

Guidance: **Measures to improve local audit delays** – A new package of measures to support the improved timeliness of local audit. Published 16 December 2021

From: [Department for Levelling Up, Housing and Communities](#)

SELECTED EXTRACTS:

Local government audit plays a vital role in providing local authorities with accurate and reliable financial information to plan and manage their services and finances effectively. The timely completion of local audit also ensures local authority financial arrangements, including whether value for money is being achieved, are transparent to the taxpayer, and facilitates assurance for the public sector more broadly through the audit of the Whole of Government Accounts.

We remain committed to the principles of a locally-led audit regime, as embodied in the Local Audit and Accountability Act 2014 and have further demonstrated our commitment to this vision for the local audit market through our response to Sir Tony Redmond's [independent review](#) of local authority financial reporting and external audit. The government is also grateful for the support shown by stakeholders across the sector, who have been working with us to implement the Redmond Review recommendations. However, challenges remain around the timeliness of local audit, one of the key issues highlighted by Sir Tony. In 2017/18 the deadline for issuing audit opinions was brought forward from 30 September to 31 July. Since this point there has been a reduction in the number of local government audit opinions delivered on time, with significant reductions from 2018/19 onwards. This downward trend accelerated during the COVID-19 pandemic, with only 45% of 2019/20 audits completed by the extended deadline of 30 November 2020 and, most recently, only 9% of 2020/21 audits completed by the extended deadline of 30 September 2021.

Audit deadlines

We (*the Government*) also recognise that the extent of ongoing changes in the local audit system is unhelpful to audit firms who are looking to plan for the next 5-year appointing period. In March 2021 new regulations came in force to extend the deadline for publishing audited local authority accounts to 30 September from 31 July from 2020/21, a change which we committed to review after 2 years.

In light of the extent of ongoing delays and capacity issues, a decision to revert to the previous deadline of 31 July would be both unrealistic and counterproductive, especially as the backlog of delayed 2020/21 audits will likely have knock-on effects for future years. However, there are good reasons why an earlier deadline would be beneficial; elements of multiple central government departments' and arms-length bodies' accounts are subject to local audit (e.g. because they employ staff on local government pension schemes) and so extending the deadline risk the timely completion of those bodies' accounts, which in turn can delay the preparation of the Whole of Government Accounts.

Therefore, we will, subject to consultation, introduce secondary legislation to extend the deadline for publishing audited local authority accounts to 30 November 2022 for the 21/22 accounts. Following this, to provide certainty for the next contract period under the procurement arrangements being managed by PSAA, the deadline will revert to 30 September for 5 years from until 2027/28, and be reviewed at that point.

We propose, subject to consultation, that the deadline for preparing draft accounts remains at 31 May, as the majority of local authorities are continuing to meet this requirement and any changes would have implications for the Whole of Government Accounts.

Audit committees

The government is committed to supporting the improvement of audit committee arrangements and delivery of good practice in response to Sir Tony's recommendations through the development and production of strengthened guidance on audit committees. CIPFA is leading this work, with support and input from the LGA, PSAA, and others, and revised guidance will be published in spring 2022.

This guidance will emphasise the important role that audit committees have in ensuring that accounts are prepared to a high standard and that issues identified by audit firms are resolved swiftly. It will also include guidance on the appointment of independent members, who can often play a key part in ensuring the apolitical role of the audit committee. The government has recently consulted on whether the guidance, or the principle of audit committees themselves, should be made a statutory requirement, and will be setting out a response in due course, including the case for making independent members a statutory requirement.
