RE: Joint Transportation Board; Flooding in and around Sevenoaks

Dear Councillor London

Following the recent flooding which has affected much of the United Kingdom, Sevenoaks Town Councillors wished to request that the Joint Transportation Board identify the responsible body for coordinating the response to flooded roads and transport routes.

At present it is unclear if a single body is responsible for coordinating the response; if no single body is charged with coordination would the Joint Transportation Board be willing adopt this role to ensure that, in future, there is clear leadership on flooding issues in Sevenoaks District

Yours sincerely
