point building in Swanley. Rates will continue to be due on this empty building until it is demolished. Rental income received ahead of profile.
Disabled Facilities Grant Administration	(12)	(10)	Income generated above profile due to high level of DFG grants awarded.
Markets	(33)	(5)	Rent not paid yet for Swanley Market site. Increased income, following re tendering for Sevenoaks' markets.
Parking Enforcement – Tandridge DC	(17)	(30)	Income received from contract for enforcement activity on Tandridge DC's car parks.

Service	Variance to Date £000	Forecast Annual Variance £000	Explanation of variance and action planned
Private Sector Housing	(13)	(10)	Savings on salaries due to vacancy.
Refuse Collection	50	72	Income less than profile on recycled material, particularly glass. Transition grant from KCC for Sainsbury's recycling banks credits now ended. Recycling credits profiled for 2 nd quarter. Not yet invoiced.
Support - Central Offices - Facilities	(16)	(20)	Savings on salaries and increased income from sale of garden sacks.
Support - General Admin	(36)	(32)	Savings on salaries due to vacancy and on postage, and scanning equipment.
Support - Direct Services	(17)	(10)	Savings on internal printing, mobile phones and training (to be delivered later in the year).
Direct Services - Trading Accounts	5		Income £92,000 above profile. Expenditure £97,000 above profile. Surplus £177,000 against a profiled surplus of £182,000.

For noting, figures in brackets represent a favourable variance

Future Issues/Risk Areas

Expenditure incurred in replacing a utility block at Hever Road Travellers Site following a fire. To be recovered from Insurance (confirmed by Loss Adjuster). Diesel prices increasing.

Richard Wilson
Chief Officer - Environmental & Operational Services
December 2018

Finance – November 2018 Commentary

Service	Variance to Date £000	Forecast Annual Variance £000	Explanation of variance and action planned
Corporate Management	23		External advice and support costs incurred in relation to a number of projects.
Corporate – Other	(68)	(20)	From the savings the Council is able to derive from vacant posts, it is anticipated that the corporate savings target will be exceeded by the year end.
Dartford Partnership Hub (SDC costs)	(68)		DWP grants received during the year; unspent grants will be carried forward to utilise in future years. Salary underspends due to a number of vacant posts within the Partnership.
Equalities Legislation	(19)	(19)	The Council no longer belongs to the West Kent Equalities arrangement, as services are provided in-house.
Local Tax	56	53	New enforcement arrangements have not been in place for the full year, impacting on income expectations.
Misc. Finance	(15)		Underspends across various cost codes.
Support - Exchequer and Procurement	28	34	Additional agency staff to cover maternity leave and other staff absence.

For noting, figures in brackets represent a favourable variance

Future Issues/Risk Areas

The full service of Universal Credit, seeing the transfer of new claims to Universal Credit, will commence from November 2018. Migration for existing claims will be phased after this date; however, pensioner cases will be retained. Regular liaison meetings are taking place with DWP partnership managers.

Adrian Rowbotham
Chief Finance Officer
December 2018

Planning – November 2018 Commentary

Service	Variance to Date £000	Forecast Annual Variance £000	Explanation of variance and action planned
Administrative Expenses – Planning Services	47	27	This is the result of office maintenance, recruitment costs and investment in new staff training.
Community Housing Fund	10		This will be funded from reserve.
Conservation	9	10	This is the cost of expert consultants preparing conservation area appraisals, in the main offset by salary underspend.
Enforcement	(9)	(35)	This is an underspend on salary which in part is likely to cover legal costs arising from more active planning enforcement work in the Courts.
Planning Policy	(41)	(40)	This relates to an underspend on Salaries due to vacancies, including the Strategic Planning Manager post. The new post holder started in September and any underspend can form part of the Local Plan reserve.
Planning - Development Management	51	86	The forecast is mainly due to underachievement of planning application fee income partly offset by staffing vacancies, the fee income is kept under continuous review
Building Control	(25)	(2)	This is the net position of additional fees, offset by additional partnership costs.

For noting, figures in brackets represent a favourable variance

Future Issues/Risk Areas

There remains the risk that planning decisions and enforcement action will be challenged, either at appeal or through the Courts. A cost award at Broom Hill has been settled, incorporated above. The risk is ongoing and associated costs remain uncertain. Application fee income is also uncertain and is currently below budgeted profile. This is being closely monitored. Staff turnover remains high and recruiting to vacant posts continues to be difficult.

