Hi Dear Sir/Madam

Please find the incident details as below;

On the 13th of August 2022 at 00:30 am two guys attended the premises, trying to get into Ephesus Restaurant where I work as a security. Showing me a video of two guys having a fight at the Pub called Restoration saying they are at Ephesus.

I refused entry as the premises does not take anyone in after 11 o'clock plus did not want anything to escalate, so I called the owner of the restaurant. The owner then viewed the video and said not to take the matter any further and calmed them down, walking them right down the street past the post office.

It was believed by myself and the owner that two guys had gone, however after closing at 1am the restaurant staff started cleaning, then we heard noise outside and realised that a fight had broken out with 4 guys.

We went out to try to stop the fight with the Ephesus staff and the police were called. We had to stop trying to help after a certain point as neither of the parties listened and went back into the premises.

Duty of Door Supervisor at the time

To whomsoever it may concern

October 12th 2022 friday, on a busy evening it all started while i (Akin) was serving a group of customers with their drinks order at the table was shown a video of brawl that happned earlier that evening by one of the customer saying it happned at [ **Not named on public record** ], after which i immediately notified the owner mr changir regarding the same and also made the rest of the staff members aware about the group staking from outside which could potentially lead to a fight.

the bar service was stopped immediately after that and we started with our closing duties, meanwhile our security (emanuel) and staff members tried to talk to the group outside and took them far away untill the post office, as we let the group from restaurant out slowly, we herd some arguments happening down the street, as both the groups crossed paths again and got into an heated alteracation, i(Akin) rushed out along with the security to help and seperate them as we didnt want to disturb the society.as we can see in scene1 02:13:15 im trying to calm the situation down so the noise dosent disturb our neighbours.

as seen in scene 2a 02:21:35 member of our staff trying to get us inside to prevent from more noise happening, as some customers were alredy trying to call police to help us stop the brawl, as it sounded better and safer option for us.

at this point the restourant was alredy shut with all our cleaning duties done for the night, waiting for our cabs to get back home as on weekends its very tough to get a cab in time due to peak hour for cabs.

as seen in scene 3 02:22:10, even our electrician had to join us helping to separate both the groups as the situation was getting worse every minute, with all the group effort from our team we did manage to separate the boys from the group and tried getting them inside the restaurant for their own safety as seen clearly in scene 4 02:22;13, when we almost had them inside the boys started getting aggressive towards the staff for separating them and not allowing them to fight. the restaurant owner mr cihangir also offred the boys drop home safely from the back exit wich was rejected instantly and they started damaging the property by punching glass doors and windows and forcefully went out all over again at this point we were helpless still waiting for any emergency response unit to turn up .

as seen in scene 5 and scene 5a 02:22:25 we are still trying to protect and separate them inorder to minimise the risk of any potential injuries sustained.

Akin Ozturk

To whomsoever it may concern.

Friday 12th of October 2022, A busy night for us at Ephesus, As we had quite a few bookings to serve, and make sure everyone has enjoyed their meal and having a good time,

As customer satisfaction, value for money, and guest/staff safety during operational hours is our main objective.

It pretty much looked like a nice evening, until one of our staff members got a video shown to him by a group of customers who had a fight prior coming to our restaurant at [ **Not named on public record** ] and eventually being followed and stalked by the other group from outside of our restaurant.

Upon realising the tension between the both the parties, we had to react quick in order to prevent any unnecessary situation, so we stopped the bar service immediately and started evacuating the place in an orderly manner.

Meanwhile our security (Emanuel) along with the manager tried to talk to the second group outside the restaurant, to maintain peace and even walked them till the post office.

Followed by we got the first group out as well, everything normal, while on their way back home the second group somehow again got into altercation and eventually the situation got tensed.

As we were already closed, our staff was doing cleaning duties to get the restaurant ready for service next day, we heard loud noises of people arguing, to which our staff quickly ran out and tried to separate and calm the situation

As we can clearly see in scene 1 02:13:15, our staff Akin is trying to calm the boys down, by separating them from the group.

As it was pretty intense situation which escalated so quickly we had to react fast. I was running back inside to grab my phone to call 911

Some of our customer lady told me that she is already on the emergency line trying to alert the police regarding the situation, to which I was thankful and as you can see in scene 2a 02:21:35 I'm trying to get all my staff inside, keeping in mind the police will show up soon and handle the situation. As I was concerned for the safety for the safety of our restaurant staff as well.

At these points we were outnumbered by both the groups, still we tried our best to separate both the parties as much as we could, so that they don't end up hurting each other.

In scene 3 02:22:10 as we can see, even our restaurant electrician had to jump in helping us, as somehow we managed to separate the boys from the group as visible in scene 4, our electrician trying to get the guys inside the restaurant

so they don't get attacked anymore. Even though our restaurant being shut, we tried to get them inside,

our restaurant owner mr chickoo also offered the boys to drive them home safely front the back door so they dont get attack anymore, to which they started getting physical with our staff and throwing punches out of agrattion and frustration on our restaurant glass windows so even though we din wanted them to go out again and get attacked, we had no other option then to let them go as them being very aggressive.

As in scene 5a our staff Akin and electrician still not giving up and trying to save them from absorbing further damage and injuries.
