Hi Emma,

Further to our chat last week, I've reviewed what we previously proposed and I'd recommend the **below** tasks be taken forward as priority from our previous recommendation. The main output of this additional fee would be an RDP (same format as Routes 1+6) with a focus on feasibility of providing a continuous route between the Ragstones/Childsbridge Lane junction via Kemsing (assumed Dynes Road) and then across to Otford (indicative alignment shown in green on Google Plan [here](#)). The RDP would provide an overview of feasibility and the key design requirements to provide an LTN 1/20 compliant route between Childsbridge Lane (/Route 6) and Kemsing +Otford.

Based on below tasks, I would recommend a fee proposal of **£5,990 (ex-VAT)**.

### ***Stage 1 Feasibility Design and RDP***

- Design ambition
- **Network Review**
- **Street and Site Audits**
- **RDP Plan**
- Design Workshop
- Prepare Village Design Plan
- Stakeholder Engagement
- **SDC Comment**

### ***Stage 2 Outline Design***

- Outline design development
- LTN 1/20 Checks
- SDC/KCC Review
- Scheme Costing
- Stakeholder Engagement
- Design Iteration x 1
- Final Reporting

Let me know if you have any questions or need anything clarified from the below,

Best,

b
