Subject: Kent Police Representations in relation to DPS application - The Vault - New Ash Green

Dear Mr Kirkman

Following our conversation today, please find attached the representations made by Kent Police in response to your application to vary the Designated Premises Supervisor at The Vault.

In addition and my apologies for forgetting to mention this on the phone. When I attended the premises yesterday the Blue Public Notice was tucked down the side of one of the crates in the front window. When erected I put it in the centre of the window (the blue tac marks were still visible) and it appears as though the notice had been taken down so as not on view (as in the position it was photographed it could not have fallen down). Unfortunately I will need to address this in the report going to the Licensing Sub-Committee which doesn't look too good... therefore I would be grateful if you could provide an explanation or some response that I could include in the report I would be grateful.

Kind regards

Michael Moss
Licensing Partnership Manager