Richard Morris
Chief Planning Officer
December 2018

Investment Property – November 2018 Commentary

Service	Variance to Date £000	Forecast Annual Variance £000	Explanation of variance and action planned
Investment Properties	(12)	(20)	Mainly due to the expected savings on rates for 96 High Street & Suffolk House as now tenanted.

For noting, figures in brackets represent a favourable variance

Future Issues/Risk Areas

Any surplus on this budget will be transferred to a reserve as agreed at budget setting to assist with any future maintenance and voids

PROPERTY INVESTMENT STRATEGY UPDATE

Finance Advisory Committee - 29 January 2019

Report of	Chief Finance Officer's
Status	For Decision
Also considered by	Cabinet - 14 February 2019 Council - 26 February 2019
Key Decision	No

Executive Summary: This report provides an update on the progress of the Property Investment Strategy to date and looks at the future direction of the strategy.

The Property Investment Strategy was approved by Council on 22 July 2014 to support the aim of the council becoming more financially self-sufficient as Government Support continued to reduce.

The acquisitions to date have helped the council achieve this aim and are currently overachieving the income budgets previously agreed by Members. This report provides an update on those acquisitions.

In a changing property market it is important to review the criteria of the strategy on a regular basis.

Portfolio Holder	Cllr. Peter Fleming, Cllr. John Scholey
Contact Officers	Adrian Rowbotham, Ext. 7153 Andrew Stirling, Ext. 7099 Alan Mitchell, Ext. 7483

Recommendation to Finance Advisory Committee:

- a) That the report be noted.
- b) Forward comments to Cabinet including recommended changes to the Property Investment Strategy criteria.

Recommendation to Cabinet:

- a) Cabinet considers any comments from Finance Advisory Committee and notes the report.
- b) Any changes to the Property Investment Strategy criteria be recommended to Council

Recommendation to Council:

Council agrees the updated Property Investment Strategy criteria recommended by Cabinet.

Introduction and Background

- 1 In recent years Sevenoaks District Council has been faced with ongoing reductions in Government Support culminating in it no longer receiving Revenue Support Grant from 2017/18. This has led to a number of decisions that have been taken through the 10-year budget process to try and ensure that the council remains in a financially sustainable position going forwards.
- 2 On 7 November 2013, Cabinet approved the Corporate Plan which set out key focus areas for the organisation including the need to become more financially self-sufficient. The agreed plan articulated an approach of investing in assets that will generate revenue income to allow less reliance on diminishing Government Support. It goes on to state that this could be done either through the review of use of reserves or through borrowing at low interest rates.
- 3 On 22 July 2014, Council agreed the Property Investment Strategy with specific criteria. The criteria were updated at Council on 25 April 2017 and the current criteria are included at Appendix A.

Funding Agreed to Date

- 4 A total of £50.3m of funding for the Property Investment Strategy (including the Sennocke Hotel) has been agreed to date as follows:
 - £5m Council 22 July 2014
 - £3m Council 17 February 2015
 - £10m Council 21 July 2015
 - £7.3m (total spend) Sennocke Hotel Council 3 November 2015
 - £25m Council 25 April 2017

Activity to Date

5 A summary of the expenditure to date is included in the following table:

Date	Activity	Total Cost £000	Average Annual Income Yield %
Activities achieving the required return			
Apr 2015	Suffolk House, Sevenoaks (including refurb.) (office)	4,837	9.1% (7.1% before refurb.)
May 2015	Swanley Petrol Station and Supermarket	2,566	7.2%
Mar 2017	26-28 Pembroke Road, Sevenoaks (office)	4,673	6.0%
Aug 2018	Sennocke Hotel, Sevenoaks	7,332	6.3%
Other Activities			
Feb 2015	Swanley Working Men's Club (including demolition)	1,393	-
2016/17	Quercus 7 set up costs	13	-
Feb 2017	96 High Street, Sevenoaks (retail, office)	4,336	Currently 2.7% Basic option 7% Other options 7%+
May 2017	Croft Road, Westerham (housing option)	100	
	Total	25,250	

6 £25m of the £50.3m approved is therefore unspent.

