

**SWANLEY**  
RUGBY FOOTBALL CLUB

---

Funding Application

Swanley Sports Ground Project

Dear Grant Board,

I am writing as Chairman of Swanley Rugby Club and wish to express our full support behind this project.

The facility will massively support our rugby club, as we will now be able to secure the future of the club and attract more players from all walks of life. This in turn will enable us to contribute more to the local community through our members. We currently have a men's senior team, a women's senior team and a growing youth section. We are fast outgrowing our current facilities and need to manage our impact on other sports teams in Swanley.

In the four years since the club was founded we have been promoted 3 times and now play in the Kent 2 league.

Swanley Bowls and Swanley Boxing club, who are both based at The Olympic, will also benefit from the changing rooms and toilet facilities built into this project. We are firm believers in working with and sharing facilities with other sports and organisations to the mutual benefit of all. This project proposal will assist to increase participation, create a positive safe environment, and to reduce anti-social behaviour and crime.

We also work closely with Swanley's Town Clerk and other partners that ultimately bring social and wellbeing benefits to our local community.

If I could provide further information please do not hesitate to contact me.

Yours Faithfully,

Paul Yates, Chairman, Swanley RFC
