Recommendation to Health Liaison Board

To note the report.

Introduction and Background

1 The Integrated Care Strategy has been produced by NHS Kent and Medway, Kent County Council and Medway Council, supported by district councils, Healthwatch organisations and the voluntary sector. It looks at how health and care colleagues from the NHS and local councils can work together to make improvements.

2 Its priorities include:

Giving children the best start in life and working to make sure they are not disadvantaged by where they live or their background and are free from fear or discrimination

Helping the most vulnerable and disadvantaged in society to improve their physical and mental health; with a focus on the social determinants of health and preventing people becoming ill in the first place

Helping people to manage their own health and wellbeing and be proactive partners in their care so they can live happy, independent and fulfilling lives; adding years to life and life to years

Supporting people with multiple health conditions to be part of a team with health and care professionals working compassionately to improve their health and wellbeing

Ensuring that when people need hospital services, most are available from people's nearest hospital; while providing centres of excellence for specialist care where that improves quality, safety and sustainability

Making Kent and Medway a great place for our colleagues to live, work and learn.

Kelly Webb will provide an update from the joint workshop held on Wednesday 10 May 2023.