7 **Swanley Working Men's Club** (February 2015) - The premises were demolished in July 2016. This site will be part of the gateway to Swanley. Feasibility studies are being undertaken to establish viable redevelopment options for this site which take into account its location in the Town Centre

Agenda Item 14

and requirement to meet the Property Investment Strategy return on investment criteria. This work is linked to the sites at 27-37 High Street and White Oak in Swanley that are referred to later in the report.

- 8 **Suffolk House, Sevenoaks (April 2015)** - This office building is in a town centre location with diminishing levels of office stock in the area. It consists of a total of 16,699 sq ft of office space over four floors with 84 parking spaces. It is managed by a property management company with costs recoverable under a service charge. All floors have now been refurbished to grade A standard office space and the price per square foot is now significantly higher than when the building was purchased. All space is currently let and a return of over 9% is being achieved.
- 9 **Swanley Petrol Station and Supermarket (May 2015)** - The property comprises a 2,789 sq ft convenience store building with 15 car parking spaces, 8 multi-fuel pump forecourt with jet wash and car wash on a 0.589acre site. The property is let on a lease expiring in August 2030.
- 10 **Quercus 7 set up costs** - expenditure was approved by Council on 31 March 2015 to be funded from the Property Investment Strategy Reserve.
- 11 **96 High Street, Sevenoaks (February 2017)** - This premises consists of ground floor retail space, 1st and 2nd floor office space with residential potential and development opportunity to rear. The most basic option of refurbishing the office space and selling the land to the rear will give a 7% annual return. The land at the rear is next to a council car park which in turn is next to the bus station and therefore has the potential to be a catalyst for wider development. Initial feasibility work is underway on the options for the site which will take into account its location in the Town Centre and requirement to meet the Investment Strategy return on investment criteria. A 'meanwhile use' has been found for the remainder of the property. The first and second floors have been let to the Second Floor Studios CIC, which has converted the space into 19 artists studios and this agreement lasts until 2021.
- 12 **26-28 Pembroke Road, Sevenoaks (March 2017)** - This is a modern freehold office investment in Sevenoaks town centre. The 10,499 sq ft building over three floors has 56 car parking spaces is currently fully let on a ten year lease.
- 13 **Croft Road, Westerham** - This land has been sold to a developer to build 18 residential units. The council has taken up an option to acquire two houses at a discount (based on an agreed price formula). It is proposed to sell the properties and the first property was completed in August 2018. In the light of current market conditions consideration is being given to holding the property in Quercus 7 Ltd and letting it until market conditions improve
- 14 All acquisitions have been supported by a thorough business case and approved by the Policy & Performance Portfolio Holder in consultation with the Finance Portfolio Holder as required by Council.

- 15 **Sennocke Hotel (August 2018)** - The 83 bed Premier Inn was completed in July 2018 and opened for trading on 4th August 2018. The hotel scheme and the funding method were separately approved by Council but it is recognised as a Property Investment Strategy asset with the income being included in the figures below. Following an initial rent free period, income is due to be received from May 2019 and is reflected in the increased budget from 2019/20.

Property Investment Strategy Income

- 16 The 10-year budget approved by Council on 20 February 2018 included net Property Investment Strategy income of £735,000 in 2018/19 and £1.185m in 2019/20.
- 17 Net income of £755,000 is forecast in 2018/19, therefore £20,000 above the budget. £30,000 is also proposed to be transferred to the Property Investment Strategy Maintenance Reserve to help cover future liabilities.
- 18 It is proposed that the budget for 2019/20 be increased from £1.185m to £1.258m to reflect the income expected from the current portfolio. This is after transferring £100,000 into the Property Investment Strategy Maintenance Reserve.
- 19 It is proposed that the budget for 2020/21 - 2022/23 be increased from £1.185m to £1.311m per annum again with £100,000 per annum being transferred into the Property Investment Strategy Maintenance Reserve.

