

## **Item 7 – Health and Wellbeing Partnership Action Plan - 2025/26**

The attached report was considered by the Housing & Health Advisory Committee on 21 January 2025. The relevant Minute extract is below.

### **Housing & Health Advisory Committee (21 January 2025, Minute 41)**

The Health and Communities Manager presented the report which set out the 2025-26 Sevenoaks District Health and Wellbeing Action Plan which was a partnership plan and sets out to deliver against health targets. The new plan consisted of the same SMART targets and objectives as 2024-25 as partners agreed they should stay the same as they need time to be embedded. The Action Plan is a multi-agency document and is monitored on a quarterly basis by the Health & Wellbeing Partnership, to ensure that actions are on target and are helping to meet the identified success measures. Some suggestions which had been received from Councillors had been proposed to the Partners to see if they were deliverable before being able to be included in the plan.

Members discussed childhood immunisations, and raised concerns that the rates were dropping. The Health and Communities Manager advised that this was within the remit of the Healthcare partnership but she would discuss this with the partners and feedback to Members.

Further feedback was provided by Members on the Committee on the document, including which community and faith groups were contacted to help promote and publicise the work being undertaken. The Health and Communities Manager advised that she would look into the points raised, as there was some cross over with the Community Safety Action Plan. Members were advised that not all the data may be held by partners.

Members discussed whether a gap analysis in relation to the wider determinates of health could be undertaken to build a better picture of what was available to the district.

#### **Public Sector Equality Duty**

Members noted that consideration had been given to impacts under the Public Sector Equality Duty.

Resolved: That it be recommended to Cabinet to approve the District Health and Wellbeing partnership Action plan from 1 April 2025.
