KCC Draft Freight Strategy for Consultation – Portfolio Holder

**Reasons for Decision:**

The proposed response welcomes elements of the strategy that are considered likely to benefit SDC residents that may be affected by movements of HGVs on unsuitable roads. KCC's proposal to work with Sat Nav manufacturers to produce settings that can map routes that are appropriate for HGVs is welcomed. Also welcomed is the proposal to include local residents in the reporting of contraventions of height and weight restrictions for vehicles. However, the response notes that KCC will need to ensure that it is able to take action to investigate and address persistent contraventions.