Funding Sources

- 20 The £25.3m spent to date has been funded by:
- Property Reserve and Financial Plan Reserve £11.5m. Funds put aside for the Property Investment Strategy agreed as part of the annual budget setting process including New Homes Bonus.
 - Capital receipts £9.5m. Proceeds from the sale of council assets.
 - Internal borrowing £4.3m. From council balances. No interest is paid but Minimum Revenue Provision (MRP) is charged. MRP is the minimum amount which must be charged to the revenue account each year and set aside as provision for repaying loans and meeting other credit liabilities. This is a requirement for any form of borrowing so that an amount is set aside to repay the loan. An MRP charge of £150,000 is forecast in 2018/19.
 - External borrowing £nil. This funding method incurs interest and MRP costs each year.
- 21 Funding options will be considered on a case by case basis and may be funded by reserves, capital receipts, internal borrowing or external borrowing. Due to current commitments it is likely that a significant

Agenda Item 14

proportion will come from external borrowing (PWL 30 year annuity loan interest rate at 02/01/19 is 2.63%).

- 22 A Member Working Group is currently investigating Income Strip Funding as an additional funding source (as requested by Council) and depending on their findings, this may be a more beneficial way of funding some schemes.
- 23 Each scheme will also be analysed to decide whether it is preferable to proceed as the council or via Quercus 7. £5m of the approved Property Investment Strategy funding has been earmarked for Quercus 7.
- 24 As investment in the Property Investment Strategy continues to increase and the requirement to obtain external borrowing becomes more prominent, the Finance Portfolio Holder is keen that the 'gearing' of funding of the council's investment properties remains below 30%.
- 25 Gearing refers to the level of an organisations debt related to capital and expressed in percentage terms. For this council's purposes it is taken as the amount of external borrowing used to fund investment properties (including those outside of the Property Investment Strategy) as a percentage of the value of investment properties.
- 26 As no external borrowing has been used to fund the current investment properties, the gearing ratio is 0%. If the remaining £25m approved for the Property Investment Strategy was spent, up to £15m could be funded from external borrowing to keep the gearing ratio below 30%.

Future Opportunities

- 27 Due to the number of developments planned for the next few years it is recommended that the emphasis for any further acquisitions are for sites where no further work is required rather than those with development potential.
- 28 Current developments being investigated include industrial units as the portfolio does not currently include any assets in this category.
- 29 Work on current property holdings in Swanley and Sevenoaks High Street are continuing.
- 30 **Small sites development** (including Stangrove Estate and Spitals Cross, Edenbridge). Following a consultation with the local community on improvements to parking, management of open space and trees together with a new local shop and some new homes on the Stangrove Estate, further work has been carried out on the proposals. It is likely that they will be progressed in 2019.

Feasibility schemes have been prepared for a site in Church Road, Kemsing and two sites in Swanley. A planning application for three accessible bungalows on land owned by the Council at Church Road, Kemsing will be submitted in the summer of 2019. Scheme designs are being finalised prior

to a public information event for two sites Russett Way and Alder Way, Swanley.

- 31 **Otford Road Park and Ride site** - This site has been included within the draft Local Plan as an employment site. There is a considerable shortage of modern light industrial units in the District and it is proposed to undertake a feasibility study for the development of employment units on this site to generate further income for the Council.

Risks

- 32 The risks of the Property Investment Strategy are included in Appendix B. The risks are reviewed each year and were initially analysed by the Audit Committee on 9 September 2014.
- 33 The Council's Strategic Risk Register was also agreed by the Audit Committee on 16 October 2018 and the relevant category for the Property Investment Strategy is also included in Appendix B.
- 34 Property Investment is inherently more risky than leaving reserves in the bank but this has been taken to account when approving the Property Investment Strategy and setting the investment criteria.
- 35 The risks of each potential investment are considered by carrying out due diligence to include the following:
- Valuation.
 - Market conditions.
 - Covenant strength of tenants.
 - Terms of leases.
 - Structural surveys.
 - Funding options.
 - Future costs.
- 36 It should be recognised that there is likely to be a time when there are business reasons to dispose of assets currently owned and invest elsewhere instead.
- 37 The Scrutiny Committee set up a Property Investment Strategy Member Working Group at their meeting on 5 July 2016 and reported their findings at the Scrutiny Committee on 30 March 2017.
- 38 The Member Working Group concluded that the benefits of the Property Investment Strategy do outweigh the risks, provided that the council remains constantly aware of changes in the market and financial risks.

