599 users of which...

New Ash Green
386 users of which...

- 308 only use New Ash Green
- 15 also use Greenlands at Darenth
Technical Notes:
Based on an analysis of activity data taken from Estart, covering 1st October 2011 to 30th September 2012
Usage bubble chart shows other centres used. In most cases, other centres used by >30 children are shown, up to a maximum of 7 other centres
This analysis is child-based (counting each child only once against each centre they have attended, regardless of frequency), and covers attendees from both within and outside of the registered area (although anonymous attendees are not included).
Library Usage Amongst Children's Centre Users

**Technical Notes:**
Usage statistics based on an analysis of activity data taken from Estart, covering 1st October 2011 to 30th September 2012.
Frequent users: Are defined as children recorded as having used the centre 12+ times over the year, with an adjustment made for under 1's.
Catchments: Needs are assessed based on the population (with 0-11 year olds) living within the calculated 'actual/natural' catchment for each centre. In this analysis catchments are built at LSOA-level, with each LSOA in Kent allocated to a centre on the basis of the centre that has the most current users living in that LSOA area.
Need Statistics: Levels of need are calculated both in terms of the total volume of need (i.e. numbers of children/households of a range of 11 need types) and in terms of the penetration of the need (i.e. the % of children/households of each of a range of 11 need types).
Population projections: Based on Ward-level projections for 2026, produced by Research & Intelligence, Kent County Council.

- Green font indicates the centre is upper quartile on this measure
- Red font indicates the centre is lower quartile on this measure
