Health and Wellbeing Boards

The Kent HWB Board will aims to:

- Using the JSNA and HWBS to identify gaps across Kent which need addressing
- Broader Kent-wide thinking at strategic health level
- Deliver through:
 - Integrated commissioning, leading to
 - Integrated provision, which will be...
 - Person centred and enabling

Joint Health and Wellbeing Strategy

Priority 1

Tackle key health issues where Kent is performing worse than the England average

Priority 2

Tackle health inequalities

Priority 3

Tackle the gaps in provision

Priority 4

Transform services to improve outcomes, patient experience and value for money

Approach: Integrated Commissioning

Approach: Integrated Provision

Approach: Person Centered

Outcome 1

Every child has the best start in life

Outcome 2

Effective prevention of ill health by people taking greater responsibility for their health and wellbeing

Outcome 3

The quality of life for people with long term conditions is enhanced and they have access to good quality care and support

Outcome 4

People with mental ill health issues are supported to live well

Outcome 5

People with dementia are assessed and treated earlier

District's Action

PH Outcome Framework

Approximate catchment areas of clinical commissioning groups in Kent and Medway [October 2011]

Clinical Commissioning Group

- Ashford Locality Commissioning Group
- Canterbury and Coastal
- Dartford Gravesham & Swanley
- Maidstone & Malling
- Medway
- South Kent Coast
- Swale Locality Consortium
- Thanet
- West Kent and Weald
- all others

District boundary

Please note Clinical Commissioning Groups (CCGs) have been allocated on to lower level super output areas on the basis on which the majority of patients are resident in that area. True catchment areas overlap and CCGs are subject to further change.

Registered patient list correct as at 26th September 2011

What the CCGs want to achieve:

Through partnership working:

- Influence and direct behaviours and commission services for better patient outcomes
- Safeguard vital services and prioritise needs
- Maintain and improve quality and make best use of resources
- Provide strong clinical leadership
- Encourage and enable providers to be more efficient and focus more on quality
- Greater emphasis on preventative health