Agenda Item 14

- 39 Internal Audit completed an audit report on the Property Investment Strategy in 2017/18. The audit opinion given in the report was of full assurance.
- 40 The audit report conclusion was as follows: “Audit fieldwork confirmed effective governance and financial arrangements are in place for the delivery of the Property Investment Strategy. The attainment of set objectives is being achieved. Existing arrangements are fit for purpose for the delivery of the Strategy and comply with Council procedures.”
- 41 CIPFA are currently looking to amend the Prudential Framework of Capital Finance. This may affect the ability to borrow for investments outside of the district and also to borrow in advance of need. Officers will continue to monitor this situation and report to Members if any changes are likely to affect the ability for future investments to meet the Property Investment Strategy criteria.

Property Investment Strategy Criteria

- 42 The annual update report gives Members the opportunity to review the Property Investment Strategy criteria previously agreed. The current criteria are included in Appendix A.
- 43 Areas Members may wish to consider include:
- i. Income Yield of 5%+ when not borrowing or in excess of 3% for schemes that include some external borrowing, based on an average over 10 years. (Flexibility may be applied to those opportunities that show an acceptable social return on investment).

It may be more appropriate to set the two elements at a consistent % above different bases such as ‘Income Yield of 3%+ above the Council’s current average treasury management return (currently 0.7%) when not borrowing or internally borrowing, and 3%+ above the borrowing rate (currently 2.6% for 30 years) when externally borrowing, based on an average over 10 years. (Flexibility may be applied to those opportunities that show an acceptable social return on investment).’

- ii. Lot size of £1m - £5m

The lot size has remained unchanged since the strategy started in 2014. It was originally set at this level because at the time it was viewed that this range was above that of small investors but below that of institutional investors.

The view of Allsop (independent property consultancy) is that it has been a rising market in recent years and therefore smaller investors are now interested in the £1-5m range making it a more competitive market. The current view is that there is a

natural cut off at £5m and a further one at £10m. Therefore it may be beneficial to amend the lot size to £1m - £10m.

iii. Individual Properties or Portfolios / Lot size of £1m - £5m

If buying a portfolio of properties or a number of flats/units in a building, the current criteria limits the total size of each scheme to £5m. It may be more appropriate to apply the limit to individual properties within a portfolio or individual flats/units in a building.

iv. Investment opportunities are restricted to those within a 50 mile radius of the Council's Argyle Road offices.

This may need to be changed in future as CIPFA are reviewing whether council's should be able to borrow for investments outside of their area.

44 The Property Investment Strategy criteria also applies to Quercus 7 for private sector residential acquisitions.

Key Implications

Financial

As previously stated in this report, the Property Investment Strategy is a major contributor to deliver the aim of the council remaining financially self-sufficient.

It is expected that a significant proportion of future Property Investment Strategy funding will be provided by external borrowing. Each acquisition will be looked at on a case by case basis to ensure that the most appropriate funding method is used.

Legal Implications and Risk Assessment Statement.

Legal resources would be required to undertake legal pre-purchase due diligence for any future acquisitions. This would be undertaken either internally by the Council's Legal Team or externally and a decision would be made on a case by case basis.

A full risk analysis is included at Appendix B to this report.

Equality Assessment

The decisions recommended through this paper have a remote or low relevance to the substance of the Equality Act. There is no perceived impact on end users.

Agenda Item 14

Value for Money and Asset Maintenance

Value for money derived from available finances when looked at in conjunction with the Treasury Management Strategy has the ability to be increased via the Property Investment Strategy.

Conclusions

In acknowledgement of the position with Government Support and the continued low returns on investment of reserves, further investment in the Property Investment Strategy will continue to ensure that the Council remains financially self-sufficient.

Adrian Rowbotham

Chief Finance Officer

Property Investment Strategy Criteria

- 1 The strategy will consist of a diversified and balanced portfolio of investment assets with regard to the following considerations.
- 2 Established property investment practice has evolved based on long standing markets for assets in main stream sectors such as Offices, Retail, Industrial and Residential. Investing in these traditional asset categories in a balanced fashion, allows for a lower risk investment when compared to emerging markets such as Student Accommodation, Nursing Homes and Medical Centres.
- 3 When considering the tenure of an asset, freehold would be preferable to leasehold. Freehold provides for greater levels of security against a leasehold asset that would effectively decrease in value over time. However assets on long leasehold basis may still be suitable for consideration.
- 4 Whilst properties let to only one tenant may offer an acceptable level of risk, multi-tenanted properties would be favourable as they offer the opportunity to minimise the impact of any one part of the asset being vacant due to tenant default or lease expiry. If assets are occupied by a single tenant, then detailed financial due diligence would be undertaken to ascertain their financial stability.
- 5 Investment opportunities are restricted to those within a 50 mile radius of the Council's Argyle Road offices.
- 6 Based on the above considerations and taking into account local market conditions, a suggested lot size of between £1m and £5m is recommended. This is to avoid the lower part of the local market where private high net worth individuals would be seeking to invest and also the high end, where Pension Funds and Life Assurance Funds tend to dominate.
- 7 Given the likely risk profile of an asset meeting the above considerations, it is suggested that an income yield of in excess of 5%* (based on advice from Savills) when not borrowing or in excess of 3% for schemes that include some external borrowing is appropriate. Opportunities should be sought that lend themselves to a potential to increase rental income than is currently being realised. (*The income yield is calculated as an average return over 10 years).

