The event planning work is conducted to the highest standard to increase our contribution to arts and culture whilst minimising any adverse effects to local residents, public safety and the environment.

We believe good communication with stakeholders, such as local authorities and community groups, is vital to the success of any event and hope collaborative documents like this aid such communication.

The Kent Food Fest has 7-year track record without any significant concern, site safety, public safety.

We will ensure we liaise with all relevant police parties closely in the further planning of the event to ensure they are aware and in agreement with the Event Management Plans. Police presence at the event is always welcomed, though we feel that it is not necessarily required considering the private security arrangements we will have in place. The Food Fest has not required Police Presence in the past. Event security services SIA Licensed security will be used in any positions where searching, refusal of entry, patrolling or intervention may be required and at the sites of all licensable activities. A detailed crowd management plan will be produced following a risk assessment by a security specialist contractor planning exact security team numbers and positions.

### **Public Safety**

Stewards and volunteers will be used to assist with general information and monitoring of activity around the site. This team will not replace or replicate the provisions of the SIA Licensed security team; their purpose it to provide information to festival goers and a large network of eyes and ears around the event site. Stewards and volunteers will be trained before the event commencement.

### **The Prevention of Public Nuisance**

A noise assessment and management plan will be produced in order to consider and reduce the nuisance effects of noise arising from the event, taking into account the size, type and direction of each Soundsystem. The following conditions will be adhered to in managing noise created by the event: Between the hours of 11am and 10pm on the 5th August 2023. ### **Reasons for the Decision**

The reasons for the decision are:

The Sub-Committee have had regard to the representations made by the Applicant and interested parties, the Licensing Objectives, the Statutory Guidance issued under Section 182 of the Act and the Council's Statement of Licensing policy.

The Sub-Committee noted the concerns raised regarding traffic and noted that even if a licence was not granted some form of event could still take place which could still result in some impact on traffic, parking and access on local roads. It was noted that car parking spaces were provided by the applicant and they had offered to put down a grid in the event of wet weather. The Applicants had advised that attendees were not permitted to park on the public roads, including on verges or in front of drives.

It was noted that no objections were raised by Kent Fire & Rescue Service or Kent Police and a one-way system had been offered by the applicant. The applicants had reassured the local residents the impact from large vehicle movement before and after the event would be kept to a minimum and offered to make good any damage to verges.

The Sub-Committee was reassured that the applicant would have clear entrance and egress and the considerable debris would be removed and were reassured that the entire site and neighbouring areas would be cleared of any litter and restored

to its current Green Belt condition.

The Sub-Committee was satisfied regarding the advice, signage and shuttle service that would be offered to those arriving by train, to minimise risk to attendees walking on country lanes and were reassured that the mobile signal will be boosted for attendees to be able to call for a taxi at the end of event.

In consideration therefore of the impact of vehicular movements and parking and pedestrian movements around the site, under the consideration of Public Safety and the Prevention of Public Nuisance, the proposals were considered acceptable.

The Sub-Committee noted the concerns of the spill over and the impact of crime and disorder, public nuisance, and public safety onto adjoining and nearby areas and appreciated that the event organisers would make effort to inform the public by signage not to stray onto private land and noted there would be fencing separating the public right of way from the event site. The applicant had offered their security staff to look out for those straying onto private land. The proposals in this respect were considered acceptable.

It was noted that the applicant would be obliged to comply with a noise management plan and for it to be submitted to the Environmental Health Team. The Applicant stated assured the Sub-Committee that live music and sales of alcohol would cease by 21:30. The applicant had offered their telephone numbers to the residents should they have concerns on the day of the event regarding noise. The event had a relatively considerate ending time and was taking place on a Saturday to keep disturbance to a minimum to neighbours and children. In relation to noise and the objectives of the Prevention of Public Nuisance and the Protection of Children from Harm the proposals were considered acceptable.

The Sub-Committee notes that the application site is in an area of countryside and nearby to an Area of Outstanding Natural Beauty. It was considered that the impact would be transitory and not significant. The AONB would therefore be preserved. This is in consideration of the Council's duties under the Countryside and Rights of Way Act 2000 and the licensing objective of the prevention of public nuisance.

The Sub-Committee acknowledged that a number of the offers made at the Hearing by the applicants were not enforceable and had been given in good faith to alleviate some of the objectors concerns.

This licence granted at the Hearing is effective from the 05 August 2023.
