Comments

Premises licence application - request for extended hours on Live Music / Recorded music

I have reviewed the above license application and can advise that insufficient information has been provided to fully assess proposal against the licensing Objectives.

It is important for Environmental Protection Team must consider potential impact to minimise the possibility of undermining Licensing Objectives Prevention of Public Nuisance The application states to extend hours of live music/recorded music. What time are they proposing to carry out this type of licensable activity. I understand this a restaurant which ideally should have background music.

We require further information regarding the proposal, plans, proposed hours of extension, type of music and measures to prevent public nuisance from occurring.

I reviewed our premises records, and no evidence exist to suggest there has been previous complaints regarding public nuisance matters. The current premises license has trading hours to 23.00 hours and such the proposal will potentially take amplified music into early hours and cause a nuisance. Therefore, supporting this application in the current state has the potential cause problems unless further information is provided.

By virtue of this email, the applicant is given further opportunity to provide information to clarify the concerns raised. Failure to provide the additional information, please consider this email as a formal representation.