- 8 A limited number of opportunities that include the potential for development should also be considered. This approach may have the potential to deliver an additional 20-30% return on investment could be realised.
- 9 Where sites that are already in the ownership of the Council could be redeveloped in partnership with neighbouring sites, added value can be derived from 'marriage' of the sites. Consideration should be given to Joint Venture (JV) projects that maximise value, with priority given to those which would result in the delivery of assets meeting the investment criteria.
- 10 It is proposed that external specialist property investment advisors be retained on each transaction, advising on suitability having undertaken detailed pre purchase due diligence, including valuation, risk analysis and lease / title reviews.
- 11 Taking all of the above considerations into account, the following specific criteria are proposed:
 - i. Income Yield of 5%+ when not borrowing or in excess of 3% for schemes that include some external borrowing, based on an average over 10 years. (Flexibility may be applied to those opportunities that show an acceptable social return on investment)
 - ii. Individual Properties or Portfolios
 - iii. Lot size of £1m - £5m
 - iv. Freehold / Long Leasehold
 - v. Single or Multi Tenanted
 - vi. Asset categories: Industrial, Office, Retail, Trade Counter and Private Residential
 - vii. Potential to increase rental income, through pro-active Asset Management
- 12 It is proposed that initially, the Strategic Asset Management and Operational Property Management of the portfolio be delivered from existing resource within the Council's Economic Development and Property Team. There will however be times when specialist external advice is needed and this work will be commissioned on an 'as required' basis, funded from the income from the assets. This approach is to be reviewed regularly, including ongoing resource requirements, as the portfolio grows.

- 13 Funding for the acquisition of assets should be reviewed on a case by case basis but could be derived from a number of sources:
- Receipts from previous property disposals.
 - Receipts from proposed land / property disposals in future years.
 - Reallocation of some of the funds currently held in reserves.
 - Borrowing from the Public Works Loan Board.
 - Borrowing from the Municipal Bonds Agency.
- 14 Each scheme will also be analysed to decide whether it is preferable to proceed as the council or via Quercus 7.

Property Investment Strategy - Risk Analysis

Risk	Risk Areas	Likelihood 1(low)- 5(High)	Impact 1(low)- 5(High)	Total Score	Controls
Downturn in property market	Capital value and income potential reduce for purchased assets	4	3	12	Continued monitoring of markets. Sale of Assets at a benchmarked threshold. Red Book Valuation undertaken as part of acquisition process.
Upturn in property market	Purchase cost of potential assets increases	2	4	16	Continued monitoring of markets. Adjusting purchase criteria to reflect market movement. Consider sales of assets for capital gain. Red Book Valuation undertaken as part of acquisition process.
Increase in interest rates (borrowing)	Cost of borrowing increases with detrimental impact on income	4	3	12	Ensure most competitive rate achieved if borrowing, fixed term if possible. Consider increased use of reserves to ensure loan to value ratios are acceptable.
Increase in interest rates (investment)	Lower rate of return when compared to other potential treasury management income	4	1	4	Consider revising income return criteria upwards. Consider disposal of assets for re-investment
Restrictions on borrowing	Potential changes to the Prudential Code regarding what borrowing can be used for	4	3	12	Variety of funding sources. Amend property search criteria.

