

Funding Application

Swanley Sports Ground Project

Dear Grant Board,

I am writing on behalf of the Swanley Sport Forum in support of the Sports Ground application by Swanley Town Council for this grant application. The project supports Swanley Sport Forum mission of 'Creating, Developing and Supporting Sport' in the Swanley area.

This project will help benefit sport across the town by providing much needed facilities which will alleviate the pressure on Swanley Recreation Ground. Should this project be successful, Swanley's football teams can return because once again there could be two football pitches in the town.

The facility will predominately benefit the rugby club, who will be able to grow and attract more female players as well as men and children at this new location. Swanley Bowls and Swanley Boxing club, who are both based at The Olympic, will also benefit from the changing rooms and toilet facilities built into this project. This project proposal will assist to increase participation, create a positive safe environment, and to reduce anti-social behaviour and crime.

We will continue to work together with STC and other partners that ultimately bring social and wellbeing benefits to our local community.

If I could provide further information please do not hesitate to contact me.

Yours Faithfully,

Ryan M Hayman

Chairman

Swanley Sport Forum