Available opportunities	Market opportunities meeting investment criteria not available.	4	4	16	Identify opportunities early and move swiftly to acquire. Review Property Investment Strategy criteria annually.
Changes in Tenant Demand	Certain types of property may become less favourable with tenants.	3	3	9	Construct a varied portfolio by use, i.e. mixture of shops, offices, industrial, residential etc.
Obsolescence of Asset	Physical obsolesce in terms of building fabric and fit out	3	4	12	Ensure Full Repairing and Insuring Leases are in place via pre-purchase due diligence. Have building surveys undertaken to establish condition of building. Establish Property Investment Strategy Maintenance Reserve.
Tenant default	Loss of rental income, increased costs incurred	3	4	12	Undertake financial due diligence of tenants pre-purchase, obtain the best possible tenant covenants. Look for guarantors or cash deposits where covenants are considered weak. Consider multi-tenanted properties in order to diversify risk. Ensure robust credit control procedures in place. Monitor tenant company performance.
Void periods	Loss of rental income, holding costs incurred - rates, utilities etc. Costs of re-letting	3	4	12	Monitoring tenancies as described above. Move quickly to appoint letting agents should a void period appear likely. Act expediently in concluding legal process of letting.

Illiquidity of Property Assets	Asset identified for disposal to raise capital receipt or for reinvestment	2	4	8	Ensure that assets are kept “sale ready” in terms of documentation and information.
Staff Resources	Lack of suitably professionally qualified staff	2	3	6	Ensure that appropriately professionally qualified staff, with experience in Property Investment, are available to act on the Council’s behalf.
Residential Properties - generally all of the above plus greater landlord input, more management intensive	Residential Properties generally require a more active landlord involvement, maintaining the structure and services of a property - maintenance costs and management costs are therefore higher.	3	3	9	Ensure that increased holding costs are factored into purchase valuations Appoint external professionals to manage landlord and tenant processes Ensure that tenant deposits are taken

Strategic Risk Register Item - Agreed by Audit Committee 16 October 2018

Risk Factors	Potential Effect	Gross Likelihood	Gross Impact	Gross Rating	Internal Controls	Net Likelihood	Net Impact	Net Rating
SR02: Property Investment Strategy - Failure to identify opportunities to meet the Property Investment Strategy								
Lead Officer: Adrian Rowbotham								
<ul style="list-style-type: none"> Ability to seek appropriate investment opportunities Appetite for risk within investment strategy to enable the Council to generate target returns Ability to deliver sufficient funds to maximise the opportunities presented through the Property Investment Strategy Appetite to prudentially borrow over the medium to long term The cost of interest payments Lack of capacity or skilled professionals to advise on investment and borrowing strategies Ineffective governance processes that could result in opportunities being missed or being ineffectively scrutinised Ineffective use of Quercus 7 to support the Council's investment strategy Ability to borrow funds 	<ul style="list-style-type: none"> Lack of diversity in investments Cost of interest payments Negative impact on budgets, reserves and the ability to deliver Council projects Poor financial health Unable to maintain low increases in council tax levels Reputational damage Poor outcome for the Audit of Accounts or Value for Money assessment and potential for increased intervention 	4	4	16	<ul style="list-style-type: none"> Council approved Property Investment Strategy, with defined rates of return demonstrating risk appetite Governance arrangements defined with appropriate delegations agreed Qualified and experienced officers in post Professional, external advisers engaged to support the development of strategies and fill skills gaps Effective budget setting and financial monitoring processes embedded Effective financial governance including reports to FAC, Cabinet, Audit Committee and Scrutiny Committee Regular Quercus 7 Board and Trading Board meetings - including regular review of investment parameters to monitor market fluctuations 	3	3	9

Assessing and quantifying threats and opportunities

How likely is it to happen?

What would the impact be?

Likelihood x Impact = Risk Rating

Low Risk: Risk rating of 1 to 6

Medium Risk: Risk rating of 8 to 12

High Risk: Risk rating of 15 to 25

Likelihood	Very Likely (5)	Low (5)	Medium (10)	High (15)	High (20)	High (25)
	Likely (4)	Low (4)	Medium (8)	Medium (12)	High (16)	High (20)
	Possible (3)	Low (4)	Low (6)	Medium (9)	Medium (12)	High (15)
	Unlikely (2)	Low (2)	Low (4)	Low (6)	Medium (8)	Medium (10)
	Very Unlikely (1)	Low (1)	Low (2)	Low (3)	Low (4)	Low (5)
		No Impact (1)	Minor (2)	Significant (3)	Serious (4)	Breakdown of Services (5)
